### **Watching the English, Second Edition**

Oxford

The Moonstone is a beautiful yellow diamond that was stolen from the statue of a Moon god in India. When Franklin Blake brings it to Rachel Verinder's house in Yorkshire for her birthday, it brings bad luck with it. How many people will the Moonstone hurt? How many must die before the diamond's revenge is

complete?

### **Mystery in Muscat** Notion Press

A Financial Thriller That Will Keep Readers on the Edge of Their Seats Esther Larsen, a leading risk analyst at one of the country's largest banking institutions, is becoming more and more convinced that she has uncovered a ticking bomb with the potential to overshadow 2008's market crash. And as her own employer pursues "investment" strategies with ever-increasing levels of risk, she becomes convinced she must do something. Yet what can one person really do? The markets are edging closer to a tipping

point--like the teetering first domino in a standing row that circles the globe. And when Esther does sound the alarm, she wonders if anyone will take her seriously. But as public support grows for her ideas, so does the desperation of those whose conspiracy of greed she seeks to expose. With global markets on the brink, and her own life in danger, Esther is locked in a race with the clock to avert a worldwide financial meltdown. This fast-paced suspense novel will make you wonder where the fiction ends and reality begins. . . . Endorsement "Davis Bunn applies his deft hand to The Domino Effect with the

grace and mastery his dedicated fans have come to expect. . . ."--Jerry B. Jenkins *Typhoon* Chelsea Green Publishing  
 "King Shahriyar cannot trust women. Every afternoon he marries a wife, but the next morning he always kills her ... 'I can be Shahriyar's new wife!' says Sheherazade ... But how can Sheherazade stay alive for a thousand and one nights? And does Shahriyar learn to trust women again in the end?"--P. [4] of cover.

*Nanny McPhee and the Big Bang* Oxford University Press

By the author of the acclaimed Brunelleschi's Dome. After meeting the mysterious and beautiful Lady Beauclair at a society ball, George Cautley, a hapless young artist adrift in the gilded world of 1770s London, paints her portrait. She, in turn, tells him the scandalous story of Tristano, a castrato singer in Handel's opera company fifty years before. But Cautley also meets the eminent painter Sir Endymion Starker that same evening and his mistress, Eleanora, who has another tragic tale to tell, one that will have George unwittingly re-enacting the fate of Tristano...

Changing Places

Yearning for a life of leisure? In 24 chapters representing each hour of a typical working day, this book will coax out the loafer in even the most diligent and schedule-obsessed worker. From the founding editor of the celebrated magazine about the freedom and fine art of doing nothing, *The Idler*, comes not simply a book, but an antidote to our work-obsessed culture. In *How to Be Idle*, Hodgkinson presents his learned yet whimsical argument for a new, universal standard of living: being happy doing nothing. He covers a whole spectrum of issues affecting the modern idler—sleep, work, pleasure, relationships—bemoaning the cultural skepticism of idleness while reflecting on the writing of such famous apologists for it as Oscar Wilde, Robert Louis Stevenson, Dr. Johnson, and Nietzsche—all of whom have admitted to doing their very best work in bed. It's a well-known fact that Europeans spend fewer hours at work a week than Americans. So it's only befitting that one of them—the very clever, extremely engaging, and quite hilarious Tom Hodgkinson—should have the wittiest and

most useful insights into the fun and nature of being idle. Following on the quirky, call-to-arms heels of the bestselling *Eat, Shoots and Leaves: The Zero Tolerance Approach to Punctuation* by Lynne Truss, *How to Be Idle* rallies us to an equally just and no less worthy cause: reclaiming our right to be idle.

Sherlock Holmes Farrar, Straus and Giroux  
 In this engrossing narrative of the great military conflagration of the mid-eighteenth century, Fred Anderson transports us into the maelstrom of international rivalries. With the Seven Years' War, Great Britain decisively eliminated French power north of the Caribbean — and in the process destroyed an American diplomatic system in which Native Americans had long played a central, balancing role — permanently changing the political and cultural landscape of North America. Anderson skillfully reveals the clash of inherited perceptions the war created when it gave thousands of American colonists their first experience of real Englishmen and introduced them to the British cultural and class system. We see colonists who assumed that they were partners in the

empire encountering British officers who regarded them as subordinates and who treated them accordingly. This laid the groundwork in shared experience for a common view of the world, of the empire, and of the men who had once been their masters. Thus, Anderson shows, the war taught George Washington and other provincials profound emotional lessons, as well as giving them practical instruction in how to be soldiers. Depicting the subsequent British efforts to reform the empire and American resistance — the riots of the Stamp Act crisis and the nearly simultaneous pan-Indian insurrection called Pontiac's Rebellion — as postwar developments rather than as an anticipation of the national independence that no one knew lay ahead (or even desired), Anderson re-creates the perspectives through which contemporaries saw events unfold while they tried to preserve imperial relationships. Interweaving stories of kings and imperial officers with those of Indians, traders, and the diverse colonial peoples, Anderson brings alive a chapter of our history that was shaped as much by individual choices and actions as by social,

economic, and political forces.

With integrated activities, an interactive MultiROM, and exciting, fully dramatized audio for every story, the new edition of the series makes reading motivating for students while making it easy for you to develop their reading and language skills.

Dominoes: Two: Green Planet Pack Baker Books

Bring me something new and exciting.

