The Official Index to The Times Archipel

Explores the paradoxical symmetry between the divine and demonic in early Jewish mystical texts. Divine Scapegoats is a wide-ranging exploration of the parallels between the heavenly and the demonic in early Jewish apocalyptic accounts. In these materials, antagonists often mirror features of angelic figures, and even those of the Deity himself, an inverse correspondence that implies a belief that the demonic realm is maintained by imitating divine reality. Andrei A. Orlov examines the sacerdotal, messianic, and creational aspects of this mimetic imagery, focusing primarily on two texts from the Slavonic pseudepigrapha: 2 Enoch and the Apocalypse of Abraham. These two works are part of a very special cluster of Jewish apocalyptic texts that exhibit features not only of the apocalyptic worldview but also of the symbolic universe of early Jewish mysticism. The Yom Kippur ritual in the Apocalypse of Abraham, the divine light

and darkness of 2 Enoch, and the similarity of mimetic motifs to later developments in the Zohar are of particular importance in Orlov's consideration.

Cave of the Winds Springer Science & Business Media Index with coverage from 1906 to 1980.

Tropical Trees and Forests Oxford University Press

A wide-ranging analysis of heavenly twin imagery in early Jewish extrabiblical texts. The idea of a heavenly double—an angelic twin of an earthbound human—can be found in Christian, Manichaean, Islamic, and Kabbalistic traditions. Scholars have long traced the lineage of these ideas to Greco-Roman and Iranian sources. In *The Greatest Mirror*, Andrei A. Orlov shows that heavenly twin imagery drew in large part from early Jewish writings. The Jewish pseudepigrapha—books from the Second Temple period that were attributed to biblical figures but excluded from the Hebrew Bible—contain accounts of heavenly twins in the form of spirits, images, faces, children, mirrors, and angels of the Presence. Orlov provides a comprehensive analysis of these traditions in their full historical and interpretive complexity. He focuses on heavenly alter egos of Enoch, Moses,

Jacob, Joseph, and Aseneth in often neglected books, including *Animal Apocalypse*, *Book of the Watchers*, *2 Enoch*, *Ladder of Jacob*, and *Joseph and Aseneth*, some of which are preserved solely in the Slavonic language. Andrei A. Orlov is Professor of Judaism and Christianity in Antiquity at Marquette University. He is the author of *Dark Mirrors: Azazel and Satanael in Early Jewish Demonology* and *Divine Scapegoats: Demonic Mimesis in Early Jewish Mysticism*, both also published by SUNY Press.

For first courses in operations research, operations management Optimization in Operations Research, Second Edition covers a broad range of optimization techniques, including linear programming, network flows, integer/combinational optimization, and nonlinear programming. This dynamic text emphasizes the importance of modeling and problem formulation and how to apply algorithms to real-world problems to arrive at optimal solutions. Use a program that presents a better teaching and learning experience-for you and your students. Prepare students for real-world problems: Students learn how to apply algorithms to problems that get them ready for their field. Use strong pedagogy tools to teach: Key concepts are easy to follow with the text's clear and continually reinforced learning path. Enjoy the text's flexibility: The text features varying amounts of coverage, so that instructors can choose how in-depth they want to go into different topics.

Global Corruption Report 2001 Warner Treasures

The Global Corruption Report 2001 is the new annual publication of Transparency International, the leading global anti-corruption NGO. By providing an overview of the "state of corruption" around the globe, the Global Corruption Report fills a significant gap in the existing literature. It assembles news and analysis on corruption and the fight against it around the world, highlighting international and regional trends, and significant instances of reform. It also reveals the links between global, regional and national developments in the corruption field, and does so from the independent perspective of an NGO. The book includes reports by leading experts on topical issues such as political party funding, money laundering, and corruption in international sport, exploring in particular the global nature of these themes. It also contains 12 regionally-focused reports, written by journalists from around the world. The report's final data and research section delivers a unique survey of the contemporary corruption and anti-corruption research terrain, with contributions from a range of IGOs, NGOs, the private sector, and academics. It also contains TI's own well-known Corruption Perceptions Index (CPI). The Global Corruption Report is a "must have" publication for policy-makers, business people, lawyers, journalists, academics, and anti-corruption activists the world over.

The International Who's Who Vintage

This volume presents the history of marine fog research and applications, and discusses the physical processes leading to fog's formation, evolution, and dissipation. A special emphasis is on the challenges and advancements of fog observation and modeling as well as on efforts toward operational fog forecasting and linkages and feedbacks between marine fog and the environment.

Eye of the Hurricane Les Editions du Net

This report is the most extensive, it covers all the aspects of Indian life-ethnological, social, economic and religious. Tribal

population of India alongwith their social life, aspirations, economic conditions etc. has been accorded for a complete and scientific treatment in the report. It does not only covers the main land of India but also Burma and the Andaman and Nicobar Islands. The work is most comprehensive and authentic and therefore will be of great use to sociologists, researchers, students and teachers, policy planners, anthropologists and all libraries and information centres. Part B is a collection of papers on cultural anthropology by various experts.

