A funny, fresh, and brilliantly insightful collection of stories from a beloved writer, with a new introduction by Francine Prose. Johanna Kaplan's beautifully written stories first burst on the literary scene in the late 1960s and early 1970s. Today they have retained all of their depth, surprise, and humor—their simultaneously scathing, hilarious, and compassionate insight into character and behavior. From Miriam, home from school with the measles, to Louise, the daughter of a family that fled Vienna for the Dominican Republic, to Naomi, a young psychiatrist, her heroines are fierce, tender, funny, and cuttngly smart. At once specific to a particular period, place, and milieu—mainly, Jewish New York in the decades after World War II—Kaplan's stories resonate with universal significance. In this new collection, which includes both early and later stories, unforgettably vivid characters are captured in all of their forceful presence and singularity, their foolishness and their wisdom, their venality and their nobility, while, hovering in the background, the inexorable passage of time and the unending pull of memory render silent judgment. In its pitch-perfect command of dialogue matched with interwoven subtleties of insight and feeling and a masterful control of language, *Loss of Memory Is Only Temporary* is itself a timeless collection of the finest work by one of the most extraordinary talents of our age.

Are Arab Gulf cities, the likes of Dubai, Abu Dhabi or Doha, on their way to extinction? Is their fate obsolescence? Or, are they the model for our urban future? Can a city whose very existence is predicated on an imported labour force who build and operate these gleaming urban centres remain a viable urban entity? Could the transient nature of this urban model, its temporariness and precariousness, also be its doom? In this wide-ranging book Yasser Elsheshtawy takes on these tough, but necessary, questions aiming to examine the very nature of the Arab Gulf city and whether it can sustain its existence throughout the twenty-first century. Having lived in the region for more than two

decades he researched its marginalized and forgotten urban settings, trying to understand how a temporary people can live in a place that inherently refuses to give them the possibility of becoming citizens. By being embedded in these spaces and reconciling their presence with his own personal encounters with transience, he discovered a resilience and defiance against the forces of the hegemonic city. Using subtle acts of resistance, these temporary inhabitants have found a way to sustain and create a home, to set down roots in the midst of a fast changing and transient urbanity. Their stories, recounted in this book through case studies and in-depth analysis, give hope to cities everywhere. Transience is not a *fait accompli*: rather the actions of citizens, residents and migrants – even in the highly restrictive spaces of the Gulf – show us that the future metropolis may very well not turn out to be a 'utopia of the few and a dystopia of the many'. This could be an illusion, but it is a necessary illusion because the alternative is irrelevance.

Ecclesiastes | Rene Vartanoff

The publication of the King James version of the Bible, translated between 1603 and 1611, coincided with an extraordinary flowering of English literature and is universally acknowledged as the greatest influence on English-language literature in history. Now, world-class literary writers introduce the book of the King James Bible in a series of beautifully designed, small-format volumes. The introducers' passionate, provocative, and personal engagements with the spirituality and the language of the text make the Bible come alive as a stunning work of literature and remind us of its overwhelming contemporary relevance.

Winner of the William G. Bowen Prize Named a "Triumph" of 2018 by New York Times Book Critics Shortlisted for the 800-CEO-READ Business Book Award The untold history of the surprising origins of the "gig economy"—how deliberate decisions made by consultants and CEOs in the 50s and 60s upended the stability of

the workplace and the lives of millions of working men and women in postwar America. Over the last fifty years, job security has cratered as the institutions that insulated us from volatility have been swept aside by a fervent belief in the market. Now every working person in America today asks the same question: how secure is my job? In *Temp*, Louis Hyman explains how we got to this precarious position and traces the real origins of the gig economy: it was created not by accident, but by choice through a series of deliberate decisions by consultants and CEOs—long before the digital revolution. Uber is not the cause of insecurity and inequality in our country, and neither is the rest of the gig economy. The answer to our growing problems goes deeper than apps, further back than outsourcing and downsizing, and contests the most essential assumptions we have about how our businesses should work. As we make choices about the future, we need to understand our past.

