Harvill Press  
 Acclaimed writer Vitali Vitaliev takes a personal journey through Europe's forgotten enclaves, tiny fragments of countries cut off and completely surrounded by another. Stuck for centuries between two different cultures, currencies and (at times) languages, each enclave features fascinating idiosyncrasies of everyday life, making these geographical and historical anomalies perfect destinations for an inquisitive, knowledge-hungry traveller. An enclave in his own right, Vitaliev, a Ukrainian-born Russian with Australian and British citizenship,

travels in search of his own elusive identity and in search of what makes Europeans truly unique. He goes to Spain, France, Belgium, Germany, Holland, Switzerland, Italy and Austria, setting out just as the European identity is being imposed from Brussels through the Euro. An acclaimed investigative journalist, Vitali was able to uncover the roots of the current EU crisis ten years ago, just when the Euro was being introduced. This makes his book extremely topical and surprisingly up-to-date, particularly now that campaigning has started in earnest for Britain's EU referendum, making a convincing, yet witty and didactic, case for Brexit.

 Jill Mansell's bestseller THE UNPREDICTABLE CONSEQUENCES OF LOVE is an unforgettable tale of sunny days on the beach, Cornwall in the summer and secrets about to be revealed. Perfect for readers of Lucy Diamond and Veronica Henry. In the idyllic seaside town of St Carys, Sophie is putting the past firmly behind her. When Josh arrives in St Carys to run the family hotel, he can't understand why Sophie has zero interest

in letting any man into her life. He also can't understand how he's been duped into employing Sophie's impulsive friend Tula, whose crush on him is decidedly unrequited. St Carys has more than its fair share of characters, including the charming but utterly feckless surfer Riley Bryant, who has a massive crush on Tula. Riley's aunt is superstar author Marguerite Marshall. And Marguerite has designs on Josh's grandfather...who in turn still adores his glamorous ex-wife, Dot... Just how many secrets can one seaside town keep? What readers are saying about *The Unpredictable Consequences of Love*: 'The way in which the various stories played out - with all their twists and turns, laughs and real sadness - against the vividly drawn Cornish setting made for quite engrossing reading' Goodreads reviewer, 5 stars 'Wonderfully witty, highly compelling and absolutely impossible to resist' Goodreads reviewer, 5 stars 'So much love is flowing in this little seaside town and each of the characters are loveable and entertaining. The perfect read with no flaws and had me hooked from start to finish' Amazon reviewer, 5 stars

Six months ago, the world ended. The Baugh Contagion swept across the planet. Its victims were left twitching, adrenalized cannibals that quickly became known as Junkies. Civilization crumbled as people created isolated safe havens to hide from the infected... and the possibly-infected. Now, as society nears a tipping point, lives will intersect and intertwine across two days in a desolate city. *THE JUNKIE QUATRIN* is four tales of survival, and four types of post-apocalypse story. Madame du Deffand (1696-1780) was a minor French aristocrat who, bored by her marriage, threw herself into scandalous relationships with leading noblemen, including the French Regent. She later re-invented herself as a highly successful salonniere, her salon being frequented by leading thinkers of the day. She also maintained very witty, perceptive correspondences with Voltaire (whose letters back are full expositions of his philosophy) and later with Horace Walpole with whom she fell deeply in love, much to his shock.

In this book I have tried to develop further the ideas expressed in my previous work, *Between Experience and Metaphysics*, which was published in the same series in 1975. Several years have passed since the original Polish edition (and then 1 the Italian translation) of this book appeared. The fact that the principal ideas expressed in it have withstood, as I see it, the brunt of criticism, has led me to remain basically with the original text. Two main changes have, however, been introduced. First, I have added an Appendix containing the original version of a paper I presented at the Wissenschaftskolleg zu Berlin in June 1988 and a short postscript to that paper referring to comments made during two discussions at the Kolleg. Let me briefly explain the reason for this addition. In recent years the landscape for historical and philosophical interpretation of the evolution of scientific knowledge has altered. The strongest of the new contenders for epistemological recognition are social constructivists, who analyze in detail how knowledge is produced within specific social settings, including the instruments and procedures of particular laboratories and the economic and political realities of particular scientific communities. The local character of these studies raises the question of whether they can ever provide generalizable epistemological claims.

In the second volume of *The Origins of Totalitarianism*, the political theorist traces the decline of European colonialism and the outbreak of WWI. Since it was first published in 1951, *The Origins of Totalitarianism* has been recognized as the definitive philosophical account of the totalitarian mindset. A probing analysis of Nazism, Stalinism, and the "banality of evil", it remains one of the most referenced works in studies and discussions of totalitarian movements around the world. In this second volume, Imperialism, Dr. Hannah Arendt examines the cruel epoch of declining European colonial imperialism from 1884 to the outbreak of the First World War. Through portraits of Disraeli, Cecil Rhodes, Gobineau, Proust, and T.E. Lawrence, Arendt illustrates how this era ended with the decline of the nation-state and the disintegration of Europe's class society. These two events, Arendt argues, generated totalitarianism, which in turn produced the Holocaust. "A funny, fresh novel about growing up African-American in 1960s Chicago" by an author who "writes like Terry McMillan's kid sister" (*Entertainment Weekly*). In this hilarious and insightful coming-of-age novel, author April Sinclair introduces the charming Jean "Stevie" Stevenson, a young woman raised on Chicago's South Side during an era of irrevocable social upheaval. Curious and witty, bold but naïve, Stevie grows up debating the qualities of good hair and dark skin. As the years pass, her family and neighborhood are changed by the times, from the War on Poverty to race riots and the assassination of Martin Luther King Jr., from "Black Is Beautiful" to Black Power. Against this remarkable backdrop, Stevie makes the sometimes harrowing, often comic, always enthralling transformation into a young adult—socially aware, discovering her sexuality, and proud of her identity. "Whether she's dealing with a subject as monumental as the civil rights movement or as intimate as Stevie's first sexual encounters," writes the *Los Angeles Times*, "Sinclair never fails to make you laugh and never sacrifices the narrative to make a point." Winner of the Carl Sandburg Award from the Friends of the Chicago Public Library and named a best book of the year in young adult fiction by the American Library Association, *Coffee Will Make You Black* is an exquisite portrait of adolescence that will resonate with readers of all ages.
