Investors, shareholders, and corporate leaders looking for an edge in today's New Economy are moving beyond traditional accounting yardsticks toward new means of gauging performance and profitability. An increasing number of Wall Street analysts and corporate boards are adopting value-based metrics such as EVA, MVA, and CFROI as a measure of a firm's profitability because these standards adjust for all of the firm's cost of capital - equity as well as debt. James Grant tackled the issue of economic value added in its infancy with Foundations of Economic Value Added - one of the first primers on the topic, endorsed by its creator, G. Bennett Stewart. Now, in Value Based Metrics: Foundations and Practice, he and Frank Fabozzi head a team of some of the leading proponents of value based metrics on both the investment management side and the corporate side. This comprehensive reference outlines how corporations and analysts can use value based metrics to more accurately measure the financial performance of individual companies, industries, and economies, as well as how to get an edge in today's turbulent market.

"[Mergent's Dividend Achievers] is the valuable source for high-quality stocks that pay great dividends" — Len Kuker, Senior Vice President, Morgan Stanley Unique Rankings Companies are classified by industry. This edition includes numerous valuable rankings, such as 10-year average annual dividend growth rate, one, three, and five year total returns, top 20 return on equity and return on assets along with top 20 rankings by revenue, net income, total assets, long-term and short-term price scores, highest and lowest P/E ratios and more! A Great Investment Has Become Even Better And now, with new tax law changes slashing dividend taxes, investing in Dividend Achiever companies has never been better! Our Dividend Achievers will provide low-taxed income today and perhaps low-taxed capital gains tomorrow. Historically, dividend income has been taxed at your highest rate. Under the prior tax law, as much as 38.6% of dividend income could go to the IRS. The 2003 tax act changed the rules. Now, corporate dividends paid to individuals generally are taxed at ultra-low tax rates. Most investors will pay only 15% tax on dividend income. Investors in the lowest federal tax brackets will pay only 5% tax on dividends. This rate may apply to retirees whose income drops after they stop working. In 2008, those low-bracket taxpayers will owe no federal income tax on dividends they receive. What's more, if you need to sell your dividend-paying stocks, any long-term gains will qualify for those same bargain tax rates: 15%, 5%, or even 0% in 2008. How Does a Company Become a Dividend Achiever? Many thousands of companies pay dividends to shareholders. Fewer than 300 U.S. companies qualified as Dividend Achievers in 2003. In fact, only 2.5% of all the publicly-traded, dividend-paying U.S. companies qualify as Dividend Achievers! To make our final cut, only high-quality companies that have increased their regular dividends for 10 years in a row are chosen from an exclusive list. That's right...during the boom times of the late 1990s and the struggles of the early 21st century, our Dividend Achievers have steadily taken in more cash and paid higher dividends to investors. In fact, most of our Dividend Achievers have more than 20 years of

higher dividends. Truly, the companies on our list have proven to be the top tier of U.S. industry. Order Your Copy Today For this edition of Mergent's Dividend Achievers, our analysts have updated the profiles on approximately 300 Dividend Achievers, which includes high-yielding companies that can produce higher returns, after tax, than municipal bonds. "I have been using and writing about Dividend Achievers handbook for more than 11 years, and I believe that it is one of the few true bargains in the arena of independent investment research." —Laureen Rudd, syndicated columnist, writing in the Sarasota Tribune A Century of Providing Trusted Information For over a century, Mergent has been the preferred source for global business and financial information. Providing comprehensive data to savvy investors — both novice and professional — Mergent offers the easy way to pick specific stocks that excel at paying dividends and piling up profits.

The Legend of Briggs & Stratton John Wiley & Sons

Heading into 2014, American businesses face an important decision about health care: Opt in or opt out? With the Patient Protection and Affordable Care Act, or Obamacare, in effect, companies with more than 50 employees will either offer health care benefits or face penalties. And the choice isn't as straightforward as it may sound—in many instances, some companies could save money by paying the fines rather than funding a health care plan. Others would lose money if they dropped coverage. Most employers would like to offer the benefit, but it needs to be truly affordable. Fortunately, the stampede of innovations introduced in the private sector over the last decade has simplified the decision; health costs can be managed if corporate managers make it a strategic priority. John Torinus Jr., author of *The Company That Solved Health Care*, the eye-opening book detailing one company's game-changing health care program, now gives Opt Out on Obamacare, Opt Into the Private Health Care Revolution, a game plan for improving workforce health and dramatically lowering health costs. Unlike the new national law, it concentrates on management science, not politics. Innovative corporations have engaged their employees in taming the hyper-inflation that has plagued the health care industry for decades. CEOs, CFOs, and COOs in front-running companies are deploying management disciplines and marketplace principles to invent a better business model for health care. They are bending the curve, and this book shows you how to follow suit.
