American Government and Politics Today, 2018 Election Update
Harvard University Press

Following one of the most contentious and truth-challenged presidential administrations and elections in U.S. history, there has never been a greater need for an American government text like this--evidence-based, critically thoughtful, and contemporary in tone and touch. This text teaches students to think analytically by presenting current political science theories and research in answering the engaging, big questions facing American politics today. It serves as an introduction to the discipline—covering the Constitution, political behavior, formal and informal institutions,

and public policy--by reflecting the theoretical developments and types of empirical inquiry conducted by researchers. For introductory courses in American government, this text covers theory and methods as well. New to the Fourth Edition Provides 2020 election data updates throughout and examines policy implications of the ensuing changes in election laws across the country. Recaps controversial Trump administration policies and looks into the Biden administration's early days. Offers strategic updates on the Covid-19 pandemic and the resulting economic crisis both in terms of questions of federalism as well as public policy. Considers the rise of new interest groups and social movements as well as the reckoning with racial injustice. Examines contemporary questions of social justice in light of civil rights and liberties as well as in terms of policy. Covers the death of Supreme Court Justice Ruth Bader Ginsberg, the battle to

confirm her replacement, the addition of Justice Coney Barrett, and the policy implications of the shift in the ideological balance of the Court. For the fourth edition, a new co-author comes to the book with award-winning experience in diversity and teacher education as well as research interests in the presidency, women and politics, and foreign policy.

Politics and Political Science Routledge

Bardes/Shelley/Schmidt's AMERICAN GOVERNMENT AND POLITICS TODAY, THE ESSENTIALS, 20th Edition, equips you with the tools and knowledge you need to become an active, informed participant in the U.S. political process. Making politics personal, it focuses on how government impacts you -- now and in the future. Unbiased, concisely organized and updated with 2020 election analysis, it delivers thorough coverage in a streamlined, easy-to-read format. Emphasizing critical thinking about political issues, it encourages you to become involved in the political process. Current, compelling and thought-provoking examples offer insight into such pressing issues as the global COVID-19 pandemic, racial injustice, police brutality, economic inequality and more. AMER GOVERNMENT & POLITICS Cengage Learning

Written for all students of politics coming to the subject for the first time, this textbook provides a lively and accessible introduction and guide to all the main features and characteristics of one of the most distinctive and complex political systems in the world.

The Increasingly United States Cengage Learning

Why are Americans so angry with each other? The United States is caught in a partisan hyperconflict that divides politicians, communities—and even families. Politicians from the president to state and local office-holders play to strongly-held beliefs and sometimes even pour fuel on the resulting inferno. This polarization has become so intense that many people no longer trust anyone from a differing perspective. Drawing on his personal story of growing up as a fundamentalist Christian on a dairy farm in rural Ohio, then as an academic in the heart of the liberal East Coast establishment, Darrell West analyzes the economic, cultural, and political aspects of polarization. He takes advantage of his experiences inside both conservative and liberal camps to explain the views of each side and offer insights into why each is angry with the other. West argues that societal tensions have metastasized into a dangerous tribalism that seriously threatens U.S. democracy. Unless people can bridge these divisions and forge a new path forward, it will be impossible to work together, maintain a functioning democracy, and solve the country's pressing policy problems.

American Government and Politics Today 2011-2012 Edition, AP Edition Routledge

Study Guide W. W. Norton

American Government and Politics is a completely new introductory textbook designed and written for all students of politics coming to the subject for the first time. It provides a lively and accessible introduction and guide to all the main features and characteristics of one of the most distinctive and complex contemporary political systems in the world. From the impeachment of Bill Clinton, to the controversy surrounding the 2000 presidential election, and the Bush administration's responses to September 11, students will gain a balanced and critical understanding of all the key issues and debates in contemporary American government and politics today. A number of key underlying themes include: - the nature of American values and identity - the influence of the constitution on political development - the ways in which key governing institutions function to produce domestic and foreign policy. Key features include: - comprehensive glossary of key terms - discussion and summary boxes - web links and guides to further reading Robert Singh is a lecturer in politics at Birkbeck College, London. American Government and Politics: A Concise

Introduction is the foundation companion text to Contemporary American Politics: Issues and Controversies also published by SAGE. `Rob Singh has written a finely organized and informative textbook that combines to an unusually high degree analytical clarity, accessibility of style and form, and an enlightened scepticism about received wisdom. This is an admirable book' - Nigel Bowles, St Anne's College, Oxford `Full of topical information and written with sparkling clarity, this book is a short-cut to excellence for the discriminating student' - Rhodri Jeffreys-Jones, Professor of American History, University of Edinburgh `In American Government and Politics Robert Singh provides an excellent introduction to the subject. His approach is wide ranging, his examples well selected and his style is accessible. It will make an ideal book for introductory and more advanced university courses on US government. I strongly recommend the book to teachers and students' - Desmond King, Mellon Professor of American Government, University of Oxford `This is a well written and lively book that is an important addition to the ranks of textbooks on American politics. One of its many virtues is its recognition that the textbook today is useful to a student only if it links to the world of web-based resources. Highly recommended' - Alan Ware, Worcester College, Oxford

This truly interactive text gives students more than reading material—it gives them tools to become good citizens.

