Original Jaguar E-Type

Emerald Group Publishing
An in-depth study of the Sauber-Mercedes racecars that dominated the Group C racing scene during the late 1980s and early 1990s. When Peter Sauber started using Mercedes V8 engines in his Group C sports cars in 1985 the result was World Championship wins in 1989 and 1990. Utterly dominant, the three-pointed star of Mercedes beat the TWR Jaguars and

Nissans, and introduced a certain M Schumacher into the factory team in 1990. This book features interviews with many of the personalities who raced with the Sauber-Mercedes team, including Jochen Mass, Mauro Baldi, Kenny Acheson, David Price, Bobby Bell and Leo Riss. A host of magnificent colour photographs backs up the history and development of the cars. Also included

is a chassis-by-chassis history of each individual car.

A Monastic Renaissance at St Albans Evro

Publishing Limited

The formative years of the 1950s are explored in this fourth installment of Evro's decade-by-decade series covering all Formula 1 cars and teams. When the World Championship was first held in 1950, red Italian cars predominated, from Alfa Romeo, Ferrari and Maserati, and continued to do so for much of the period. But by the time the decade closed, green

British cars were in their ascendancy, first Vanwall and then rear-engined Cooper playing the starring roles, and BRM and Lotus having walk-on parts. As for drivers, one stood out above the others, Argentine Juan Manuel Fangio, becoming World Champion five times. Much of the fascination of this era also lies in its numerous privateers and also-rans, all of which receive their due coverage in this complete work. Year-by-year treatment covers each season in fascinating

depth, running through the teams -- and their various cars -- in order of importance. Alfa Romeo's supercharged 1½-litre cars dominated the first two years, with titles won by Giuseppe Farina (1950) and Fangio (1951). The new marque of Ferrari steamrolled the opposition in two seasons run to Formula 2 rules (1952-53), Alberto Ascari becoming champion both times, and the same manufacturer took two more crowns with Fangio (1956) and Mike Hawthorn (1958). Maserati's

fabulous 250F, the decade's most significant racing car, propelled Fangio to two more of his five championships (1954 and 1957). German manufacturer Mercedes-Benz stepped briefly into Formula 1 (1954-55) and won almost everything with Fangio and up-and-coming Stirling Moss. Green finally beat red when the Vanwalls, driven by Moss and Tony Brooks, won the inaugural constructors' title (1958). Then along came Cooper, rear-engine pioneers, to signpost Formula 1's

future when Jack Brabham became World Champion (1959).

The word prose does not exist. But the author of this book of prose uses it to describe the presentation of prose in a manner that attempts to depict the aims and objectives of poetry. *The Rain Drop and Other Shades of Prose* is written in five sections. The first is *The Rain Drop* and tells of an author who has just achieved great

success. He reflects back on an embarrassing incident that happened when he was six, and which comes to mind whenever it rains. The second story, *The Priest*, is about a man who became a priest by accident, but grows to love his chosen profession. Then he is presented a great temptation when he meets a woman who resembles a girl he loved as a teenager. *The Cricketer* shows the game through the eyes of an experienced player, one

about to go through a very unusual experience during a cricket match. In *The Driver*, the anxieties of an aging Formula One racecar driver show what happens during what could be the last year of his racing career. In the fifth and final story, *The Admirer*, the anguish of a young man who has fallen madly in love with a girl he has never spoken with is told in prose.

 From acclaimed journalist

Adam Hay-Nicholls, the very first biography of rising star Charles Leclerc, published to mark the start of the 2023 Formula One season. Few of the drivers on the F1 grid have the racing pedigree of Charles Leclerc. Widely regarded as one of the sport's hottest prospects, he was crowned F3 and then F2 champion in back-to-back seasons before he made his F1 debut with Sauber in 2018. Now firmly established as Ferrari's great hope, following in the footsteps of legends Alberto Ascari,

Niki Lauda and Michael Schumacher, Leclerc has his eyes set on becoming world champion. Born in Monaco to a family of comparatively modest means, Leclerc remembers playing with toy cars on a friend's balcony as the best drivers in the world whizzed around the Monte Carlo circuit on the streets below. This early experience inspired him to get behind the wheel, encouraged by his father Hervé, and so began his meteoric rise in the sport. Along the way, he lost his

father, his godfather and his best friend - all racing drivers - and this gave Leclerc the inner steel to become a winner. Writer Adam Hay-Nicholls, who has spent much of his career in the Formula One paddock, provides the inside track on this rising star, recounting how he has taken the racing world by storm. And as Leclerc's Ferrari is beginning to fire on all cylinders, will he beat his old rival and adversary Max Verstappen to the world title?

Formula One 2020

Taylor & Francis Formula One has long maintained a glitzy aura that masks dark and strange goings-on in the background. But with the 2019 season came a force louder than Formula One could dream of muffling: William Storey, the founder of British energy drink startup Rich Energy. Storey became a multimillion-dollar sponsor of the Haas Formula One team a year after records showed Rich Energy having a mere \$770 in the bank. He equated his doubters to moon-landing

truthers and publicly mocked both the Haas team and the entities winning legal disputes against him. But where were actual cans of Rich Energy, and did the supposed sponsorship funds exist? In the six months between Storey's first race as a Formula One sponsor and his very public exit, he stole the spotlight with a loud mouth and an active Twitter account. Haas team boss Guenther Steiner once described the Rich Energy news cycle as: "I'm getting sick

of answering these stupid fucking questions on a race weekend. I've never seen any fucking thing like this." No one else had, either. This book uncovers the complete, bizarre story.
