Lifting the Veil Core Texts Series

History books can be boring to read but Dr. Charles Calisher has written a history of the early days of virus research that is anything but boring. His book emphasizes viruses, organization, and people, the combination which has led us to today. Using yellow fever and the virus that causes it, yellow fever virus, as an example of a disease caused by a virus transmitted by insects, Calisher takes us through the days when knowledge of these diseases was in short supply, techniques were primitive, but researchers were brilliant, innovative, and hard-working. From Louis Pasteur and Robert Koch, to Walter Reed and Max Theiler, and then to the more recent investigators, this book shows the sequences of events, how what is discovered becomes the basis for other discoveries. The results of the efforts of the earliest investigators were exciting and led them and those who followed to further discoveries about viruses: what they were, where they were, and who they infected. As discoveries were made, doors were opened to further studies, of the influence of the environment on virus presence and disease transmission, of the molecular characteristics of viruses that distinguish them from close and distant relatives and the taxonomy that binds them all, of diagnostic studies leading to early treatment, of the development of vaccines, and of the remarkable array of viruses that have already been recognized, some causing dreadful and shocking illnesses, some not known to cause illness at all. Viruses are the focus of the need for such a book, yellow fever virus, of course, but Ebola, Marburg, West Nile, and dengue viruses, the equine encephalitis viruses, hantaviruses and arenaviruses of rodents and humans, and newly recognized viruses of importance to humans, livestock, and wild animals. These viruses are reported by newspapers and public media but after a week or two, their names disappear from the public eye, replaced by newer stories of health problems. However, the viruses themselves do not disappear and physicians, veterinarians, and other scientists continue to investigate them in exotic locations, often at considerable risk to their own health and well-being. This book tells their communal story, the story of medical history, entomology, vector-borne diseases, virology, epidemiology and related fascinating but little recognized disciplines interweaving his own personal stories of the strengths, weaknesses, and eccentricities of individualistic, multidisciplinary people, those who have been involved in these studies for the past more than 100 years, Calisher has written a readable and humorous memoir, full of anecdotal comments but supported by documentation and

references. This book is readable by lay and professional people alike, and is written to provide students at any level, clinicians, educators, administrators, and societal historians with the background they need and want. The book is essential for anyone with a love of history or someone who is looking for knowledge that will put the pieces together.

Complete edition of *The Souls of Black Folk* by W. E. B. Du Bois. A foundational work of civil rights and required reading on race relations in America, Du Bois combines dignity with respect, achieving a book of power even after 100 years. "Herein lie buried many things which if read with patience may show the strange meaning of being black here at the dawning of the Twentieth Century.... I have sought here to sketch, in vague, uncertain outline, the spiritual world in which ten thousand thousand Americans live and strive." All students of thought should get this historic book. This edition is provided in a slim volume with full text at an affordable price. TABLE OF CONTENTS THE FORETHOUGHT I. OF OUR SPIRITUAL STRIVINGS II. OF THE DAWN OF FREEDOM III. OF MR. BOOKER T. WASHINGTON AND OTHERS IV. OF THE MEANING OF PROGRESS V. OF THE WINGS OF ATALANTA VI. OF THE TRAINING OF BLACK MEN VII. OF THE BLACK BELT VIII. OF THE QUEST OF THE GOLDEN FLEECE IX. OF THE SONS OF MASTER AND MAN X. OF THE FAITH OF THE FATHERS XI. OF THE PASSING OF THE FIRST-BORN XII. OF ALEXANDER CRUMMELL XIII. OF THE COMING OF JOHN XIV. OF THE SORROW SONGS THE AFTERTHOUGHT

This examination of a case of alien abduction "will captivate, bother, intrigue, and even frighten as one . . . contemplates its implications" (Dr. J. Allen Hynek, founder, Center for UFO Studies (CUFOS) Reviews). The Andreasson Affair is more than just a classic example of a close encounter. It is—to use the jargon of ufologists—a case of such "high strangeness" that even the most open-minded investigators were at first inclined to dismiss it out of hand. Yet it has become probably the best documented case of its kind to date, the subject of an intensive 12-month investigation conducted for the Center for UFO Studies (CUFOS) that involved, among other things, the recording of large quantities of testimony given under hypnosis, extensive lie detector testing of witnesses, detailed analysis of corroborative circumstantial evidence, exhaustive comparison with other such accounts, and much more. The Andreasson Affair includes: The most detailed description of any UFO abduction experience. Betty's precise drawings of her experience. A supporting foreword to the book by astronomer Dr. J. Allen Hynek. Verification of all events associated with Betty's experience. This new edition contains a new afterword for a new generation "Something

extraordinary happened to Betty Andreasson. Maybe she encountered non-human visitors or maybe something even more strange. Whatever the origin of her experience, her immensely powerful story awed me. Its rich and provocative imagery will remain with me forever." —Whitley Strieber, author of *Communion*