West Publishing Company

Fake news. Twitter rants. Misinformation. Silos. Echo chambers. Spin. Alternative facts. Investigation, accusation, and obfuscation. Punditry, polls, and prognostication. This is today's politics. To cut through the noise, students need a guide to how politics really works and why it matters. American Politics Today has been that trusted source. And the new sixth edition brings even greater focus to examining preconceived notions of how government operates and understanding what's really going on.

This truly interactive text gives students more than reading material; it gives them tools to become good citizens.

American Government and Politics Today Brookings Institution Press

Though Americans rarely appreciate it, federalism has profoundly shaped their nation's past, present, and future. Federalism—the division of government authority between the national government and the states—affects the prosperity, security, and daily life of every American. Some of the most spectacular political conflicts in American history have been fought on the battlefield of federalism, including states' rights to leave the union, government power to regulate business, and responses to the problems of race, poverty, pollution, abortion, and gay rights. In the second edition of this nuanced and comprehensive text, David Brian Robertson shows that past choices shape present circumstances, and that a deep understanding of American government, public policy, political processes, and society requires an understanding of the key steps in federalism's evolution in American history. New to the Second Edition Emphasizes that federalism is a battleground that shapes every life in America. Extensively revised and updated, including new coverage of recent controversies like Ferguson, immigration, climate change, Obamacare, gay rights, the minimum wage,

political polarization, voter identification, fracking, and marijuana legalization. Brings together the newest developments in history, political science, law, and related disciplines to show how federalism influences government and politics today. Includes chapter-opening vignettes that deal with contemporary cases and policy challenges.

Analyzing American Democracy Wadsworth Publishing Company

A raucous history of American democracy at its wildest—and a bold rethinking of the relationship between the people and their politics. Democracy was broken. Or that was what many Americans believed in the decades after the Civil War. Shaken by economic and technological disruption, they sought safety in aggressive, tribal partisanship. The results were the loudest, closest, most violent elections in U.S. history, driven by vibrant campaigns that drew our highest-ever voter turnouts. At the century's end, reformers finally restrained this wild system, trading away participation for civility in the process. They built a calmer, cleaner democracy, but also a more distant one. Americans' voting rates crashed and never fully recovered. This is the origin story of the “normal” politics of the 20th century. Only by exploring where that civility and restraint came from can we understand what is happening to our democracy today. The Age of Acrimony charts the rise and fall of 19th-century America's unruly politics through the lives of a remarkable father-daughter dynasty. The radical congressman William “Pig Iron” Kelley and his fiery, Progressive daughter Florence Kelley led lives packed with drama, intimately tied to their nation's politics. Through their friendships and feuds, campaigns and crusades, Will and Florie

trace the narrative of a democracy in crisis. In telling the tale of what it cost to cool our republic, historian Jon Grinspan reveals our divisive political system's enduring capacity to reinvent itself. [American government and politics today : 2006-2007](#) Bloomsbury Publishing USA

This timely reissue of Richard Hofstadter's classic work on the fringe groups that influence American electoral politics offers an invaluable perspective on contemporary domestic affairs. In *The Paranoid Style in American Politics*, acclaimed historian Richard Hofstadter examines the competing forces in American political discourse and how fringe groups can influence — and derail — the larger agendas of a political party. He investigates the politics of the irrational, shedding light on how the behavior of individuals can seem out of proportion with actual political issues, and how such behavior impacts larger groups. With such other classic essays as “Free Silver and the Mind of 'Coin' Harvey” and “What Happened to the Antitrust Movement?”, *The Paranoid Style in American Politics* remains both a seminal text of political history and a vital analysis of the ways in which political groups function in the United States.

[American Government and Politics Today](#) W. W. Norton

The second edition of the best-selling textbook *US politics today* offers a new and updated introduction to contemporary US

government and politics. The book considers core institutions, including the presidency, Congress, and the Supreme Court. It assesses important questions and controversies and places them within the broader context of American society and culture. Has our understanding of the Constitution remained faithful to the intentions of the 'founding fathers' who wrote it? Is there still a separation of powers or has the president become too powerful? Do judges play too much of a role? Are the parties too weak and divided? Has Congress been 'bought' by lobbyists? This edition has been rewritten to incorporate coverage of events that have taken place since 1999. It examines the 2000 presidential election and recent Supreme Court rulings as well as the ways in which the 'war on terrorism' has affected the character of the political process. There is also a new chapter that assesses the most important political issues facing the US today. The book will prove invaluable for undergraduates, A-level students, and the general reader

Contemporary American Politics and Society CQ Press

‘For those who still believe that politics is normally, naturally, about economics, Rob Singh has gathered the evidence and dialed the wake-up call: seven major instances of an ongoing culture war meet a common analytic framework here in a lively and informative fashion’ - Byron E Shafer, University of Wisconsin