Index to the Times Springer

This series contains the decisions of the Court in both the English and French texts.

The Volume Library Chicago Review Press

Les francophones amateurs de rock connaissent la musique. Mais rarement les paroles. Ou alors deux ou trois phrases, ça s'arrête généralement là. Pour la première fois, un fou de musique se penche avec rigueur et humour sur les textes de 100 grands classiques du rock et en analyse leur contenu et leur sens caché, des Beatles à Radiohead, des Rolling Stones à Rage Against The Machine, de David Bowie à Blur, des Who à Prince... On y découvre au fil des pages que Born in the USA de Springsteen est tout sauf un hymne à l'Amérique triomphante des années Reagan. Que One de U2, l'une des chansons les plus jouées aux mariages partout dans le monde, est, de l'aveu même de Bono, une chanson de séparation. Que la Lola des Kinks ne porte pas bien son nom, elle aurait dû s'appeler Lolo. Ou encore que non, le Turn ! Turn ! Turn ! des Byrds n'est pas le cri désespéré d'un moniteur d'auto-école à son élève... 100 Classiques Rock est l'adaptation des chroniques Your Song diffusées avec succès à la radio depuis 2011 et reproduites en partie dans divers médias. A PROPOS DE L'AUTEUR : Axel du Bus est né et vit à Bruxelles. Adolescent, il a été sauvé par le rock. Pour le reste, il écrit, dessine, scénarise, réalise et a même déjà réussi à réparer une photocopieuse. EXTRAIT : Louie Louie, The Kingsmen (Richard Berry, 1957) Petite devinette : quelle est la chanson la plus reprise de l'histoire du rock ? Et je vous aide, ce n'est pas une chanson rock. Allez, 5 secondes. 4. 3. 2. 1. Top. Vous avez trouvé ? C'est le Yesterday des Beatles. Penchons-nous sur la deuxième chanson de ce classement, tout aussi peu rock, du moins à sa naissance. Ce numéro deux, c'est le classique Louie Louie, né en 1955 sous la plume du chanteur Richard Berry, qui n'a rien à voir avec l'acteur français, même s'il a lui aussi commis, c'est comme ça qu'on dit dans ces cas-là, quelques sorties chantées fort réjouissantes. À sa sortie en 1957, Louie Louie version cha-cha-cha ne connaît pas un grand retentissement. Il faut attendre la reprise du titre en 1963 pour que naisse la légende. Deux groupes sont sur le coup, à quelques jours près et dans le même studio ! : Paul Revere and The Raiders et les Kingsmen. Ce sont ces derniers qui emportent la mise. Mais un peu par hasard. Car cette chanson anodine, composée de trois notes, oui, trois petites notes, l'histoire du rock quoi, doit son succès à une infamante rumeur : Louie Louie est une apologie du sexe diabolique et inexcusable !

Optimization in Operations Research Penguin Global

Avec plus d'un demi-siècle de carrière, cinq cents chansons à son actif, cet artiste, pressenti pour le prix Nobel de littérature, est l'un des figures majeures de la musique populaire. Né Robert Allen Zimmerman le 24 mai 1941 à Duluth (Minnesota), cet auteur-compositeur-interprète, musicien, peintre, poète fut le chroniqueur des luttes sociales des années 60, avec Like a Rolling Stone, Ballad of a Thin Man ou encore Gates of Eden. Certaines de ses chansons comme Blowin' in the Wind sont

devenues des hymnes anti-guerre du Vietnam. Depuis 25 ans, il donne chaque année une centaine de concerts à travers le monde, réunissant un public de tous âges. A partir de son oeuvre et de ses nombreuses interviews, remises en perspective et montées à la manière d'un film, Jean-Dominique Brierre, qui le suit depuis ses débuts, retrace son parcours hors normes.

The Performance of Institutions for Groundwater Management: Mojave River Basin Chicago Review Press

This book explores possible and impossible word meanings, with a specific focus on the meanings of verbs. It presents a new theory of possible root meanings and their interaction with event templates that produces a new typology of possible verbs, with semantic and grammatical properties determined not just by templates, but also by roots.

