 McGraw-Hill Education  
 3 things to know about the focus of Dynamic

Business Law, 2e:

- **Emphasis on ETHICAL DECISION-MAKING.** In chapter 2, the authors introduce a framework for making ethical business decisions that students can use on a regular basis. Following each case there are questions designed to train students to apply this approach. Then repeatedly throughout the chapters, questions about business ethics are raised in the text. This framework is designed to help improve the learning process of students and to give a sense of relevancy to the ethical decision making process.
- **Emphasis on CRITICAL THINKING.** Neil Browne, one of the co-authors of this text, has written a successful text on critical thinking. His framework is included in Dynamic Business Law as well – to help students learn how to frame and reframe a question/issue. Critical thinking questions are also included at the end of each case, to further tie in this component.
- **Emphasis on the BUSINESS in business law.** Dynamic Business Law emphasizes the tie of legal issues back to the core business curriculum. This will help both students and faculty. Students need to

understand how the concepts they learn in this course tie into their business careers. Instructors can easily show that the study of business law is best seen as a foundational component of the larger study of business administration. Dynamic Business Law now includes Connect Business Law as a packaging option. Connect includes Interactive Applications for each chapter of the textbook and helps students apply legal concepts to business, stimulates critical thinking, and reinforces key topics.

**Overview:**  
 Dynamic Business Law, 2e is appropriate for the two-term business law course.

- **Emphasis on the BUSINESS in business law.** Dynamic Business Law emphasizes the tie of legal issues back to the core business curriculum. This will help both students and faculty. Faculty need to know how this is integrated as they are constantly 'defending' the inclusion of this course in the business curriculum. And students need to understand how the concepts tie to their future business careers.
- **Emphasis on TEACHING.** Many professors teaching this course are attorneys

first and academics second. They do not have a lot of time to prepare or think about how to apply this information effectively for their business students. Dynamic Business Law contains a helpful instructor's manual, particularly for the many adjuncts teaching this course. • Emphasis on CRITICAL THINKING. Neil Browne, one of the co-authors of this text, has written a successful text on critical thinking. His framework is included in Dynamic Business Law as well – to help students learn how to frame and reframe a question/issue. Critical thinking questions are also included at the end of each case, to further tie in this component. Instructor's Supplements: The Online Learning Center contains the complete IM, Test Bank, PowerPoint, image library, and video clips. • Instructor's Manual: The Instructor's Manual provides a clear outline of how to begin using this text and is especially helpful to adjuncts who teach Business Law. Sample syllabi are included, as well as detailed lecture outlines incorporating PowerPoints and other materials professors can bring into

their lectures. Exciting and new examples from outside the text are also included, and can be discussed in class to help generate excitement and involvement in the course from students. • Test Bank: The Test Bank, developed by Vonda Laughlin of Carson-Newman College, contains a variety of true/false, multiple choice, and essay questions – as well as “scenario-based” questions, which are application-based, and use a situation described in a narrative, with 3 – 5 multiple-choice test questions based on the situation described in the narrative. We've aligned our Test Bank with the new AACSB guidelines, tagging each question according to its knowledge and skills areas. Categories include Global, Ethics and Social Responsibility, legal and other External Environment, communication, Diversity, Group Dynamics, Individual Dynamics, Production and IT. Designations aligning questions with Learning Objectives, features, and case, exist as well. • PowerPoint Presentation slides: Developed by Jeff Penley at Catawba Valley Community College, we

offer two different sets of slides for professors. The “Basic” set consists of an outline of each chapter. The “Premium” set expands on this outline to include hypotheticals and ethical dilemmas, allowing the instructor to incorporate application into the lecture. Instructor Video DVD (ISBN: 0077339118, 13-digit: 9780077339111): The Instructor Video DVD contains video clips from CBS that highlight current legal issues. Instructor Notes, located on the OLC, give insight into how to incorporate segments into the classroom and offer questions to stimulate discussion. Most of these videos are also part of Premium content - a big plus for instructors teaching online/hybrid courses. *McGraw-Hill Education 500 Auditing and Attestation Questions for the CPA Exam* Ingram Dynamic Business Law: The Essentials is appropriate for the one-semester Business Law course. It contains the basics of business law but does not get bogged down in the kind of details that are more appropriate in an upper-level law class. and legal rules of business law. Emphasis on the BUSINESS in business law. Dynamic Business Law: The Essentials emphasizes the tie of legal issues back to the core business curriculum. "Legal strategies act as a springboard for businesses to gain competitive advantages, identify opportunities to reach goals, and create value in the firm. Business managers are increasingly tasked with understanding the basics of legal strategy and recognizing which strategies tie into their business needs and influence their decision making. Because today's students are tomorrow's business managers and owners, empowering them with knowledge of business law and the basics of legal strategy provides a strong foundation for their future success in the business world"--

Upon its publication in 1963, Corley's Legal Environment of Business was the first and only business law textbook to

emphasize public rather than private law, government regulation of business rather than contracts, and legal relationships rather than business transactions. A major innovation, it established a new course that the authors termed the legal environment of business. Over the years others have attempted to attain the success and stature of *The Legal and Regulatory Environment of Business*, but none has been able to match its timely, innovative coverage. Substantially updated, the 10th edition continues the text's reputation for ethics, authority and coverage of current areas of importance to business.

The 14th edition of *Business Law with UCC Applications* updates many key areas of the law. As in previous editions, a great deal of care has been taken to present business law concepts in the most coherent and accessible way and to provide up-to-date coverage of business law topics that are essential to today's

students. All of the chapters for this edition have been updated, and we have continued to enhance our coverage of the important topics of cyber-commerce, international law, identity theft, trade secrets, abandoned property, eminent domain, mortgages, bankruptcy, limited liability companies (LLC), ethics, the Dodd-Frank Act, the new health care act, revised Uniform Partnership Act, the Genetic Information Nondisclosure, the War Powers Act, changes in state law regarding collective bargaining, the proposed changes in patent law, proposed changes in the court system, the War Powers Act, and Alternative Dispute Resolution. Material is presented in nine sections, which include relevant case studies featuring excerpts from the court's opinion. Content has been updated to reflect the many recent changes in the legal field and color photos throughout the text help students relate the material to their own lives.
