A Concise History of Australia BRILL

El periodista veterano e historiador otomano Michael Rank te trae una historia concisa de 2,000 años de guerra, paz, revueltas religiosas y colapsos sociales en el Medio Oriente, en este emocionante libro. Para la mayoría de occidentales el Medio Oriente parece demasiado confuso. Los Palestinos quieren bombardear Israelíes que los fuerzan a punta de pistola a vivir en partes restringidas del país. Los líderes árabes están furiosos por esta situación

y quieren borrar a los israelíes del mapa; y regresar su tierra a los palestinos, a pesar de que el estado real de Tierra Santa parece como la Utah rural. Y casi todos los líderes del mundo ven que encajan en esta disputa en estas dos pequeñas porciones de territorio. Para desentrañar el conflicto del Medio Oriente moderno y los 2,000 años detrás de él, este libro está dividido en 25 capítulos concisos. Cada uno dedicado a temas mayores en la Historia del Medio Oriente, tales como el comienzo del Islam, las Cruzadas, Genghis Khan y el comienzo de Israel en 1948, pueden ser leídos en unos cuantos minutos, dándote un rápido vistazo a los temas y te ayudará a entender los actuales eventos del Medio Oriente. Al final, sabrás tanta historia del Medio Oriente y el conflicto

israelí-palestino como si hubieras tenido un curso de un año en la universidad.

También sonarás como un gran conocedor sobre asuntos del mundo ante tus amigos y compañeros. Si quieres entender esta parte del mundo completamente en el menor tiempo posible, entonces ¡"De Mahoma a Burj Khalifa" es para ti!

Anti-development, South Africa and Its Bantustans Univ of California Press

Descripción del libro: "Las Cruzadas y los Soldados de la Cruz" es un emocionante libro recién publicado del historiador súper ventas Michael Rank sobre aquella remota epopeya por la recuperación de Tierra Santa. En él se analizan la vida y época de 10 personajes relevantes durante una de las etapas históricas más interesantes jamás vividas, cubriendo el

período entre los años 1095 y 1212. Ya sea Pedro el Ermitaño conduciendo un ejército de 100.000 campesinos hasta Tierra Santa sin más pertrecho que simples horcas o Balduino IV quien lideró personalmente a sus tropas contra Saladino a pesar de ser un leproso terminal, estas figuras legendarias se sintieron obligadas a abandonar sus vastos territorios para embarcarse en una peligrosa aventura contra un enemigo considerablemente superior. Estudiaremos las razones que llevaron a estos 10 personajes a efectuar tamaño sacrificio. Para algunos pudo tratarse de afán por alcanzar la gloria en el campo de batalla, como es el caso de Ricardo Corazón de León. Para otros, mera curiosidad, como Leonor de Aquitania, quien le añadió un garbo espectacular a

la contienda viajando protegida por lanzas hasta Jerusalén y en compañía de 300 sirvientas ataviadas con armaduras meramente decorativas. Y para muchos se trató de simple convicción religiosa, como aquellos miles de niños cruzados que marcharon, según se cuenta, hasta la costa mediterránea en espera de que el mar se abriera ante sus ojos tal como el Mar Rojo lo había hecho ante Moisés. Cualquiera haya sido su motivación personal, estos 10 protagonistas de las Cruzadas demuestran que la voluntad de afrontar un viaje tremendamente peligroso hasta otro continente indica que su personalidad fue la precisa para el fascinante tiempo en que les correspondió vivir.

misunderstood by outsiders. However, as Madawi al-Rasheed explains in a fascinating exploration of Saudi Arabia in the twenty-first century, even Saudis do not agree on their meaning. Under the influence of mass education, printing, new communication technology, and global media, they are forming their own conclusions and debating religion and politics in traditional and novel venues, often violating official taboos and the conservative values of the Saudi society. Drawing on classical religious sources, contemporary readings and interviews, Al-Rasheed presents an ethnography of consent and contest, exploring the fluidity of the boundaries between the religious and political. Bridging the gap between text and context, the author also examines how states and citizens

manipulate religious discourse for purely political ends, and how this manipulation generates unpredictable reactions whose control escapes those who initiated them.

