*It's Not Only Rock & Roll* MIT Press  
 Music is so ubiquitous that it can be easy to overlook the powerful influence it exerts in so many areas of our lives - from birth, through childhood, to old age. The Social and Applied Psychology of Music is the successor to the bestselling and influential The Social Psychology of Music. It considers the value of music in everyday life, answering some of the perennial questions about music. The book begins with a scene-setting chapter that describes the academic background to the book, before looking at composition and musicianship. It then goes on to look at musical preference. What aspects of music are crucial in determining whether or not you will like it? In chapter 4 the authors consider whether rap and rock are bad for young people, highlighting some of the major moral scandals that have rocked pop music, and asking whether these have become more extreme over time. The following chapter looks at music as a commercial product. How does the structure of the music industry influence CD purchasing, and how does music affect customers in retail and leisure settings like shops and restaurants? The book closes with an examination of music education. How does musical ability develop in children, and how does this relate to more general theories of how intellectual skills develop? Do musical skills develop independently of other abilities? Exceptionally broad in scope, and written in a highly accessible style by the leading researchers in this field, The Social and Applied Psychology of Music will be required reading for

anyone seeking an understanding of the role music plays in our lives.

*Enciclopedia de la cultura española* El Desvelo Ediciones

The Treatise on Musical Objects is regarded as Pierre Schaeffer's most important work on music and its relationship with technology. Schaeffer expands his earlier research in *musique concrète* to suggest a methodology of working with sounds based on his experiences in radio broadcasting and the recording studio. Drawing on acoustics, physics, and physiology, but also on philosophy and the relationship between subject and object, Schaeffer's essay summarizes his theoretical and practical work in music composition. Translators Christine North and John Dack present an important book in the history of ideas in Europe that will resonate far beyond electroacoustic music.

*Double Stops for Cello* Springer

Synthesizing research on popular music and adolescence, this work covers research on music uses and gratifications, music preferences, imagery, and audiences for music. It seeks to examine the impact of music on attitudes and what, if anything should be done in terms of government regulation.

**Tonal and Rhythm Patterns** Ministerio de Educación

Dual language education is a program that combines language minority and language majority students for instruction through two languages. This book provides the conceptual background for the program and discusses major implementation issues. Research findings summarize language proficiency and achievement outcomes from 8000 students at 20 schools, along with teacher and parent attitudes.

## Sons

Music instruction can now be adapted more effectively to students' individual differences and curriculums can be developed to meet particular class needs, as a result of the original research by Professor Gordon which concentrates on the basic areas of tonal and rhythm concepts. More than 10,000 grade-school students across the United States participated in three years of testing which produced the data interpreted in this new book. Presented in terms of current learning theories applied to music, an attempt is made to provide for musical instruction grounded on research.

*The Right Instrument For Your Child*

Alfred Music

Nigel Planer's debut play, this is a comedy about the painting of the Sistine Chapel starring Ralf Little and Ron Cook, published alongside the West End opening. This time the Pope has surely backed a loser, the man he has put in charge of painting The Sistine Chapel is simply not up to the job - after all, he's a sculptor with next to no experience of painting. He didn't want the job in the first place and has never done anything remotely on this scale before. He's all over the place...when he remembers to turn up for work So, who has to cover for him? Who has to put in the hours, teach him his craft, patch up his mistakes, deal with his tantrums and get the job done? Who? Like any big project, it's the little guys, the professionals, the men who've been doing this kind of thing all their lives - they're the ones that are actually going to have to make it happen.

Johann Dussek was a well-known, Bohemian born pianist of the late 1700's, admired for his "singing" style of performance, and as one of the pioneers of piano technique. This collection of six sonatas, Op. 20, includes works in G Major, C Major, F Major, A Major, C Major, and E-flat Major.

Springer Science & Business Media

A comprehensive review of competitive anxiety research that has used the Sport Competition Anxiety Test, or SCAT (a trait scale), and the Competitive State Anxiety Inventory-2 (CSAI-2), as well as a description of the theoretical basis and development procedures for each scale. The actual scales for both SCAT and the CSAI-2 are contained in the text. Acidic paper. Annotation copyrighted by Book News, Inc., Portland, OR

Approaches and methods in comparative education are of obvious importance, but do not always receive adequate attention. This second edition of a well-received book, containing thoroughly updated and additional material, contributes new insights within the longstanding traditions of the field. A particular feature is the focus on different units of analysis. Individual chapters compare places, systems, times, cultures, values, policies, curricula and other units. These chapters are contextualised within broader analytical frameworks which identify the purposes and strengths of the field. The book includes a focus on intra-national as well as cross-national comparisons, and highlights the value of approaching

themes from different angles. As already demonstrated by the first edition of the book, the work will be of great value not only to producers of comparative education research but also to users who wish to understand more thoroughly the parameters and value of the field.

*On the Ceiling* Alfred Music

Double stops provide excellent learning material for the young and advancing cellist in this Rick Mooney book. More than 60 familiar folk songs—many in the Suzuki repertoire—help the student learn skills such as hearing intonation, shaping the hand correctly, shifting, extensions, and preparing for future repertoire.

*Thumb Position for Cello, Book 1* Alfred Music

This is an essential book for all those concerned with the field of assessment. It addresses relevant and timely conceptual and practical issues from a research perspective and, based on research results, clearly provides solutions to practical applications at the cutting edge of the emerging area of new modes of assessment. In a clear and rigorous manner, the authors explore new methods and study the various quality aspects of innovative approaches.