The Mermaid of Black Conch State University of New York Press

Il est une tradition épistémologique déjà établie qui tient pour un acquis irréversible d'avoir séparé la métaphysique, la philosophie et la religion de la science. Inversement, il est aussi tout à fait possible de manipuler des idées sans avoir précisément à l'esprit ce qu'elles représentent. Mais pourquoi vouloir opposer par et dans une hystérie nihiliste l'évidence a-logique de l'indicible de l'irrationnel à la logique rationnelle du dicible ? Comment le scientifique peut-il observer l'univers sans être observé par l'Univers ? L'Univers n'est pas sa création. Dans le coeur de tout être humain se trouvent gravées les lettres de l'Univers : Alpha et Oméga. La découverte de l'illimité pour le scientifique est sa fulgurante rencontre avec le Mystère des Mystères. La richesse de la fécondité de la science se trouve dans ses limites, d'un point de vue ontologique : la sagesse qui consiste à reconnaître par l'illusion cosmique l'illimité au-delà de la science, dans l'âme et avec le corps. D'où l'importance de la métaphysique immatérielle pour l'étude de l'objet de la science. En attendant la Danse de l'Horloge galactique commence par la circulation énergétique du Point Zéro.

Divine Scapegoats Routledge

Rubin "Hurricane" Carter was riding a wave of success. The survivor of a difficult youth, he rose to become a top contender for the middleweight boxing crown. But his career crashed to a halt on May 26, 1967, when he and another man were found guilty of the murder of three white people and sentenced to three consecutive life terms. Written from prison and first published in 1974, *The Sixteenth Round* chronicles Hurricane's journey from the ring to solitary confinement. The book was his cry for help to the public, an attempt to set the record straight and force a new trial. Bob Dylan wrote his classic anthem "Hurricane" about his struggle, and Muhammad Ali and thousands of others took up his cause. The power of Carter's voice, as well as his ironic humor, makes this an eloquent, soul-stirring account of a remarkable life. *The Sixteenth Round* McGraw-Hill Science, Engineering & Mathematics

This enchanting tale of a cursed mythical creature and the lonely fisherman who falls in love with her is "a daring, mesmerizing novel...single-handedly bringing magic realism up-to-date" (Maggie O'Farrell, best-selling author of *Hamnet*). "Sentence by sensuous sentence, Roffey builds a verdant, complicated world that is a pleasure to live inside.... You might start to believe in the existence of mermaids." —The New York Times In 1976, David is fishing off the island of Black Conch when he comes upon a

creature he doesn't expect: a mermaid by the name of Aycayia. Once a beautiful young woman, she was cursed by jealous wives to live in this form for the rest of her days. But after the mermaid is caught by American tourists, David rescues and hides her away in his home, finding that, once out of the water, she begins to transform back into a woman. Now David must work to win Aycayia's trust while she relearns what it is to be human, navigating not only her new body but also her relationship with others on the island—a difficult task after centuries of loneliness. As David and Aycayia grow to love each other, they juggle both the joys and the dangers of life on shore. But a lingering question remains: Will the former mermaid be able to escape her curse? Taking on many points of view, this mythical adventure tells the story of one woman's return to land, her healing, and her survival.

The Red Notebook of Charles Darwin Primento

The definitive research paper guide, *Writing Research Papers* combines a traditional and practical approach to the research process with the latest information on electronic research and presentation. This market-leading text provides students with step-by-step guidance through the research writing process, from selecting and narrowing a topic to formatting the finished document. *Writing Research Papers* backs up its instruction with the most complete array of samples of any writing guide of this nature. The text continues its extremely thorough and accurate coverage of citation styles for a wide variety of disciplines. The fourteenth edition maintains Lester's successful approach while bringing new writing and documentation updates to assist the student researcher in keeping pace with electronic sources.

Eye of the Hurricane Prentice Hall

Accompanying CD-ROM contains ... "data files, Web links, practice quizzes, PowerPoint, video clips, software tutorials, MegaStat for Excel software and user manual."--Page 4 of cover.

The Roots of Verbal Meaning

"This book presents a synthesis of published information on mountain pine beetle (*Dendroctonus ponderosae* Hopkins [Coleoptera: Scolytidae]) biology and management with an emphasis on lodgepole pine (*Pinus contorta* Dougl. ex Loud. var. *latifolia* Engelm.) forests of western Canada. Intended as a reference for researchers as well as forest managers, the book covers three main subject areas: mountain pine beetle biology, management, and socioeconomic concerns. The chapters on biology cover taxonomy, life history and habits, distribution, insect-host tree interactions, development and survival, epidemiology, and outbreak history. The management section covers management strategy, survey and detection, proactive and preventive management, and decision support tools. The chapters on socioeconomic aspects include an economic examination of management programs and the utilization of post-beetle salvage timber in solid wood, panelboard, pulp and paper products."--Publisher's description.

Mitteilungen aus Justus Perthes' geographischer Anstalt über wichtige neue Erforschungen auf dem Gesamtgebiete der Geographie

* A comprehensive overview of stormwater and wastewater collection methods from around the world, written by leading experts in the field * Includes detailed analysis of system designs, operation, maintenance and rehabilitation * Includes recent research advances and personal computer applications