Border Lines Penguin Books

This wide-ranging study of medieval Europe's response to the challenge of Islam examines the relationship between ideas of crusade and mission, between European projects for military conquest and those for the conversion of Muslims to Christianity. Covering the years from the emergence of Islam to the fourteenth century, Benjamin Z. Kedar discusses not only the crusades and the Crusading Kingdom of Jerusalem but also the confrontation of Catholics and Muslims in Sicily and Spain. Originally published in 1984. In the wake of modern genocide, we tend to think of violence against minorities as a sign of intolerance, or, even worse, a prelude to extermination. Violence in the Middle Ages, however, functioned differently, according to David Nirenberg. In this provocative book, he focuses on specific attacks against minorities in fourteenth-century France and the Crown of Aragon (Aragon, Catalonia, and Valencia). He argues that these attacks--ranging from

massacres to verbal assaults against Jews, Muslims, lepers, and prostitutes-- were often perpetrated not by irrational masses laboring under inherited ideologies and prejudices, but by groups that manipulated and reshaped the available discourses on minorities. Nirenberg shows that their use of violence expressed complex beliefs about topics as diverse as divine history, kinship, sex, money, and disease, and that their actions were frequently contested by competing groups within their own society. Nirenberg's readings of archival and literary sources demonstrates how violence set the terms and limits of coexistence for medieval minorities. The particular and contingent nature of this coexistence is underscored by the book's

juxtapositions--some systematic (for example, that of the Crown of Aragon with France, Jew with Muslim, medieval with modern), and some suggestive (such as African ritual rebellion with Catalan riots). Throughout, the book questions the applicability of dichotomies like tolerance versus intolerance to the Middle Ages, and suggests the limitations of those analyses that look for the origins of modern European persecutory violence in the medieval past.

¿Serías capaz de permanecer firme en tu fe si eso significara perder tu vida o la de tu familia? En *El asesinato de cristianos*, Tom Doyle lleva a los lectores a las reuniones secretas, los cuartos de

tortura, las sombrías prisiones y hasta las ejecuciones que son el «llamado» de incontables musulmanes convertidos en cristianos. Las historias son impresionantes, las lecciones conmueven y renuevan el alma. En el asesinato de cristianos se presenta la difícil y seria labor de extender y mantener la fe.

The Gulf Region BRILL

The historical separation between Judaism and Christianity is often figured as a clearly defined break of a single entity into two separate religions. Following this model, there would have been one religion known as Judaism before the birth of Christ, which then took on a hybrid identity. Even before its subsequent division, certain beliefs and practices of this composite would have

been identifiable as Christian or Jewish. In *Border Lines*, however, Daniel Boyarin makes a striking case for a very different way of thinking about the historical development that is the partition of Judaeo-Christianity. There were no characteristics or features that could be described as uniquely Jewish or Christian in late antiquity, Boyarin argues. Rather, Jesus-following Jews and Jews who did not follow Jesus lived on a cultural map in which beliefs, such as that in a second divine being, and practices, such as keeping kosher or maintaining the Sabbath, were widely and variably distributed. The ultimate distinctions between Judaism and Christianity were imposed from above by "border-makers," heresiologists anxious to construct a discrete identity for

Christianity. By defining some beliefs and practices as Christian and others as Jewish or heretical, they moved ideas, behaviors, and people to one side or another of an artificial border—and, Boyarin significantly contends, invented the very notion of religion.

This comprehensive work of cultural history gives us something we have never had: a view of the Crusades as seen through Muslim eyes. With breathtaking command of medieval Muslim sources as well as the vast

literature on medieval European and Muslim culture, Carole Hillenbrand has produced a book that shows not only how the Crusades were perceived by the Muslims, but how the Crusades affected the Muslim world - militarily, culturally, and psychologically. As the author demonstrates, that influence continues now, centuries after the events. In *The Crusades* the reader discovers how the Muslims reacted to the Franks, and how Muslim populations were displaced, the ensuing period of jihad, the careers of Nur al-Din and Saladin, and the interpenetration of Muslim and Christian cultures. Stereotypes of the Franks in Muslim documents offer a fascinating counter to Western views of the infidel of legend. For readers interested in the Middle Ages, military history, the history

of religion, and postcolonial studies, *The Crusades* opens a window onto a conflict we have only viewed from one side. *The Crusades* is richly illustrated, with eighteen color plates and over five hundred line drawings and black and white photographs.

This book outlines the process by which the apartheid Government of the Republic of South Africa set out to maintain its policies by the fiction of 'independence' for its Bantustans. This 'independence' of sections of its territory closely integrated into its economic structure, politically and culturally dominated from Pretoria, continued to guarantee the Republic its flow of cheap mobile migrant labour, shifted the costs of education, health and services on to

the Africans themselves, and provided for the racial segregation apartheid demanded. Unesco commissioned this book as part of its contribution to the International Year against Apartheid (1978). It should be read in conjunction with *Apartheid: Its Effects on Education, Science, Culture and Information* (Paris, Unesco, 1972).