**Dual Language Education** Snakewood Editions

Welcome to the proceedings of ICCHP 2008. We were proud to welcome participants from more than 40 countries from all continents to ICCHP. The International Programme Committee, encompassing 102 experts from all over the world, selected 150 full and 40 short papers out of 360 abstracts submitted to ICCHP. Our acceptance rate of about half of the submissions, demonstrates the scientific quality of the programme and in particular the proceedings you have in your hands. An impressive group of

experts agreed to organize “Special Thematic Sessions” (STS) for ICCHP 2008. The existence of these STS sessions helped to bring the meeting into sharper focus in several key areas of assistive technology. In turn, this deeper level of focus helped to bring together the state-of-the-art and mainstream technical, social, cultural and political developments. Our keynote speaker, Jim Fruchterman from BeneTech, USA highlighted the importance of giving access to ICT and AT at a global level. In another keynote by Harold Thimbleby, Swansea University, UK, the role of user-centred design and usability engineering in assistive technology and accessibility was addressed. And finally, a combination keynote and panel discussion was reserved for WAI/WCAG2.0, which we expect to be the new reference point for Web accessibility from the summer of 2008 and beyond.

Información cultural Oxford University Press

*Dance on its Own Terms: Histories and Methodologies* anthologizes a wide range of subjects examined from dance-centered methodologies: modes of research that are emergent, based in relevant systems of movement analysis, use primary sources, and rely on critical, informed observation of movement. The chapters emphasize dance history and core disciplinary knowledge in three categories of significant dance activity: performance and reconstruction, pedagogy and choreographic process, and notational and other written forms that analyze and document dance. Conceptually, each chapter also raises concerns and questions that point to broadly inclusive methodological applications. Engaging and insightful, *Dance on its Own Terms* represents a

major contribution to research on dance. Museo universal Alfred Music  
This book from Rick Mooney features easy classical music as well as folk songs, fiddle tunes and Mooney originals composed to address specific technical points. A second cello part throughout promotes a student's ability to hear and play accurately.

**Adult Education and Lifelong Learning** Routledge

La función social, cultural y política de la mujer en el primer tercio del siglo XX no ha sido suficientemente valorada. Durante este período, la mujer en España y en las otras culturas hispanohablantes fue conquistando derechos, defendió sus ideales y participó en la vida colectiva para alcanzar cotas de Modernidad que fueran equiparables al resto de los países occidentales. El volumen ofrece diez aportaciones que indagan, desde ambos lados del Atlántico, la compleja relación entre las mujeres y la prensa, focalizando las tensiones que se dieron en muchos contextos entre la tradición de los roles de género y los cambios que llegaban con el progreso socioeconómico. Poco a poco se fueron ampliando las posibilidades de subjetividad femenina más allá de la función de "ángel del hogar", lo que se va plasmando también en las revistas de la época. En cada uno de los capítulos se percibe cómo las escritoras modernas buscan para expresar sus ideas concienciar al público que lee revistas culturales. Estas dinámicas de género se han visto reforzadas gracias a la digitalización de contenidos, que ha permitido el acceso a fondos documentales que proporcionan interpretaciones más plurales, amplias e interdisciplinarias. Con contribuciones de: Ana María Agudelo Ochoa, Pilar Bellido

Navarro, Juan Diego Buitrago Ortiz, Claudia Cedeño Báez, Fleur Duplantier, Cynthia González Pulgarín, Marta Palenque, Romana Radlwimmer, Ivana Rota, Yasmin Temelli, Alejandra Torres, Ana María Velasco Molpeceres  
**Sonatinas, Opus 20** Bloomsbury Publishing

Op. 261 is a set of studies that covers a wide range of technical problems in a short, clear manner. They are appropriate for both early and advanced pianists. Techniques include arpeggios, change of fingers on repeated notes, change of hand position, chords, and many others. This collection is especially suitable to students with small hands since exercises in octave playing are not included.

*Revista de educación nº 26* Orion

Translated from the French by Florence W. Seder, Dimitry Markevitch concludes his preface, or Prelude as he calls it: "History, fact and personal anecdote blend here to provide a complete story of the instrument. May this book entertain you, help you to know the cello to the fullest, and lead you to love it as I do." Reading the book confirms that he has amply accomplished his aims. His qualifications for doing so are of the highest. Markevitch is a performer of considerable note and a teacher at both the Ecole Normale de Musique and Conservatoire Serge Rachmaninoff in Paris. He also has a keen interest in musicology and has edited many works for publication. The book is divided into three parts: "The Instrument," tracing the history of the cello and cello bow from earliest times, "The Performers," anecdotes of historical cellists plus a long section on Markevitch's friend Piatigorsky, and "Great Moments for the Cello," development of cello repertoire.

**Understanding Motivation and Emotion** Nova Publishers

This is the third edition of Peter Jarvis' classic textbook, *Adult and Continuing Education*, which established itself as the most widely used and respected book about education for adults today. In this new edition, the author has made extensive revisions and included substantial additional material to take account of the many changes that have occurred in the field of adult education. Additional and updated material in this much-anticipated new edition includes: a

discussion on both globalisation and Europeanisation, indicating the pressures that have been exerted on the educational system to change a greater emphasis on lifelong education, lifelong learning and society an extended discussion on the theorists of distance education and introductory material on e-learning and on-line learning an updated look at changes in UK policy and European policy documents new material on the relationship between research, learning and the changing approaches to knowledge, with more emphasis placed on action learning and research.