By New York Times bestseller Sarah Mayberry and USA Today bestseller Sarina Bowen The first time I lay eyes on Callan Walker, I know he'll be trouble. With his smug grin, hot Aussie accent and thousand dollar shoes, he's just the kind of rich guy who always gets what he wants. And he wants two things: a night of sin, and my cooperation as he outmaneuvers his powerful mother to take control of his uncle's estate. I can't afford either one. I'm the only thing standing between my little sister and the foster care system. He may have money and charm on his side, but I have something even more powerful — pure desperation. This temp job at his mother's company can become a full time job for me. It has to. But when Callan's eyes rake over my body, sometimes I forget my obligations. His piercing gaze finds the fun, optimistic girl I used to be and not the tired person I've become. And it works—if only for a moment. Our night together was a mistake. I can't afford to get sucked into his high-powered family's treachery. But the closer I get to Callan, the more layers I find beneath those expensive clothes. Though I can't forget this is temporary. He's temporary. I have too much to lose. Too bad my foolish heart didn't get the memo... **** Perfect for fans of: billionaire romance, Carly Phillips, Vi Keeland, Penelope Ward, Meghan March, Elle Kennedy, Kendall Ryan, and Lauren Blakely.

Permanent migration has long been vital to the story of Australia. From the arrival of early settlers to waves of post-war immigration, the symbolic moment of disembarking onto Australian soil is an image deeply embedded in our nation's consciousness. Today, there are more than million temporary migrants living in Australia. They work, pay tax and abide by our laws, yet they remain unrecognised as citizens. All the while, this rise in temporary migration is redefining Australian society, from wage wars and healthcare benefits, to broader ideas of national identity and cultural diversity. In *Not Quite Australian*, award-winning journalist Peter Mares draws on case studies, interviews and personal stories to investigate the complex realities of this new era of temporary migration. Mares considers such issues as the expansion of the 457 work visa, the unique experience of New Zealand migrants, the internationalisation of Australia's education system and our highly politicised asylum-seeker policies to draw conclusions about our nation's changing landscape. *Not Quite Australian* is packed with fresh insight and challenging new ideas for understanding Australia's growing culture of temporary migration. Peter Mares is an independent writer and researcher. He is a contributing editor with the online magazine *Inside Story* and a senior moderator with *The Cranlana Programme*. Peter was a broadcaster with the ABC for twenty-five years, serving as a foreign correspondent based in Hanoi and presenting national radio programs. He is the author of the award-winning book *Borderline: Australia's Response to Refugees and Asylum Seekers in the Wake of the Tampa* and has written about migration for many media outlets including the *Age*, *Australian Financial Review* and *Griffith Review*. Peter lives in Melbourne with his wife and son. 'Mares is indefatigable in his data gathering and scrupulously even-handed in weighing the evidence. He strikes an exquisite balance between the personal and scholarly, the humane and tough-mindedness. *Not Quite Australian* is big-picture storytelling with a pulse, always keeping ideals, blunt realities and people—the exposed who want a place and the lucky ones entrenched here—in the frame.' *Australian* 'An important and timely contribution to the debate about how Australia should handle the migration of people to its territory, and I highly recommend it.' *Australian Book Review* 'Compellingly

readable...[Mares'] research is comprehensive, intellectually deft, ethically and philosophically grounded—but digestible, and personally attested...This is on-the-ground, people-focused journalism of the highest kind.' *Sydney Morning Herald* 'Mares has once again presented a controversial and complicated topic with clarity and humanity. At a time when a national conversation about what it means to be Australian (or unAustralian) seems daily social media fodder, *Not Quite Australian* is an important contribution. And a reminder of the importance of thorough, slow-burn journalism in the hot-takes age.' *Big Issue* 'This detailed, careful and topical book is illuminated by the personal stories of individuals and families caught up in a complex and bureaucratic system, and it leaves a lasting impression of an Australia that is becoming a two-tiered country...Powerful and persuasive.' *Overland* 'This book is one which should be read by policymakers and concerned citizens alike.' *Spectator* 'One of the most important books published in Australia in 2016. An impressive account of one of the biggest scandals in contemporary Australia; how we've sleepwalked into a policy environment that encourages the systemic exploitation of an underclass of millions of temporary migrants in our country.' *Tim Watts*

