Growing Your Church from Within

Discipleship Resources

Over the past fifteen years, small groups

have become a vital way to build community in large churches. Nowhere has this been more apparent than at Saddleback Church. Now Steve Gladen, pastor of small groups at Saddleback, shares the secrets of that ministry's incredible success in creating small groups with purpose. This practical book walks church leaders through the questions they need to answer to develop their own intentional small group strategy. Built around the most commonly asked questions, *Small Groups with Purpose* outlines the step-by-step process of creating a successful small group ministry. Because it is built upon principles and not methods, this plan can be implemented in any size church. Each chapter ends with a list of questions for readers to answer to help

them assess their current situation and their desires for the future. Personal stories, Scripture, and examples ground the discussion and show the system in action. Pastors and small group leaders will find this book instrumental in making small groups work in their churches.

Transmitting the Spirit in Missions
AuthorHouse

Transmitting the Spirit in Missions: The History and Growth of the Church of Pentecost discourses on how Pentecostalism in general has been

involved in the current growth, mission, and changing face of global Christianity. It argues that African Pentecostals particularly are an integral part of the global expansion of Christianity in this century. Specifically, this book engages the history and growth of the Church of Pentecost, an African Pentecostal denomination from Ghana, to demonstrate how African Pentecostals have taken their spirituality into their own hands and planted churches in their home country, as well as other parts of the globe. The focus of this book is that African Pentecostals have achieved this feat through the experiential power and reliance of the Holy Spirit and the indigenous factor. The specific highlight is that this book is an updated analysis of the history, growth, and missions of

the Church of Pentecost. Although this work is transformed from a PhD thesis, the content is presented accessibly to both the academia and general church populace, both pastors and the laity. [A Group Leaders Manual](#) InterVarsity Press

This manual introduces the basic concepts of the cell ministry to the leaders called Face-to-Face Care Group leaders. These Care Group leaders will be given a simple set of criteria needed to assist Pastor Houpe with the initial

launch of Face-to-Face Care Group leaders for the implementation of the vision. It contains the full scope of the vision being implemented at Harvest International Outreach Center and can serve as a model for any adaptation in other satellite churches and ministries. This book also contains a group of lessons outlines for training the leadership of the ministry. These individuals will serve as the catalyst for the vision in its early stages. These lessons are designed to be a fast tract training program. They cover enough of the particulars of the vision so that spiritually mature mentors and those already familiar with leadership principals can accelerate the implementation of Face-to-Face. The vision's particulars can easily be

modified to each pastor's individual assignment (Harvest Church Satellite Locations, CAM Members, etc.).

The Arrival Kit Springer

My favorite coach is John Wooden.
During his time coaching college

basketball with the UCLA Bruins, Wooden won ten NCAA titles, including seven in a row from 1967 to 1973. His UCLA teams also had a record winning streak of eighty-eight games, four perfect 30-0 seasons, and won thirty-eight straight games in NCAA Tournaments. Yet, Wooden wasn't overly focused on winning basketball games. He was more concerned about building character in his players. He stimulated his players to be successful in their school studies, attitudes, and behavior—which ultimately resulted in success on the basketball court. And Wooden lived the life that he asked his players to follow. Wooden was an amazing coach because he built into the lives of his players and developed their character. Coaching small group leaders has similar

characteristics. The goal of Christian coaches is to move people toward Jesus Christ. The Christian coach strives to lead people forward to conformity with Jesus Christ, knowing that the ultimate crown is the one that will last forever (1 Corinthians 9:25). While Christ-like character is most important, a small group coach also equips leaders with the tools, knowledge, and opportunities they need to develop themselves and become more effective in small group ministry. A cell coach encourages, nourishes, and challenges cell leaders to grow and multiply their cell groups. The word “coach” is descriptive of the role a person plays as he or she supports cell leaders under his or her care. It is not a sacred term. In fact, churches use many terms to identify the role played by the

cell group coach: supervisor, section leader, G-12 leader, cell overseer, cell sponsor, even “L” (which is the roman numeral for 50). This book provides step by step instructions on how to coach a small group leader from the initial stages of leading the group all the way to giving birth to a new one. Those who have never coached before will receive clear information on how to take the small group leader to the next level. And someone who is already coaching a small group leader will also find the eight lessons in this book invaluable to empower others to lead fruitful groups. I have another, more-in-depth book on coaching called How to be a Great Cell Group Coach. Some of the same concepts are covered in both books, but the major difference is that this book is a

hands-on-training manual to prepare someone to be a coach of small group leaders. My other book *How to be a Great Cell Group Coach* would be a great reference manual to use alongside this book.