Bring me a BIG story!' says Rosie's editor at The Record newspaper. And, when she leaves the office, Rosie does find a story. A story that is bigger than she expects. A story that takes her across Europe, into a dangerous world of art and art thieves.

Dominoes: Three: The Moonstone OUP Oxford

Conan Doyle's creation has become a timeless icon of literature and more tellingly of a universal more for the wonderment of mystery and intellectual surprise. No generation is immune to the spellbinding mix of macabre Victorian London and the larger than life person of Holmes whose matchless perception and

fanatical temperament take the unsuspecting reader captive. It is said that 'the person who reads lives a thousand lives' and yet to digest the Sherlock Holmes canon could conceivably double that number. And what life would be complete without having experienced the reading pleasure of vanishing into London's nineteenth century smog hard on the heels of an intrepid Holmes? Sherlock therefore requires no introduction, only further endorsement, which is the modest aim of this striking edition that every consummate collection should display. "Sherlock Holmes: arguably the most famous man that never lived."

**Dominoes Changing Places** OUP Oxford  
In this groundbreaking book, Tim Harford, the Undercover Economist, shows us a new and inspiring approach to solving the most pressing problems in our lives. When faced with complex situations, we have all become accustomed to looking to our leaders to set out a plan of action and blaze a path to success. Harford argues that today's challenges simply cannot be tackled with ready-made solutions and expert opinion; the world has become far too unpredictable and profoundly complex.

Instead, we must adapt. Deftly weaving together psychology, evolutionary biology, anthropology, physics, and economics, along with the compelling story of hard-won lessons learned in the field, Harford makes a passionate case for the importance of adaptive trial and error in tackling issues such as climate change, poverty, and financial crises—as well as in fostering innovation and creativity in our business and personal lives. Taking us from corporate boardrooms to the deserts of Iraq, *Adapt* clearly explains the necessary ingredients for turning failure into success. It is a breakthrough handbook for surviving—and prospering—in our complex and ever-shifting world.

*As the Crow Flies* OUP Oxford

Hal works at the zoo every day and his life isn't exciting; until he meets Tim. Tim is a movie star. He has a difficult life, and he is unhappy; until he meets Hal. But when they meet, and agree to change places, interesting things start to happen. And, by changing places, the two men learn what is truly important in their lives.

*All Shook Up* Oxford University Press

Nanny McPhee embarks on a brand new adventure in this brilliant, funny and

captivating novel based on the new Nanny McPhee film. The Green family is trying to survive the war in their house in the country, but unfortunately they are not out of harm's way. A wicked uncle is intent on getting his hands on the family fortune and the children miss their father who is away fighting who knows where, and then their horrible cousins arrive! Life is not easy in the Green household . . . Thank heavens for Nanny McPhee!

*The Vesuvius Mosaic* Oxford University Press, USA

CD: American English

*Heart of Darkness* Oxford [Oxfordshire] : Oxford University Press

A bold reassessment of what caused the Late Bronze Age collapse In 1177 B.C., marauding groups known only as the "Sea Peoples" invaded Egypt. The pharaoh's army and navy managed to defeat them, but the victory so weakened Egypt that it soon slid into decline, as did most of the surrounding civilizations. After centuries of brilliance, the civilized world of the Bronze Age came to an abrupt and cataclysmic end. Kingdoms fell like dominoes over the course of just a few decades. No more Minoans or Mycenaeans. No more Trojans,

Hittites, or Babylonians. The thriving economy and cultures of the late second millennium B.C., which had stretched from Greece to Egypt and Mesopotamia, suddenly ceased to exist, along with writing systems, technology, and monumental architecture. But the Sea Peoples alone could not have caused such widespread breakdown. How did it happen? In this major new account of the causes of this "First Dark Ages," Eric Cline tells the gripping story of how the end was brought about by multiple interconnected failures, ranging from invasion and revolt to earthquakes, drought, and the cutting of international trade routes. Bringing to life the vibrant multicultural world of these great civilizations, he draws a sweeping panorama of the empires and globalized peoples of the Late Bronze Age and shows that it was their very interdependence that hastened their dramatic collapse and

ushered in a dark age that lasted centuries. A compelling combination of narrative and the latest scholarship, 1177 B.C. sheds new light on the complex ties that gave rise to, and ultimately destroyed, the flourishing civilizations of the Late Bronze Age—and that set the stage for the emergence of classical Greece.

*The Domino Effect* Oxford University Press, USA

In this inspiring and provocative memoir about a young black man, Caylin Moore tells the against-all-odds story of his rise from racial injustice and cruel poverty in gang-ridden Los Angeles to academic success at the University of Oxford, with hope as his compass. *A Dream to Big* is for readers who want to ... enjoy a compelling, true, hard-to-believe inspirational story; thoughtfully embrace a long-overdue conversation about equality and justice in America; and be inspired

and find hope from a firsthand account of redemption through even the most painful life experiences. When Caylin Louis Moore was a young child, his mother gathered her three young children and fled an abusive marriage, landing in poverty in a heavily policed, gang-ridden community. When Moore's mother suffered from health complications and a devastating experience in the hospital and his father was sentenced to life imprisonment, Moore was forced to enter adulthood prematurely. His hope was fueled by embracing his mother's steely faith in a brighter future. Moore skirted the gangs, the police, and the violence endemic to Compton to excel as a student and athlete, eventually reaching the pinnacles of academic achievement as a Rhodes Scholar. Moore's eye-opening, against-all-odds story reveals that there is no such thing as a dream too big.
