Have you ever considered toning up your face through a series of exercises, just as you can do it for the rest of the body? It can be done... and it works! This method employs both some American miming and acting techniques as well as some muscular rehabilitation techniques used in hospitals. The result is that the face becomes more tonic and expressive (a combination which is impossible to achieve through plastic

surgery!). It simply requires the use of your hands and takes up less than 15 minutes a day: the first results will appear just after three weeks.

Mirror Neurons are one of the most extraordinary discoveries of contemporary neuroscience. They explain, on a scientific level, why we understand other people's behavior to a deep degree. They were discovered by Professor Giacomo Rizzolatti, who wrote the preface to this book. Our aim here is to

provide basic knowledge of the key concepts of this discovery through the use of clear language and many illustrations. The book also covers the effects of Mirror Neurons in our daily lives and in the mechanisms that regulate social interactions, so we can learn how to handle them in a more effective way.

mBraining Wisdom Coloring Book - Bring Calmness and Wisdom to your Mind and Life... The growing new field of mBIT (multiple Brain Integration Techniques), also known as 'mBraining', shows that we have complex, functional and adaptive neural systems or 'brains' in our heart and gut regions. Research shows these brains are used in embodied cognition, decision-making and intuitive wisdom. Each of our multiple brains also has a 'highest expression' - the most integrative, adaptive and generative way of being, which when aligned together allows for an emergence of deep intuitive wisdom. For the heart the highest expression is Compassion, for the head it is Creativity and for the gut it is Courage. This adult coloring book provides drawings that represent all of these aspects of the multiple brains and their highest expressions. Allowing you to immerse yourself in the creative endeavor of mindfully coloring in imagery that speaks to autonomic coherence and calmness, and to the heart, head and gut brains and their integrative emergent wisdom. We hope you

enjoy many hours of mindful mBraining coloring and that this process evokes deep in your heart, mind and soul the desire to truly, really and deeply make a difference in the world. - Provides hours and hours of calming stress relief, mindful wisdom, flow and joyful, creative expression. - Images inspired by the new field of mBRAINING (multiple braining - head, heart, gut). - Designed to evoke the Highest Expressions of Compassion, Creativity and Courage. - Ancient spiritual wisdom meets modern neuroscience in practical application. - 20 beautiful drawings to color in along with 20 mindmaps to color, enhance and explore. MBraining Dermoriflessologia. Dialogare con l'inconscio attraverso la pelle The Linear Chains of Body and Spirit Prof. Giuseppe Joseph Calligaris, an Italian medical doctor who worked in the first half of the 19th century, had discovered that certain lines and points on the skin were related to the conscious and subconscious portions of the mind, and even to the enhancing of paranormal abilities. For over thirty years, Calligaris examined

thousands of individuals, published about twenty books and discovered that the geometric system on the human skin could be stimulated in everybody to enhance clairvoyance, clairaudience, and precognition and retrocognition. He believed that our brain just may be a concave mirror for the Universal Consciousness. For his new research Calligaris was 'dumped' by the academic community after he demonstrated in several tests before professors that anybody can become capable of identifying objects on the other side of a wall, by pressing a specific point on the skin for only some minutes. Today the books of Calligaris are very rare., the majority of his materials are no longer available. This is the first book in English language, that helps you rediscover the potential which is hidden in all of us. Calligaris has proven, that the truth is just as near as our skin. Dr. Neal Barnard's Program for Reversing Diabetes This book is connected to a worldwide movement which is going to organise several large international events in 2016, as they already did in 2015. The essayists themselves are

part of this movement and readers can join too. They will experiment, for instance, with using intention to lower the radioactivity level of Fukushima's water. It is a very young movement but one that has already generated much interest. This is a collection of short essays from 17 very well-known authors who have a solid scientific background or renown within their ancestral traditions. What they have in common is that each one, within their discipline, is aiming to use water's molecular structure and memory to improve our world.

The Kabbalist Rabbi Laitman, who was the student and personal assistant to Rabbi Baruch Ashlag from 1979-1991, follows in the footsteps of his rabbi in passing on the wisdom of Kabbalah to the world. This book is based on sources that were passed down by Rabbi Baruch's father, Rabbi Yehuda Ashlag (Baal HaSulam), the

author of 'the Sulam', the commentaries on The Book of Zohar, who continued the ways of the Ari and Rabbi Shimon Bar Yochai and many great Kabbalists throughout the generations before them. The goal of this book is to assist individuals in confronting the first stages of the spiritual realm. This unique method of study, which encourages sharing this wisdom with others, not only helps overcome the trials and tribulations of everyday life, but initiates a process in which individuals extend themselves beyond the standard limitations of today's world.

nervous systems.
Your Body's Many Cries for Water Rodale Books
 When Danilo Docli, peace worker, organizer, educator, first arrived in 1952 in Trappeto, a village of peasants and fishermen in western Sicily, there were no streets, just mud and dust, not a single drugstore, not even a sewer. (In fact, the local dialect didn't even have a word for sewer.) Like other Sicilians, the villagers, seen by many Italians as "bandits," "dirt-eaters," and "savages," had, in effect, been mute for centuries. Dolci's years of work broke this silence. The result is *Sicilian Lives*, a book which reveals the intimate experiences and perceptions of a wide range of Sicilians, rural and urban, through voices that are sometimes frightening, but always fascinating and unexpected. Danilo Dolci has collected a rich panorama of voices—the eloquent testimony of Sicilians who, at last, are speaking out to penetrate the most profound dilemmas of an impoverished land.  There has been much confusion and many predictions based on the Mayan calendar. Some people think time on Earth will end, but what if there was an intact and complete resource from the ancestors that will give us the wisdom we need for the shift and an understanding of the coming era? In "2012-2021: The Dawn of the Sixth Sun," Sergio Magana (Ocelocoyotl), mystic and teacher of the ancient Toltec/Aztec lineage of Mesoamerica, discloses an in-depth understanding from a rich and uninterrupted oral tradition, the meaning of the shift from the Fifth to the Sixth Sun, the possibilities presented to humanity at this time, and ancient teachings and practices designed to support this shift. The Toltecs knew how to interpret the mathematical or universal order that governs all of existence by measuring and observing cycles of time, and the impact they had on the Earth, human consciousness, and perception.

Dr. Neal Barnard's Program for Reversing Diabetes
 At the beginning of the XX Century, Giuseppe Calligaris, a brilliant

Italian doctor and scientist, made an extraordinary discovery: the skin of the entire human body is mapped with little areas, or dots (which he called patches) through which one specific area of the unconscious mind could be stimulated, for either therapeutic or diagnostic purposes. 50 years after his death, two researchers have verified and updated his research study, and have combined it with the

late findings from the world of psychology, thus giving birth to a new subject: dermoreflexology. The body has its own memory, which is more deeply rooted than the minds, and through this accurate handbook we are now given the key on how to access it. Simply by pressing or stimulating one specific area of the skin, we can learn how to recall specific episodes that we were not even aware we had

experienced; we can stimulate or enhance qualities as patience or creativity, we can remember inspiring dreams, or even make our unconscious speak to us through new dreams... This is a new approach to come to know our inner self and make good use of it, and it is literally... within our reach.
