Raphael's Ostrich begins with a little-studied aspect of Raphael's painting—the ostrich, which appears as an attribute of Justice, painted in the Sala di Costantino in the Vatican. Una Roman D'Elia traces the cultural and artistic history of the ostrich from its appearances in ancient Egyptian hieroglyphs to the menageries and grotesque ornaments of sixteenth-century Italy. Following the complex history of shifting interpretations given to the ostrich in scientific, literary, religious, poetic, and satirical texts and images, D'Elia demonstrates the rich variety of ways in which people made sense of this living "monster," which was depicted as the embodiment of heresy, stupidity, perseverance, justice, fortune, gluttony, and other virtues and vices. Because Raphael was revered as a god of art, artists imitated and competed with his ostrich, while religious and cultural critics complained about the potential for misinterpreting such obscure imagery. This book not only considers the history of the ostrich but also explores how Raphael's painting forced viewers to question how meaning is attributed to the natural world, a debate of central importance in early modern Europe at a time when the disciplines of modern art history and natural history were developing. The strangeness of Raphael's ostrich, situated at the crossroads of art, religion, myth, and natural history, both reveals lesser-known sides of Raphael's painting and illuminates major cultural shifts in attitudes toward nature and images in the Renaissance. More than simply an examination of a single artist or a single subject, Raphael's Ostrich offers an accessible, erudite, and charming alternative to Vasari's pervasive model of the history of sixteenth-century Italian art.

Mylena watched the man from the shadows. He was very handsome with his too-long golden hair and bulging muscles. At first, she had thought him hurt as he had almost staggered out

from the hall, but then he had straightened, seeming to shake off some unseen weight. Now he stared into the window, watching as the dancers twirled by. He wore a slight frown as Mylena followed his gaze and saw that he watched the Lady Samantha and her husband very intently. "She is very beautiful," her soft voice whispered from the shadows.

The establishment of free public libraries in England resulted from a bill in 1850 requiring a rate contribution for town libraries. Four Select Committee reports issued between 1849 and 1852 provide the essential extent of parliamentary concern in this field. Chaired by William Ewart, an active parliamentary reformer, these committees were motivated by a desire to promote the cultural benefits of good literature among the general public and particularly among the agricultural population. -- Publisher's catalogue.

This study of Santa Maria del Gualdo Mazzocca, a Benedictine priory, and then abbey, directly dependent upon the papacy, offers a remarkable glimpse into the nature of monastic life in the middle ages.

In the final volume of AMERICAN ECSTASY, written by Raguan Z. Faust (aka August Franza), Luke Hall, the man/eagle, baptizes himself for new and possibly more hopeful roles. He conjures Rachel Landauer, an old girlfriend, and flies west with her to experience a series of encounters with America, past and present. These include chemical and environmental pollution, industrial strikes, transcontinental railroad building and many scenes of mental derangement. He also meets Col. George A. Custer, P.T. Barnum, Leon Trotsky, Whittaker Chambers and Alger Hiss in the strangest of circumstances. After many bizarre adventures, Luke ends up teaching at a suspect College of the 21st Century. Around and around he goes in conflict with all manner of men and women, until he meets Zamattia Ueberruaga, a Basque-American woman of many delights. Luke is finally grounded. He gives up his eagle life and all of its derangements to settle down with a woman he loves and who loves him.
