Monumental in scope and vividly detailed, *Chocolate City* tells the tumultuous, four-century story of race and democracy in our nation's capital.

Emblematic of the ongoing tensions between America's expansive democratic promises and its enduring racial realities, Washington often has served as a national battleground for contentious issues, including slavery, segregation, civil rights, the drug war, and gentrification. But D.C. is more than just a seat of government, and authors Chris Myers Asch and George Derek Musgrove also highlight the city's rich history of local activism as Washingtonians of all races have struggled to make their voices heard in an undemocratic city where residents lack full political rights. Tracing D.C.'s massive transformations--from a sparsely inhabited plantation society into a diverse metropolis, from a center of the slave trade to the nation's first black-majority city, from "Chocolate City" to "Latte City"--Asch and Musgrove offer an engaging narrative peppered with unforgettable characters, a history of deep racial division but also one of hope, resilience, and interracial cooperation.

"A Darth Vader grotesque on a church, a giant chair, the longest escalator in the western hemisphere, a fence forged from War of 1812 muskets, a yet uncracked cryptographic sculpture, the world's oldest continuously operating airport, the only Civil War battleground within the District border, go "behind the curtain" to see the work of an art conservator, have a "close encounter" with one of cinema's most beloved spaceships ... Far from the crowds and the usual clichés, Washington DC is a reserve of well-concealed treasures only revealed to those who know how to wander off the beaten track, whether residents or visitors. An indispensable guide for those who thought they knew the city well, or who would like to discover the hidden face of the city"-- Back cover.

Washington, DC, gleams with stately columns and neoclassical temples, a pulsing hub of political power and

prowess. But for decades it was one of the worst excuses for a capital city the world had ever seen. Before America became a world power in the twentieth century, Washington City was an eyesore at best and a disgrace at worst. Unfilled swamps, filthy canals, and rutted horse trails littered its landscape. Political bosses hired hooligans and thugs to conduct the nation's affairs. Legendary madams entertained clients from all stations of society and politicians of every party. The police served and protected with the aid of bribes and protection money. Beneath pestilential air, the city's muddy roads led to a stumpy, half-finished obelisk to Washington here, a domeless Capitol Building there. Lining the streets stood boarding houses, tanneries, and slums. Deadly horse races gouged dusty streets, and opposing factions of volunteer firefighters battled one another like violent gangs rather than life-saving heroes. The city's turbulent history set a precedent for the dishonesty, corruption, and mismanagement that have led generations to look suspiciously on the various sin--both real and imagined--of Washington politicians. *Empire of Mud* unearths and untangles the roots of our capital's story and explores how the city was tainted from the outset, nearly stifled from becoming the proud citadel of the republic that George Washington and Pierre L'Enfant envisioned more than two centuries ago.

With a new afterword covering the two decades since its first publication, two of Washington, D.C.'s most respected journalists expose one of America's most tragic ironies: how the nation's capital, often a gleaming symbol of peace and

hope, is the setting for vicious contradictions and devastating conflicts over race, class, and power. Jaffe and Sherwood have chillingly chronicled the descent of the District of Columbia—congressional hearings, gangland murders, the establishment of home rule and the inside story of Marion Barry's enigmatic dynasty and disgrace. Now their afterword narrates the District's transformation in the last twenty years. New residents have helped bring developments, restaurants, and businesses to reviving neighborhoods. The authors cover the rise and fall of Mayors Adrian Fenty and Vince Gray, how new corruption charges are taking down politicians and businessmen, and how a fading Barry is still a player. The "city behind the monuments" remains flawed and polarized, but its revival is turning it into a distinct world capital—almost a dream city. Harry Jaffe has been a national editor at *The Washingtonian* magazine since 1990. He has received a number of awards for investigative journalism and feature writing from the Society of Professional Journalists. He has taught journalism at Georgetown University and American University. His work has appeared in *Esquire*, *Regardie's*, *Outside*, *Philadelphia Magazine*, *National Geographic Traveler*, *The Washington Post*, *The Los Angeles Times*, *The Chicago Tribune*, and other newspapers. Jaffe was born and raised in Philadelphia and began his journalism career with the *Rutland (Vermont) Herald*. He is the co-author of *Dream City: Race, Power and the Decline of Washington, D.C.* He lives in Clarke County, Virginia, and Washington, D.C., with his wife and daughters. Tom Sherwood is a reporter for NBC4 in Washington, specializing in politics and the District of Columbia

government. Tom also is a commentator for WAMU 88.5 public radio and a columnist for the Current Newspapers. Tom has twice been honored as one of the Top 50 Journalists in Washington by Washingtonian magazine. He began his journalism career at The Atlanta Constitution and covered local and national politics for The Washington Post from 1979 to 1989. He is the co-author of *Dream City: Race, Power and the Decline of Washington, D.C.* A native of Atlanta, he currently resides in Washington, D.C. and has one son, Peyton.
