How to Learn and Memorize Greek Vocabulary ... Using a Memory Palace Specifically Designed for Greek (and adaptable to many other languages too) If you'd like to improve your ability to learn Greek vocabulary by as much as 100%, 200%, even 300% (or more) ... using simple memory techniques that you can learn in 15-20 minutes (or less), then this may be the most important book that you will ever read. Believe it or not, it really doesn't matter if you think you have a good memory or not. The information in this book will teach you: * Why memory is like a bicycle everyone can ride (with some minor personal adjustments). * The real reason why no one should ever be squeamish about memorization or learning a language. * Why and how some of the most famous memory skills are applicable to learning any language, especially Greek. * How you can easily create a "letter location" memory system based on the Greek alphabet. * How to quickly and easily learn and memorize the sounds of the Greek alphabet. * Unique techniques that will have you literally "tuning in" on the Greek language. * How to separate Greek words in the most effective manner for memorization. * Two secret ways you can use relaxation to aid the memorization process. These two methods alone are worth the price of this book because they will literally eliminate your stress and apprehension as you learn Greek. * And much, much more ... These techniques have been used by

real language learners, most of whom previously considered themselves owners of a "bad memory," to make real strides in learning Greek vocabulary. Don't worry! None of these techniques involve brain surgery! Frankly, if you can memorize a short email address or the name of a movie, then you can use this system to memorize a language as rich and diverse as Greek. But there's really no time to lose. Every day that you are not using this simple vocabulary memorization system, you are literally stealing from yourself the joy of being able to read, speak and recall an abundance of Greek vocabulary as you easily expand the natural abilities of your mind.
