Let's get right to the point here: Why do you need this book? Answer: TIME and MONEY. Read on and that statement will make total sense. There is a better way to fight traffic tickets in California...and we know what it is! That's what we've been evangelizing about for the past 11 years while helping tens of thousands of drivers successfully fight their traffic tickets. So what is this "better way," and what exactly can be done when you receive a traffic ticket? Should you just pay the ticket? Go to traffic school? No, there are better options available. Should you go to court and fight the ticket yourself? Hire an expensive attorney to fight the ticket for you? Those methods could waste even more time and money than your first options. We have better ideas, and we will share them with you in this book. Why should you read this book instead of others? There are many books that deal with the traffic tickets and how to fight them but this is the ONLY book that gives you the best road map of your options on how to fight your ticket. Wouldn't it be great if there were a system that provided drivers all of their exact same rights under the law to contest a traffic ticket, but also did not waste the court's precious time and money? Well, we have good news for you. There is such a system, and it's called a "Trial by Written Declaration." It's been around since 1978 and provides unlucky or unfortunate drivers with a very quick, very simple, and very effective solution for fighting traffic tickets. The Trial by Written Declaration process can be found on the back of every single ticket issued and gives drivers an option to contest their traffic ticket in writing. Drivers complete the documents and submit them to the court by mail instead of going into court to contest the traffic ticket in person. This "by mail" option - the Trial by Written Declaration - is the best way to contest a traffic ticket in California and eliminates the need for you to waste your time fighting your ticket in court. Before we move on, we would like to make a bold prediction right here, right now. In the not-so-distant future, the day will come when you will not even be able to go to court to contest your traffic ticket in California. We believe that this prediction will come true within the next 10 years. Why do we believe this? Our prediction is centered on two fundamental principles: TIME and MONEY. Now back to our prediction: The Trial by Written Declaration process is the only way for the court to save time and money and will take contesting traffic tickets out of the courts due to simple

necessity. This will be done to reduce costs while still ensuring the taxpayer's rights. There is no other way. Period. The GetDismissed App facilitates the process for completing and filing a Trial by Written Declaration with the court. Simply take a picture of your traffic ticket and another picture of your driver license, answer a few questions, download the documents and "voila," your Trial by Declaration is completed for you and ready for you to file with the court. Like we said earlier, this is why you need this book and why you need the GetDismissed App; together, they will save you TIME and MONEY.

For the first time, the age-old questions of how and why humans evolved are explored from the perspectives of evolution, psychology, economics, and the Enneagram. The answers that emerge from this multidisciplinary approach provide new insights into the human condition, including the Nine Factors of Extinction, which were the behaviors responsible for multiple early human extinctions. And the Nine Human Virtues, which are the incumbent principles of modern human behavior. The answers to how and why humans evolved can be found in the depiction of each Enneatype. These depictions account for the Nine Human Endeavors (see front cover), which reveal how every human being is specifically adapted to eradicate one of the Nine Factors of Extinction, along with the specializations, functional adaptations, and general characteristics for each type. This information is indispensable for diagnosing the personality type of any human being. Perhaps most important is the discussion of the evolutionary purpose of every human being, and how that knowledge can be used for personal growth, in ways that are resolute, decisive, and transformative. When this knowledge is used constructively, the actuated potential of the individual is realized, along with the deeply personal meaning of life.

We've introduced you to our first book: Traffic Tickets. Don't Get Mad. Get Them Dismissed. Traffic Ticket Tips, Must Knows, and Much More. After this book was released we got to thinking about the over 50,000 cases that we have worked on and thought; "wow, we've heard some real stories and story tellers over the years." And then the idea hit us, "let's share some of those stories." So we've put together several case studies that will walk you through the facts of the ticket and tell you about our solution that helped that driver "Get Off"; well, okay at least get their traffic ticket dismissed. We've also put together many stories and excuses we've heard from drivers and why their traffic tickets did not get dismissed, these are the ones that "Didn't Get Off." After reading this book, you'll have the knowledge about what worked or didn't work for other drivers, which will make you better informed for when you get a traffic ticket. And you will, as the odds are not in your favor. The day will come when you see those flashing lights behind you or that quick flash of a camera as you realize that you just went through a red light with a red light camera device.
