 In *Good Bread Is Back*, historian and
 leading French bread expert Steven

Laurence Kaplan takes readers into
 aromatic Parisian bakeries as he explains
 how good bread began to reappear in
 France in the 1990s, following almost a
 century of decline in quality. Kaplan
 describes how, while bread comprised the
 bulk of the French diet during the
 eighteenth century, by the twentieth, per
 capita consumption had dropped off
 precipitously. This was largely due to
 social and economic modernization and
 the availability of a wider choice of foods.
 But part of the problem was that the bread
 did not taste good. In a culture in which
 bread is sacrosanct, bad bread was more
 than a gastronomical disappointment; it
 was a threat to France's sense of itself. By
 the mid-1990s bakers rallied, and bread
 officially designated as "bread of the

French tradition" was in demand
 throughout Paris. Kaplan meticulously
 describes good bread's ideal crust and
 crumb (interior), mouth feel, aroma, and
 taste. He discusses the breadmaking
 process in extraordinary detail, from the
 ingredients to the kneading, shaping, and
 baking, and even the sound bread should
 make when it comes out of the oven.
 Kaplan does more than tell the story of the
 revival of good bread in France. He makes
 the reader see, smell, taste, feel, and even
 hear why it is so very wonderful that good
 bread is back.

Bulletin of the New York Public Library New York : B. Franklin

Louis XIV, regency, rococo, neoclassical, empire, art nouveau, and historicist pastiche: furniture styles march across French history as regimes rise and fall. In this extraordinary social history, Leora Auslander explores the changing meaning of furniture from the mid-seventeenth to the early twentieth century, revealing how the aesthetics of everyday life were as integral to political events as to economic and social transformations. Enriched by Auslander's experience as a cabinetmaker, this work demonstrates how furniture served to represent and even generate its makers' and consumers' identities.
