Venus relates to luxury, romance, wealth, creativity, and elegance. The house where it is located in a chart defines the area where you need to express yourself socially, passionately, and aesthetically. Venus naturally brings harmony and refinement to the house it occupies. This is the area of life where your attraction falls and a study of Venus in 12 houses will help you know how should approach these areas of life. The activities that the house represents are of great importance to building better partnerships. Venus is very much at play when it comes to love, romance, interests, friendships and artistic inclination. The house it occupies also tells us what you look for in a partner or friend, what your approach towards love is, and what artistic abilities you have. The sign where Venus is posited tells you "how" you express yourself romantically and the house it occupies tells you "where". This is the house where you need to bring harmony and relate

to others. The influence of Venus house should not be studied in its purest form, without any affliction, aspect or influence of other planets and signs. Planetary position differs with each horoscope, so the interpretations may also differ accordingly. Your Venus house however pretty much defines what we have stated above

In Hindu astrology, Rahu and Ketu signify the two mathematical points on each side of the moon that have a significant impact on self-experience. The Significance of Rahu and Ketu in Vedic Astrology is realized positively and negatively in a person's life. As a rising node of the moon, Rahu is known to cause spiritual growth and whenever it exists in a chart; the result is luxury and obsession. It's a powerful node favorable to politicians as it presents opportunities and immense power to ascend in political affairs both justly and unjustly. Rahu also influences criminals, snakes as well as magicians just to mention a few. Rahu has the power to give wealth and make a person popular. At the same time, this shadow planet is likely to cause confusion, despair and emotional inequity. It's very powerful in the 3rd, 6th and 11th houses of a horoscope. The Secret History of the United States Simon and Schuster

The world's leading endurance athletes are not only some of the fittest people on the planet, they are also among the toughest mentally. To train and race at the highest level of competition over hundreds ? and sometimes thousands ? of miles takes preparation, dedication and the ability to push the body and mind beyond conventional limits. Ultra Performance offers an insight into the psychology of these athletes. Having interviewed fourteen ultra athletes, Paul Moore distils the dynamics of the mental toughness they required ? the motivation, focus and ability to keep the mind positive deep in the heart of fatigue. What did it take, for instance, for Rachel Cadman to 'eat the elephant' of the Arch to Arc (running from London to Dover, swimming the Channel, then cycling to Paris)? And to win? That takes steeliness beyond all mere effort, pushing through and improvising when necessary. The stories of these hard-fought wins feature strongly in the contributions from Brett Sutton, world-renowned triathlon coach, and Craig Alexander, one of the greatest athletes in the history of Ironman. Others, like Dee Cafari, the first woman to circumnavigate the world solo in both directions, required the resilience to overcome challenges they had set themselves. With working examples of the implementation of their mental strategies, Ultra Performance not only gives an insight into the toughest moments these professional athletes have ever faced, but also offers advice to readers on how they can adapt and employ these techniques for themselves, often to the non-sporting pursuits of everyday life.
