Title Block An engineering drawing is a type of technical drawing that is used to convey information about an object. A common use is to specify the geometry necessary for the construction of a component and is called a detail drawing. Usually, a number of drawings are necessary to completely specify even a simple component. The drawings are linked together by a master drawing or assembly drawing which gives the drawing numbers of the subsequent detailed components, quantities required, construction material.

Engineering drawing - Wikipedia Technical drawing, drafting or drawing, is the act and discipline of composing drawings that visually communicate how something functions or is constructed. Technical drawing is essential for communicating ideas in industry and engineering. Technical drawing - Wikipedia For A4 size paper the title block may be situated as above (A0 to A3) or can be situated in the shorter (lower) part of the drawing space. Only sheets positioned vertically (portrait) are allowed for this format. The direction of reading of the drawings is equal to that of the title block. Drawings should include the following basic information in the title blocks:

Layout of drawings 1 - BSI Group Technical drawings are used to make electronic parts as well as mechanical parts. They are used in commercial and residential construction.
