## **ELIANNA DECKER**

---

**Preparation and Use of Weather Maps at Sea** University of Pennsylvania Press

The author offers advice on such matters as mastering emotions, overcoming debilitating habits such as over-eating, drinking and drug abuse, unleashing the hidden power of body and mind, improving personal and professional relationships, and taking control of personal finances.

**The First Book of KIM** Harvard University Press

Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies

cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-

ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

Mormons in Nazi Germany Hayden

This full-color art book delves deep into the lore of the tremendously popular competitive first-person shooter Apex Legends. Explore the world of the hit game through the eyes of the lovable robot, Pathfinder, as he chronicles his journey throughout the various environs of the Outlands to interview his fellow Legends--all in the hope of finally locating his mysterious creator. The rich history of Apex Legends is explained by the characters that helped to shape it, as are their unique bonds of competition and camaraderie. This volume chronicles the world of Respawn Entertainment's stunning free-to-play game that has captivated the online gaming scene, attracting over seventy million players and counting. Don't miss your opportunity to own a piece of Apex Legends history!

"The Illustrated London Reading Book" by Various. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten—or yet undiscovered gems—of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

*Forty Years Among the Stars* Cambridge : University Press Presents, in pictures and text, the opulent craft of the very wealthy, especially yachts of the present century up to and including Adnan Khashoggi's "Nabila."

**Motion Performance: Tales of a Muscle Car Builder** Penguin

This book is designed to survey the area of retail floriculture and make a current statement of the industry. The subject matter includes a blend of art, science, and business. It can be used in the following ways: by students pursuing individualized study; in a classroom where the instructor will reinforce, demonstrate, and expand upon the ideas; or by former students or flower shop employees who need a refresher tool and reference. The book is intended to be motivational while presenting a realistic picture of arranging and selling flowers and plants. Suggested activities are located in each chapter as hands-on exercises to provide the experience and practice necessary to master the concepts presented. Thirty-two chapters cover the following topics: introduction; elements of design; principles of design; fresh cut flowers and foliage; mechanics, supplies, and safety; corsages

and boutonnieres; bud vases and rose bowls; decorating potted plants; mass arrangements; accessories, bases, and backgrounds; dried flowers; silk flowers; table settings; wedding floral design; sympathy flowers; living plant groupings; novelty arrangements; special occasions and holidays; period arrangements; contemporary arrangements; retail floriculture industry; sales and service; wrapping and packaging; pricing; organization and efficiency; store displays; conditioning and storing cut flowers; care of living plants; delivery; advertising and promotion; and keeping current. A subject index is provided. (YLB)

This unique 110-page blank journal works great for a boat log or notebook to keep track of repairs, trips, fuel burn or anything else that happens aboard your vessel.

Recollections of a Rebel Reefer 2008 PowerBoat Guide

While Adolf Hitler's National Socialist government was persecuting Jews and Jehovah's Witnesses and driving forty-two small German religious sects underground, the Church of Jesus Christ of Latter-day Saints continued to practice unhindered. How some fourteen thousand Mormons not only survived but thrived in Nazi Germany is a story little known, rarely told, and occasionally rewritten within the confines of the Church's history—for good reason, as we see in David Conley Nelson's *Moroni and the Swastika*. A page-turning historical narrative, this

book is the first full account of how Mormons avoided Nazi persecution through skilled collaboration with Hitler's regime, and then eschewed postwar shame by constructing an alternative history of wartime suffering and resistance. The Twelfth Article of Faith and parts of the 134th Section of the Doctrine and Covenants function as Mormonism's equivalent of the biblical admonition to "render unto Caesar," a charge to cooperate with civil government, no matter how onerous doing so may be. Resurrecting this often-violated doctrinal edict, ecclesiastical leaders at the time developed a strategy that protected Mormons within Nazi Germany. Furthermore, as Nelson shows, many Mormon officials strove to fit into the Third Reich by exploiting commonalities with the Nazi state. German Mormons emphasized a mutual interest in genealogy and a passion for sports. They sent husbands into the Wehrmacht and sons into the Hitler Youth, and they prayed for a German victory when the war began. They also purged Jewish references from hymnals, lesson plans, and liturgical practices. One American mission president even wrote an article for the official Nazi Party newspaper, extolling parallels between Utah Mormon and German Nazi society. Nelson documents this collaboration, as well as subsequent efforts to suppress it by fashioning a new collective memory of ordinary German Mormons' courage and travails during the war. Recovering this inconvenient past, *Moroni and the Swastika* restores a complex and difficult chapter to the history of Nazi Germany and the Mormon Church in the twentieth century—and offers new insight into the construction of historical truth. Sterling Publishing Company, Inc.

For the past three decades, many history professors have allowed

their biases to distort the way America's past is taught. These intellectuals have searched for instances of racism, sexism, and bigotry in our history while downplaying the greatness of America's patriots and the achievements of "dead white men." As a result, more emphasis is placed on Harriet Tubman than on George Washington; more about the internment of Japanese Americans during World War II than about D-Day or Iwo Jima; more on the dangers we faced from Joseph McCarthy than those we faced from Josef Stalin. *A Patriot's History of the United States* corrects those doctrinaire biases. In this groundbreaking book, America's discovery, founding, and development are reexamined with an appreciation for the elements of public virtue, personal liberty, and private property that make this nation uniquely successful. This book offers a long-overdue acknowledgment of America's true and proud history.

*Moroni and the Swastika* Pocket Books

Provides an overall introduction to the welding process, illustrating most of the common equipment and work techniques for both the home and shop welding.

Timbuktu is famous as a center of learning from Islam's Golden Age. Yet it was one among many scholarly centers to exist in precolonial West Africa. Ousmane Kane charts the rise of Muslim learning in West Africa from the beginning of Islam to the present day and corrects lingering misconceptions about Africa's Muslim heritage and its influence.

This Old Boat, Second Edition : Completely Revised and Expanded Palala Press

This book opens with a maintenance survey to help identify likely problems and to guide the reader to the appropriate specialized sections. A chapter devoted to tools and techniques precedes the coverage of hull types.

During World War II, the United States helped vanquish the Axis powers by converting its enormous economic capacities into military might. Producing nearly two-thirds of all the munitions used by Allied forces, American industry became what President Franklin D. Roosevelt called "the arsenal of democracy." Crucial in this effort were business leaders. Some of these captains of industry went to Washington to coordinate the mobilization, while others led their companies to churn out weapons. In this way, the private sector won the war—or so the story goes. Based on new research in business and military archives, *Destructive Creation* shows that the enormous mobilization effort relied not only on the capacities of private companies but also on massive public investment and robust government regulation. This public-private partnership involved plenty of government-business cooperation, but it also generated antagonism in the American business community that had lasting repercussions for American politics. Many business leaders, still engaged in political battles against the New Deal, regarded the wartime government as an overreaching regulator and a threatening rival. In response, they mounted an aggressive campaign that touted the achievements of for-profit firms while dismissing the value of public-sector contributions. This probusiness story about mobilization was a political success, not just during the war, but afterward, as it shaped reconversion policy and the transformation of the

American military-industrial complex. Offering a groundbreaking account of the inner workings of the "arsenal of democracy," *Destructive Creation* also suggests how the struggle to define its heroes and villains has continued to shape economic and political development to the present day.
