## HOOD SIERRA

### Athletes Breaking Bad \*Frommers

Large-format, extensively illustrated history of great moments in Australian golf. Includes studies of Ivo Whitton, Kel Nagle, Peter Thompson, Rodger Davis, Jan Stephenson and Greg Norman in triumph and defeat.

#### Chronicle of Golf McFarland

Until now, no one has made the point directly and unequivocally that the game "invented" by ancient Scots would not have reached its present stature in the world of sports if Americans had never gotten hold of it. Is this to say that Al Barkow is, in *The Golden Era of Golf*, being a narrow-minded, American-flag-waving jingoist? Not at all. In detailing how America expanded on the old Scots game, Barkow does not deny that the United States more or less fell into certain advantages that led to its dominion over the game - there is the geography, the luck of not having to endure the physical devastation of two world wars, and a naturally broader economic strength. Still, Barkow also makes it clear that there were, and there remains, certain especially American characteristics - a singular energy and enthusiasm for participation in and observation of games, for melding sports with business, for technological and industrial innovation, and by all means democratic traditions - that turned what had been (and would probably have remained) an insular, parochial past time into a game played by millions around the world. America has been golf's great nurturing force, and Barkow details why and how it happened. The history of American golf is not exactly a varnished treatment, a mindless glorification full of nationalist ardor, which is in keeping with the author's well-established reputation, developed over the past 37 years as a golf journalist, magazine editor, historian, and television commentator, as someone who looks with a sharp and candid eye at the game. Barkow has points of view and takes positions on affairs and personalities that impact on every aspect of golf. Is the United States Golf Association, in its restrictions on equipment, playing ostrich to inevitable technological innovation? Hasn't it always?

And, hasn't the association always been hypocritical in its definition of amateurism? Was the Ryder Cup ever really a demonstration of pure hands-across-the-sea good fellowship? Why did it take so long for the members of the Augusta National Golf Club to invite a black to play in its vaunted Masters tournament? Barkow was one of the first journalists to research in depth and write about how blacks were excluded from mainstream American golf for most of this century. Here, he expands on an element of history which is intrinsic to the larger American experience and which led to the coming of Tiger Woods. How good has television been for golf, and when and by whom did this most powerful of mediums get involved in the game? Is Greg Norman's celebrity (and personal wealth) an example or the result of modern-day image making that gives greater value to impressions of greatness than the reality of actual performance? Although some curmudgeon emerges in this chronicle of golf, what also comes through, and on a larger note, is the author's passion for the game itself. Its demands on each player's will, determination, and both inherent and developed physical skills are so penetrating, and the satisfaction that comes from just coming close to fulfillment so great, that the manipulations of the golf "operators" - administrators, agents, some of its players, et al. - become mere sidebars. This is golf history with a certain perspective that arises from someone who has lived intimately with the game as a player and writer for at least half the century that is covered, and in particular the last half, on which there is the greater emphasis. It runs the gamut - from feisty, albeit well-considered, criticism to an evocation of the human drama that is finally the most vivid expression of any activity man takes on.

At their basic level, sporting events are about numbers: wins and losses, percentages and points, shots and saves, clocks and countdowns. However, sports narratives quickly leave the realm of statistics. The stories we tell and retell, sometimes for decades, make sports dramatic and compelling. Just like any great drama, sports imply conflict, not just battles on the field of play, but clashes of personalities, goals, and strategies. In telling these stories, we create heroes, but we also create villains. This book is about the latter, those players who transgress norms and expectations and who we label the "bad boys" of sports. Using a variety of approaches, these 13 new essays examine the cultural, social, and rhetorical implications of sports villainy. Each chapter focuses on a different athlete and sport, questioning issues such as how notorious sports figures are defined to be "bad" within particular sports and within the larger culture, the role media play in creating antiheroes, fan reactions when players cross boundaries, and how those boundaries shift depending on the athlete's gender, sexuality, and race.

#### The Advocate \*Frommers

The Advocate is a lesbian, gay, bisexual, transgender (LGBT) monthly newsmagazine. Established in 1967, it is the oldest continuing LGBT publication in the United States.

Short subject films have a long history in American cinemas. These could be anywhere from 2 to 40 minutes long and were used as a "filler" in a picture show that would include a cartoon, a newsreel, possibly a serial and a short before launching into the feature film. Shorts could tackle any topic of interest: an unusual travelogue, a comedy, musical revues, sports, nature or popular vaudeville acts. With the advent of sound-on-film in the mid-to-late 1920s, makers of earlier silent short subjects began experimenting with the short films, using them as a testing ground for the use of sound in feature movies. After the Second World War, and the rising popularity of television, short subject films became far too expensive to produce and they had mostly disappeared from the screens by the late 1950s. This encyclopedia offers comprehensive listings of American short subject films from the 1920s through the 1950s.

**USGA Journal and Turf Management**

Australia's most famous children's cake book - reprinted in a collector's edition. The Australian Women's Weekly's Children's Birthday Cake Book was first published in 1980 and has sold more than half a million copies. In response to all the requests we have had, often from mothers who remember fondly all the cakes from their own childhood, we have taken this book from our archives and reprinted it 30 years after it first appeared. We have had to make a minor change - four of your little friends are missing, but they've been replaced by other cakes you'll love just as much. Apart from that we've left it just as it was - a true collectors' cookbook especially for you. Now you can recreate your favourite cakes - the swimming pool, rocket and that train from the cover for your own child.

**The Complete Golf Chronicle**

Backpacker brings the outdoors straight to the reader's doorstep, inspiring and enabling them to go more places and enjoy nature more often. The authority on active adventure, Backpacker is the world's first GPS-enabled magazine, and the only magazine whose editors personally test the hiking trails, camping gear, and survival tips they publish. Backpacker's Editors' Choice Awards, an industry honor recognizing design, feature and product

innovation, has become the gold standard against which all other outdoor-industry awards are measured.
