Light and Life OUP Oxford

The 1/4th Battalion of the Ox & Bucks Light Infantry was formed in Oxford on the outbreak of war in August 1914 as part of the South Midlands Brigade which in turn formed part of the South Midland Division. Landing at Boulogne in France on 30th March 1915, in May the formation became the 145th Brigade in the 48th (South Midland) Division. It fought in France and Flanders at Ploegsteert, on the Somme and at Third Ypres (Passchendaele) before transferring to prop up the Italian front in November 1917. Maps, awards with full citations, including those for the Military Medal and M.S.M., and a Roll of Honour make this a great source for the gallantry medal collector.

This is a compact, authoritative dictionary designed especially for Australian users. Like other one-volume dictionaries it presents a selection, from the vast store of international usage, of those words which are current and relevant in the Australian context. But it does this with an authority which no other Australian dictionary can claim. This authority has two bases, the international and the Australian. The dictionary's international authority is announced in the use of the name Oxford; its Australian authority comes from its having been fully edited at the Australian National Dictionary Centre in Canberra. Through Oxford (Australia's largest reference publishers) its editors had access to the most comprehensive database of the English language as it is used world-wide - the same database as that which forms the twenty-volume Oxford English Dictionary - and to the most recent distillation of this in the latest edition of the pace-setting Concise Oxford Dictionary. Through the Centre the dictionary's editors had access to the largest citation database of Australian English: that which forms the Australian National Dictionary. The Australian Concise Oxford Dictionary is the first product of this lineage and its publication heralds a new era in Australian lexicography. Special features include: * Completely revised Australian pronunciations, represented in IPA notation; * up-to-date Australian spellings and their alternatives; * full coverage of historical areas of Australian English - convict terms,

the language of the gold rushes, exploration, settlement etc.;

* up-to-date coverage of scientific and technological terminology, especially of computer terminology; * full and reliable definitions and etymologies for words of Aboriginal origin, Aboriginal English words, etc.

This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1897 edition. Excerpt: ...recover the original appearance of this side one must penetrate into the little court between the Congregation House and the chancel, where the two tiers of fourteenth-century windows will be found still remaining. The east end also retains its two windows in the same style one above the other. The tracery is simple and the details somewhat clumsy. Two-light windows serve the lower room, and single lights the upper, two to every one of those below (see Fig. 5). This difference in fenestration marks the different functions of the rooms. The library would have been furnished as usual with desks and settles standing out at right angles from the wall, leaving between them pews or studies for readers, with a window to light each study. Seven single lights therefore, evenly spaced in each side wall, originally lit as many reading pews, an arrangement familiar to all students in academic libraries. It is uncertain how the original entrance was contrived, for the old door high up in the south wall, which is now once more exposed to view inside as well as out, cuts through and obliterates one of the seven original windows, the arch of which can be traced in the wall. The moulding round this door, however, shows no difference in date from the windows, and the alteration--if it were an alteration--must have followed directly on the construction. The removal of the University library to its present quarters at the time the church was rebuilt did away with one objection to the destruction of the row of single lights in the north wall, which were effaced as has been described. Those on the south side have only partly escaped. One had already made way for the door just 1 There would have been eight, two to a bay, were it not that the tower buttresses...

Oxford Picture Dictionary Monolingual (American English) dictionary for teenage and adult students Oxford University Press Published for the first time in English, Porcelain is a book-length cycle of forty-nine poems written over the course of more than a decade that together serve as a lament for Durs Grünbein's hometown, Dresden, which was destroyed in the Allied firebombing of February 1945. Porcelain is a book-length cycle of forty-nine poems written over the course of more than a decade that together serve as a lament for Durs Grünbein's hometown, Dresden, which was destroyed in the Allied firebombing of February 1945. The book is at once a history and "declaration of

love" to the famed "Venice on the Elbe," so catastrophically razed by British bombs; a musical fusion of eyewitness accounts, family memories, and stories, of monuments and relics; the story of the city's destiny as seen through a prism of biographical enigmas, its intimate relation to the "white gold" porcelain that made its fortune and reflections on the power and limits of poetry. Musical, fractured, ironic, and elegiac, Porcelain is controversial, too, in setting itself against what Grünbein calls the "myth" of the Germans as innocent victims of a war crime. At the same time, it never loses sight of the horror deliberately visited on an unwitting civilian population, nor the devastation that looms so large in the German memory. Published for the first time in English, on the seventy-fifth year anniversary of the firebombing, this edition contains new images, notes, Grünbein's own reflections and an additional canto--an extraordinary act of poetic kintsugi for the fractured remains of Dresden's memory.

Here is the second volume of A Great Circle, the highly acclaimed Mayfield family trilogy, from one of America's literary treasures. Though a novel independent from The Surface of Earth, The Source of Light continues the saga of the Mayfield family, here focusing on Hutchins Mayfield, whose desire for self-knowledge removes him from his secure existence as a prep school teacher and takes him on a journey to Oxford and Italy to study and write. Hutchins comes back home for a family crisis but ultimately returns to England, where he achieves a maturity that enables him to cope with commitments, abandonments, and the creation of an honest personal agenda. In The Source of Light, Reynolds

Price combines gravity and buoyancy, a mythic sense of the past with the mysteries of place, to forge an encompassing portrait of the strange and various world one travels through in the quest for self-fulfillment.