Crusade and Mission Hachette UK

In the wake of Jerusalem's fall in 1099, the crusading armies of western Christians known as the Franks found themselves governing not only Muslims and Jews but also local Christians, whose

culture and traditions were a world apart from their own. The crusader-occupied swaths of Syria and Palestine were home to many separate Christian communities: Greek and Syrian Orthodox, Armenians, and other sects with sharp doctrinal differences. How did these disparate groups live together under Frankish rule? In *The Crusades and the Christian World of the East*, Christopher MacEvitt marshals an impressive array of literary, legal, artistic, and archeological evidence to demonstrate how crusader ideology and religious difference gave rise to a mode of coexistence he calls "rough tolerance." The twelfth-century Frankish rulers of the Levant and their Christian subjects were separated by language, religious practices, and beliefs. Yet western Christians showed

little interest in such differences. Franks intermarried with local Christians and shared shrines and churches, but they did not hesitate to use military force against Christian communities. Rough tolerance was unlike other medieval modes of dealing with religious difference, and MacEvitt illuminates the factors that led to this striking divergence. "It is commonplace to discuss the diversity of the Middle East in terms of Muslims, Jews, and Christians," MacEvitt writes, "yet even this simplifies its religious complexity." While most crusade history has focused on Christian-Muslim encounters, MacEvitt offers an often surprising account by examining the intersection of the Middle Eastern and Frankish Christian worlds during the century of

the First Crusade.

In his seminal work, *A Guide for the Perplexed*, Moses Maimonides (1135–1204) laid the foundation for the future development of Jewish philosophy. In the centuries following his death, his book became the exemplar of reasoning faith. Its purpose was to reconcile Aristotle with Jewish philosophy and to provide a philosophical basis for Judaism's teachings. Written in Arabic, the *Guide* was translated into Hebrew and Latin, with its influence extending to Judaism, Christianity, and Islam. In *Homo Mysticus*, José Faur offers a modern rereading of Maimonides's groundbreaking work. He examines the ideas, perspectives, and methodologies

developed in modern critical theory and poststructural analysis and applies them to achieve an exciting new interpretation of the *Guide*. Faur's interpretation of this text reveals Maimonides's views on prophecy and philosophy, on imagination and intellect, on providence, on the importance of fulfilling the commandments, and above all on esoterism and mysticism. The result is a radical new interpretation of Maimonides, which will become the starting point for all future discussion and research on the philosopher and his important work.

Award-winning photographer Mark Nixon has created a trove of quirky and

nostalgic portraits of teddy bears and other stuffed animals that have been lovingly abused after years of play. MuchLoved collects 60 of these images along with their accompanying background tales. An exhibit in the photographer's studio led to a small sensation on the Internet when a few of the pictures circulated unofficially on scores of blogs and on many legitimate news sites. Viewers have been intrigued by the funny, bittersweet images and their ironic juxtaposition of childhood innocence and aged, loving wear and tear. When you see these teddy bears and bunnies with missing noses and undone stuffing, you can't help but think back to childhood and its earliest companions who asked for nothing and gave a lot back. Gregory Gause's masterful book is the first to offer a comprehensive account of the international politics in the Persian Gulf across nearly four decades. The story begins in 1971 when Great Britain ended its protectorate relations with the smaller states of the lower Gulf. It traces developments in the region from the oil 'revolution' of 1973-4 through the Iranian revolution, the Iran-Iraq war and the Gulf war of 1990-1 to the toppling of Saddam Hussein in the American-led invasion of Iraq in 2003, bringing the story of Gulf regional politics up to 2008. The book highlights transnational identity issues, regime security and the politics of the world oil market, and

charts the changing mix of interests and ambitions driving American policy. The author brings his experience as a scholar and commentator on the Gulf to this riveting account of one of the most politically volatile regions on earth.

"Acharnians" is the earliest of the existent comedies of Aristophanes, produced in 425 BCE. It is a direct attack on the folly of war. The story deals with an Athenian farmer, Dikaiopolis, who surprisingly obtains a private peace treaty with the Spartans and enjoys the benefits of peace despite resistance from some of his fellow Athenians. This drama is celebrated for its absurd humor and its innovative appeal for an end to the Peloponnesian War.