Loss of Memory Is Only Temporary Open Road Media

Amoral, cunning, ruthless, and instructive, this multi-million-copy *New York Times* bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control – from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

The Population Bomb Penguin

In the United Arab Emirates, foreign nationals constitute over 80 percent of the population. Brought in to construct and serve the towering monuments to wealth that punctuate the skylines of Abu Dhabi and Dubai, this labor force is not given the option of citizenship. Until now, the humanitarian crisis of the so-called 'guest workers' of the Gulf has barely been addressed in fiction. With his stunning, mind-altering debut novel, Deepak Unnikrishnan delves into their histories, myths, struggles, and triumphs. Combining the linguistic invention of Salman Rushdie and the satirical vision of George Saunders, Unnikrishnan presents twenty-eight linked stories, moving from construction workers who shapeshift into luggage and escape a labor camp to a woman who stitches back together the bodies of those who've fallen from buildings in progress, to a man who grows ideal workers designed to live twelve years and then perish—until they don't, and found a rebel community in the desert. With this polyphony of voices, Unnikrishnan maps a new, unruly global English and gives personhood back to the anonymous workers of the Gulf. His debut marks the arrival of a major talent.

In February 1954, Victoria Edwards bled to death after a botched dental procedure. Three days later, she woke up in the morgue wearing a toe tag. She was 25. After routine dental surgery goes horribly wrong, Victoria bleeds to death and is pronounced dead and placed in the hospital morgue. While "dead" she visited "somewhere" and was placed in a learning center where she learned the answers to some of life's most controversial questions and was shown visions of the horrifying consequences of certain women's fate. return to her Earthly existence, how her life was forever changed upon her return and how she spent her entire life longing to go back to “somewhere.” Fifty two years later... On April 30, 2006... she got her wish. This is the incredible true story of her temporary death. ****NOTES ABOUT THIS BOOK: In a cassette tape given to her by her dying mother, a young woman was able to recount, in her mother's own words, the cold winter night in 1954 when her mother bled to death... then woke up three days later in the morgue wearing a toe tag. It was her mother's dying wish for her daughter to “please do something with my story so others will know.” What you are about to read is the actual unedited transcript from that tape. Where there are question marks, there are spots in the tape where her words cannot be understood. Where the tape says it has been “45 years” this refers to the time the tape was made. In actuality, it has now been 59 years (2013). No editing was done on this book to maintain the authenticity of her words, feelings and experience. It was typed exactly as the author heard it... word for word. Her name was changed per her request to protect the privacy of her family. The

name used in the book was chosen by her.

The Temporary A&C Black

“A powerful allegory of our civilization's many maladies, artfully and elegantly articulated, by one of the young wise women of our generation.” —New York Times Book Review An intelligent and madly entertaining debut novel reminiscent of *The Crying of Lot 49*, *White Noise*, and *City of Glass* that is at once a missing-person mystery, an exorcism of modern culture, and a wholly singular vision of contemporary womanhood from a terrifying and often funny voice of a new generation. A woman known only by the letter A lives in an unnamed American city with her roommate, B, and boyfriend, C, who wants her to join him on a reality show called *That's My Partner!* A eats (or doesn't) the right things, watches endless amounts of television, often just for the commercials—particularly the recurring cartoon escapades of Kandy Kat, the mascot for an entirely chemical dessert—and models herself on a standard of beauty that only exists in such advertising. She fixates on the fifteen minutes of fame a news-celebrity named Michael has earned after buying up his local

Wally Supermarket's entire, and increasingly ample, supply of veal. Meanwhile B is attempting to make herself a twin of A, who hungers for something to give meaning to her life, something aside from C's pornography addiction, and becomes indoctrinated by a new religion spread throughout a web of corporate franchises, which moves her closer to the decoys that populate her television world, but no closer to her true nature.