The cell system is one of the most effective and time proven ways of growing a church but it requires understanding and systematic implementation. Some pastors have heard about the cell system and really desire to grow their church by it, but they do not fully understand it. Others understand it but have had issues implementing it, so they quit, and there are those who are struggling to make it work but have not given up yet. I wrote this book because of the above issues. Whatever challenge you may have with understanding and implementing the cell system will be addressed. You would also learn about the benefits of the cell system and simple steps you can take to

implement it in your church. This is a very vital book because it will also show you a practical prototype of how you can grow your church from 70 to 400 by an effective cell system.

Building Leaders Touch Outreach Ministries

Home Cell Group Explosion (2023 version) is the most researched and practical book ever written on cell group evangelism! Joel Comiskey traversed the globe to find out why certain churches and small groups are successful in reaching the lost. He found the answers and freely shares them within this volume. If you are a pastor or small group leader, you should devour this book! It will encourage you and give you simple, practical steps for dynamic small group life and growth. My friend Joel

Comiskey is a combination of a local church practitioner and a painstaking scholar. Joel spent hundreds of hours and thousands of dollars visiting eight of the highest-visibility cell group churches to interview their leaders and record his findings. I love this book because it focuses on the multiplication of cells for the greatest evangelistic results.

(C.Peter Wagner, Author, Scholar, and Church Growth Expert) Comiskey does not just describe what is happening in cell churches. He takes the next step and identifies in a step-by-step fashion how we can apply these principles in our churches. It is all here-everything we need to know to start and grow a cell group ministry. I am grateful to Dr. Comiskey, for the time, effort, and research that has gone into producing

this long-needed book. (Richard Peace, Ph.D., Professor of Evangelism and Spiritual Formation, Fuller Theological Seminary) Joel and I shared many days in Bogota as this book was written. His grasp of cell church models is superior to any other person I have worked with: this book is a treasure of information for church planters and pastors wishing to transition to the cell model. (Ralph W. Neighbour, Jr., Author, and Pioneer Church Planter)

The Exchange Dove Christian Fellowship International

With updated data on new cell church models, new information on equipping and harvest events and practical teaching on how to begin a transition, this book will continue to stir hearts to dream about what the church can be.

You will find hope for the church in North America and discover the new things that Dr. Neighbour has learned over the last 10 years.

Passages...through grief Leader's Guide: Healing Life's Losses David C Cook

This book has been completely revised in 2022. Notice what others have said about this book: If your groups need more leaders, this book is for you! Dr. Comiskey demonstrates how effective churches develop leaders. Then he shows you how to do the same by outlining the principles of leadership development that will work in any church. This book will revolutionize your future ministry (C. Peter Wagner Chancellor, Wagner Leadership Institute) Many thanks to Comiskey for a helpful

and practical book. Many church growth strategies work in the short run, but only leadership multiplication creates ongoing kingdom expansion. This book communicates biblical, proven and effective principles. My advice to you: "Eat this book!" Let it shape your heart, your vision and strategy (Jim Egli, Author, Pastor, and TOUCH Trainer) Joel Comiskey shares insights as a leader who has himself raised up numerous leaders. From how to recognize potential leaders to cell leader training to time-tested principles of leadership, this book has it all. The accurate comparisons of various training models make it a great resource for those who desire more leaders. Great book! (Billy Hornsby, National Director, Bethany Cell Church Network) Comiskey provides an inspiring

panoramic view of leadership in this book. The concluding chapters, which outline the guidelines, models and principles for training effective cell group leaders, will prove especially helpful to churches that are seeking to deal with leadership issues (Karen Hurston, Hurston Ministries) Once again, Joel Comiskey has provided a book that answers the questions of those in the cell church movement. I read the manuscript with pen in hand, underlining so many sentences that few were left untouched! This book will be an excellent reference for cell leaders and might well be incorporated into their ongoing training (Ralph W. Neighbour, Jr., Founder, TOUCH Outreach Ministries) Joel has the divine ability to take vital kingdom information compiled from

throughout the body of Christ and boil it down so churches can clearly understand and practically apply these truths. I highly recommend this book for

everyone who is serious about training leaders for the harvest (Larry Kreider, International Director, DOVE Christian Fellowship International)