It's always hard to know what to say when a friend loses a loved one. This gift book can speak for you. Although God allows lives to be broken, God never intends you to lead a broken life. Know that it is not God's plan to leave you alone in your sorrow. Pam had a wonderful life—happy marriage, successful career. The future was full of plans to travel and enjoy grandchildren. In one heartbeat, everything changed. All her hopes and dreams for the future were gone. Life stopped. She had no idea how to live life as a young widow, nor walk the journey that lay ahead. Life had presented many challenges in the past—but nothing that equaled this Every ending provides a new beginning and a new direction. We cannot change our experiences, but we can accept the fact that a loving God has a plan and a purpose to move us forward and draw us closer to him. Choose to embrace each day—one day at a time. Believe that all things are possible and you can get ever closer to Lifting the Veil.

Lifting the Veil John Benjamins Publishing

The Parables of Kryon, by Lee Carroll, is a book of parables, filled with penetrating insights. As soon as you read one of these wonderful stories, you will be hooked as you recognize yourself, and your own situations in the parable.

Monsters, Catastrophes and the Anthropocene Ellora's Cave In 2012, Mormon General Authority Marlin K. Jensen acknowledged that members are leaving the Church of Jesus Christ of Latter-day Saints "in droves." Access to the internet is often credited and blamed for this mass exodus, where members learn about problematic doctrines and cover-ups of LDS history. Many are happy as Mormons. And many are not. Those who leave, and those doubters who stay, face struggles that few others can understand. Much of this suffering is caused by manipulative and controlling techniques pervasive throughout LDS doctrines and culture. Understanding these techniques will help recovering Mormons overcome the effects of belonging to a high-demand group. As a former Mormon, Luna Lindsey

experienced this coercive persuasion firsthand. Recovering Agency presents years of research into social psychology and the science of cult dynamics, to describe 31 mind control techniques, alongside examples of their use in Mormon scripture, lessons, and from the pulpit. Even if you have never been Mormon, chances are that coercive influence techniques have been used to manipulate you at some point. Turn the pages and learn the answers to longstanding questions about this unique American religion and about the human mind.

"The Ancients foretold of this time, and it's in the Mayan Calendar as well. So what does it mean? Is everything we know and have studied going to change? What are the new 'rules' of reality? Are there now new prophecies? The answers are all here in this book. For Kryon says that this is the beginning of the New Earth. The recalibration of self. The recalibration of dark and light. The recalibration of Gaia and the future New Inventions coming... Plus... comments and thoughts by Lee about the entire situation and his 23-year adventure as the original Kryon channel for the planet."--Amazon.com.

Lifting the Veil Cambridge University Press

One of the great observers of Australian life, Henry Lawson looms large in our national psyche. Yet at his best Lawson transcends the very bush, the very outback, the very up-country, the very pub or selector's hut he conveys with such brevity and acuity: he make specific places universal. Henry Lawson is too often regarded as a legend rather than a writer to be enjoyed. In this selection Lawson is revealed as an author whose delightful, humorous, wry and moving short stories continue to delight generations of readers. This is the essential Lawson collection - the classic of Australian classics. 'Lawson's sketches are beyond praise.' Joseph Conrad 'Lawson gets more feelings, observation and atmosphere into a page than does Hemingway.' Edward Garnett

Lifting the Veil University of Texas Press

An increased awareness of the importance of minority and subjugated voices to the histories and narratives which have previously excluded them has led to a wide-spread interest in the effects of colonization and displacement. This collection of essays is the first to apply post-colonial theory to the Middle Ages, and to critique that theory through the excavation of a distant past. The essays examine the establishment of colony, empire, and nationalism in order to expose the mechanisms of oppression through which 'aboriginal' 'native' or simply pre-existent cultures are displaced, eradicated, or transformed.

[The Lifted Veil](#) MIT Press

The Lifted Veil is a novella by George Eliot, first published in 1859. Quite unlike the realistic fiction for which Eliot is best known, The Lifted Veil explores themes of extrasensory perception, the essence of physical life, possible life after death, and the power of fate. The novella is a significant part of the Victorian tradition of horror fiction, which includes such other examples as Robert Louis Stevenson's *The Strange Case of Dr. Jekyll and Mr. Hyde* (1886), and Bram Stoker's *Dracula* (1897).

