Firing Back Hassell Street Press

The Irish Administration, 1801-1914 Springer

Occasionally one comes across a book, which is unexpected, delights and inspires. Surinam, known as the 'Jewish Savannah', where a vibrant Jewish community was granted full and equal rights two hundred years before the Jews of other communities in the region. St Eustatius, where the economically successful Jewish community was plundered during the British occupation in 1781. Curacao, named the 'Mother of Jewish communities in the New World', where a prosperous Jewish community comprised nearly half of Curacao's non-slave population and was the center of Jewish life in the region. For all their economic and local political power, the Jews were little more than pawns in the 200-year struggle for control of the Caribbean by Holland, Great Britain, France and Spain. Eventually growing tired of this chess game, the Jews of the Caribbean drifted into assimilation or immigrated to the United States, where life was more secure. An ideal resource and captivating read for those traveling to the region or people with an interest in Jewish history, this is an exceptional book that brings the Jewish communities of the Caribbean to life, with intensity, and with a heartbeat so strong as to secure their proper and rightful place in recorded Jewish history.

The End of Tolerance Verso Books

This volume locates the contemporary study of anti-Semitism and Islamophobia squarely within the fields of race and racism. As such, it challenges the extent to which discussion of the

racialization of these minorities remains unrelated to each other, or is explored in distinct silos as a series of internal debates. By harnessing the explanatory power of long-established organizing concepts within the study of race and racism, this collection of articles makes a historically informed, theoretical and empirical contribution to aligning these analytical pursuits. The collection brings together a range of perspectives on this subject, including a comparison between Islamophobia in early modern Spain and twenty-first century Europe, an examination of the 'new anti-Semitism', and an analysis of online anti-Muslim and anti-Semitic jokes. This book was originally published as a special issue of *Ethnic and Racial Studies*.

BIBLE VIEW OF SLAVERY OECD Publishing

The French government's 2004 decision to ban Islamic headscarves and other religious signs from public schools puzzled many observers, both because it seemed to infringe needlessly on religious freedom, and because it was hailed by many in France as an answer to a surprisingly wide range of social ills, from violence against females in poor suburbs to anti-Semitism. *Why the French Don't Like Headscarves* explains why headscarves on schoolgirls caused such a furor, and why the furor yielded this law. Making sense of the dramatic debate from his perspective as an American anthropologist in France at the time, John Bowen writes about everyday life and public events while also presenting interviews with officials and intellectuals, and analyzing French

television programs and other media. Bowen argues that the focus on headscarves came from a century-old sensitivity to the public presence of religion in schools, feared links between public expressions of Islamic identity and radical Islam, and a media-driven frenzy that built support for a headscarf ban during 2003-2004. Although the defense of laïcité (secularity) was cited as the law's major justification, politicians, intellectuals, and the media linked the scarves to more concrete social anxieties--about "communalism," political Islam, and violence toward women. Written in engaging, jargon-free prose, *Why the French Don't Like Headscarves* is the first comprehensive and objective analysis of this subject, in any language, and it speaks to tensions between assimilation and diversity that extend well beyond France's borders.

Proposes a common European intellectual framework to evaluate recent developments in European multiculturalism. The heightened security awareness in the wake of the 9/11 attacks and the London and Madrid bombings has resulted in a 'crisis of multiculturalism'. Now is the time to look at the renewed challenges that multiculturalism faces today. Each chapter in this interdisciplinary book reviews the actual state of affairs in several countries in relation to the theories behind immigrant minority claims. With a special focus on Muslim immigrants, the contributors look at the value issues entrenched in multiculturalism and the policy challenges and measures adopted to address them.

Sketches of Anglo-Jewish History London : Athlone Press [for] University of London, Institute of Historical Research

More than any other person of his time, Isaac Leeser (1806-1868) envisioned the development of a major center of Jewish culture and religious activity in the United States. He single-handedly provided American Jews with many of the basic religious texts, institutions, and conceptual tools they needed to construct the cultural foundation of what would later emerge as the largest Jewish community in the history of the Jewish people. Born in Germany, Leeser arrived in the United States in 1824. At that time, the American Jewish community was still a relatively unimportant outpost of Jewish life. No sustained or coordinated effort was being made to protect and expand Jewish political rights in America. The community was small, weak, and seemingly not interested in evolving into a cohesive, dynamic center of Jewish life. Leeser settled in Philadelphia where he sought to unite American Jews and the growing immigrant community under the banner of modern Sephardic Orthodoxy. Thoroughly Americanized prior to the first period of mass Jewish immigration to the United States between 1830 and 1854, Leeser served as a bridge between the old native-born and new

immigrant American Jews. Among the former, he inspired a handful to work for the revitalization of Judaism in America. To the latter, he was a spiritual leader, a champion of tradition, and a guide to life in a new land. Leeser had a decisive impact on American Judaism during a career that spanned nearly forty years. The outstanding Jewish religious leader in America prior to the Civil War, he shaped both the American Jewish community and American Judaism. He sought to professionalize the American rabbinate, introduced vernacular preaching into the North American synagogue, and produced the first English language translation of the entire Hebrew Bible. As editor and publisher of *The Occident*, Leeser also laid the groundwork for the now vigorous and thriving American Jewish press. Leeser's influence extended well beyond the American Jewish community. An outspoken advocate of religious liberty, he defended Jewish civil rights, sought to improve Jewish-Christian relations, and was an early advocate of modern Zionism. At the international level, Leeser helped mobilize Jewish opinion during the Damascus Affair and corresponded with a number of important Jewish leaders in Great Britain and western Europe. In the first biography of Isaac Leeser, Lance Sussman makes extensive use of archival and primary sources to provide a thorough study of a man who has been largely ignored by traditional histories. *Isaac Leeser and the Making of American Judaism* also tells an important part of the story of Judaism's response to the challenge of political freedom and social acceptance in a new, modern society. Judaism itself was transformed as it came to terms with America, and the key figure in this process was Isaac Leeser.

The Jewish Nation of the Caribbean Edinburgh University Press

This book guides practitioners in the assessment of patients with a liver problem. The emphasis is on the role of macro- and microscopic pathology in elucidating pathogenesis as well as identifying confounding features of image findings that may lead to a more elaborate differential diagnosis. If appropriate, the role of light and electron microscopic examination, along with the role of specific stains and molecular techniques, is illustrated. In addition, the concept of each liver disease is summarized briefly and its up-to-date is provided, and unresolved problems in diagnosis, treatment, and pathogenesis are clearly described. The approach in this book is a practical one with a focus on the evaluation of illustrative cases, simultaneously demonstrating cross-sectional images (ultrasonography, computed tomography,

magnetic resonance imaging, and angiography), pathological findings, and peritoneoscopic images. The diagnosis and therapy are summed up in helpful tables, and association of clinical manifestations with image analysis and pathological findings is shown to be important in differential diagnosis and treatment. With the authors comprising internationally renowned experts, this book will serve as a useful source of information for medical students, physicians, internists, hepatologists, gastroenterologists, radiologists, and pathologists worldwide.
