This book is targeted for upper intermediate English language learners who are still polishing their foreign language skills and want to practice translation in certain fields. By the end of the book, English language learners will have practiced translation, considered to be the fifth skill to be developed after the four basic ones: listening, reading, speaking and writing. They will also have practiced translation strategies which are also helpful in other foreign languages. In short, students will be able to create a final translated version that should reflect the cultural background inherent in each language and, most likely, will resemble the original idea.

Este libro te ayudará a dominar la escritura académica para escribir con claridad, brevedad y elegancia. Aprenderás a transmitir información compleja en forma de tablas y gráficos. También entenderás cómo se escribe un artículo científico y por qué se escribe de esta manera. Pero aprenderás muchas otras cosas. Hablaremos de ti y de cómo debe cambiar tu forma de pensar para conseguir publicar. Trataremos cómo debes trabajar con otros y para otros —coautores, universidades, editores, agencias— anticipando qué esperan estos de ti. Por último, aprenderás a evitar errores frecuentes, pero no evidentes, cuando escribas tus primeros artículos. Escritura académica está dirigido a estudiantes de doctorado, investigadores noveles y académicos con experiencia que desean enseñar a otros cómo investigar. The British National Bibliography University of Texas Press This is the first volume in the trilogy Dictionaries in the English-Speaking World, 1500-1800, which will offer a new history of lexicography in and beyond the early modern British Isles. The volume explores the dictionaries, wordlists, and glossaries that were compiled and read by speakers of English from the end of the Middle Ages to the year 1600. These include the first printed dictionaries in which English words were collected; the dictionaries of Latin used by all educated English-speakers, from young children to Shakespeare to adult royalty; the dictionaries of modern languages that gave English-speakers access to the languages and cultures of continental Europe; dictionaries and wordlists documenting other languages from Armenian to Malagasy to Welsh; and a great variety of specialized English wordlists. No unified history has ever surveyed this vast, lively, and culturally significant lexicographical output before. The guiding principle of the book, and the trilogy, is that a story about dictionaries must also be a story about human beings. John Considine offers a full and sympathetic account of those who compiled and used these works, and those who supported them

financially, paying particular attention to records of dictionary use and its traces in surviving copies. The volume will appeal to all those interested in the languages and literary cultures of the sixteenth-century English-speaking world.

As significant economic, social, political, and cultural transformations swept the Jewish population of Tsarist Russia and Congress Poland between 1860 and 1914, the Yiddish language (Zhargon) began to gain recognition as a central part of the Jewish cultural stage. Yiddish Transformed examines the secular reading habits of East-European Jews as the Jewish community began shifting to a modern society. Author Nathan Cohen explores Jewish reading practices alongside the rise of Yiddish by delving into publishing policies of Yiddish books and newspapers, popular literary genres of the time, the development of Jewish public libraries, as well as personal reflections of reading experiences.

Toward the close of the last century, the poetry of the Spanish-speaking world was pallid, feeble, almost a corpse. It needed new life and a new direction. The exotic, erratic, revolutionary poet who changed the course of Spanish poetry and brought it into the mainstream of twentieth-century Modernism was Félix Rubén García Sarmiento (1867-1916) of Nicaragua, who called himself Rubén Darío. Since its original publication in 1965, this edition of

Darío's poetry has made English-speaking readers better acquainted with the poet who, as Enrique Anderson Imbert said, "divides literary history into 'before' and 'after.'" The selection of poems is intended to represent the whole range of Darío's verse, from the stinging little poems of Thistles to the dark, brooding lines of Songs of the Argentine and Other Poems. Also included, in the Epilogue, is a transcript of a radio dialogue between two other major poets, Federico García Lorca of Spain and Pablo Neruda of Chile, who celebrate the rich legacy of Rubén Darío.