Lifting the Veil Health Research Books

Some time ago I came across several religious poems written over 80 years ago by my grandfather Leonard Burton Gardner, Sr. They sparked thought and explanation about the meaning of life for even a non-poetry guy like me. My grandfather called his collection *Lifting the Veil* and it has not been available to the public until now. As stated in the book's dedication, no subject has been more bitterly attacked than Christ's birth, His life's history, the miracles He performed, the cures He wrought, His death, resurrection, transfiguration, and the historical events leading up to and including His ascension. As stated in the Introduction: "We have followed the footsteps of Jesus when He lived upon earth and walked among men Portraying his miraculous birth Life, ministry, and crucifixion on earth. Miracles

performed and the parables He taught To quicken the faith to the reader are brought Christ's resurrection we also give To prove that His spirit and teachings still live. His transfiguration we have also told That you may not the faith in the unseen withhold We submit this tribute, dear friend to you To strengthen your faith as you read it through." Pensive and provocative poems combine intuition and physics in remarkable fashion. An Introduction to Company Law in the Commonwealth Caribbean Xist Publishing

The Lifting of the Veil is a biblically compelling book that reveals the New Testament's position on the Law of Moses. The Church, interpreting the four rules of James as table fellowship (Acts 15:20), completely misses God's point. Understood from its Hebraic perspective the four rules are the theological pillars that establish the Law for every believer. Here's what others are saying about it: Timothy Beukman of Cape Town, South Africa wrote, I have read many views on Acts 15 and never have I read what you wrote in your book. I commend your diligent research and understanding of the passage. It far supersedes many messianic teachers and pastors alike. Your layout and interaction with the material is great. This was a great book. Thank you so much. Donna Klindt of Cody, Wyoming, USA commented, Art Katz said, 'What we read should be an event in our lives if it bears the words of life from our living God.' Your book is an event in my life. It has been consuming and confirming and challenging, all at the same time. Thank you, precious brother, thank you, and not just you, but our Lord and Savior, Jesus the Messiah. Elizabeth Smit of Piketberg, South Africa said, I have read (studied) it. What an

incredible piece of work you have done on this! So informative, so thorough, and so eye-opening. You should see my copy: exclamation marks, highlighted passages, side notes, etc. What a feast this was! Thank you!

Lifting the Veil Red Wheel/Weiser

When Meru Tanner receives a mysterious birthday present, The Book of Veils, her world is turned upside down. Now she's "seeing" things that aren't supposed to be real, gabbing with gods and having erotic premonitions about one sexy wolf-man she'd do anything to tame. She tempted the feral beast inside him to come out and play. Damon Arkadios has kept the animal part of his nature leashed for thousands of years. He is a guardian, the leader of the Fianna warriors - but from the moment he caught her scent, he knew she was more than just another assignment. Protecting the sexy little seer will challenge his own beliefs - and his control. Their lust quickly spins out of control, even as danger lurks behind every corner. Can she accept the legacy handed down to her from the distant past and convince her Lycan to be a part of her future? Or will the ancient evil that threatens to destroy their world keep them from making a new beginning together?

The Postcolonial Middle Ages Conran Octopus

What do we miss seeing of reality when we don't include the feminine perspective? The feminine principle with all its unique qualities is restoring the lost soul to disciplines once limited by principles of logic, analysis, and reductionism. The experiences of contemporary scientists show how the unveiling of the feminine is enlivening modern science, infusing it with a new spirit of cooperation and compassion, and changing long-held ideas about progress and about what makes "good science". "Her book has led me to think anew about science and about women in science."-Anna J. Harrison, past president of AAAS

The Lifted Veil Illustrated Trafford Publishing

'Gloriously provocative... female sexuality within a patriarchal world is Chughtai's central concern' Kamila Shamsie, from the introduction *Lifting the Veil* is a bold and irreverent collection of writing from India's most controversial feminist writer. These stories celebrate life in all its complexities: from a woman who refuses marriage to a man she loves to preserve her freedom, to a Hindu and a Muslim teenager pulled apart by societal pressures, to eye-opening personal accounts of the charges of obscenity the author faced in court for stories found in this book. Wickedly funny and unflinchingly honest, *Lifting the Veil* explores the power of female sexuality while slyly mocking the subtle tyrannies of middle-class life. In 1940s India, an unlikely setting for female rebellion, Ismat Chughtai was a rare and radical storyteller born years ahead of her time. 'Ismat Chughtai is known for her iconoclastic, feminist writings which explored the inner workings of women's lives' Huffington Post

The Painted Veil Chump Change

From the first moment that he proclaims the Kingdom of God, Jesus appeals to our imagination. He makes that appeal through the parables of the kingdom, the paradoxes of the gospel, the enigmatic and beautiful signs he gave in his miracles and in those moments when the heavens open and the ordinary is transfigured, seen in an utterly new light. In this book Guite revisits and expands on the insights he gave in his Laing Lectures at Regent College, exploring how the creative work of poets and other artists can lift the veil a little and kindle our imaginations for Christ.
