Lavinia is *The Inhabited Woman*: accomplished, independent, and fiercely modern. The Wisconsin edition is for sale only in North America.

Yokai Attack! North Atlantic Books

After years of activism, risk awareness, and AIDS prevention, increasing numbers of gay men are not using condoms, and new infections of HIV are on the rise. Using case studies and exhaustive survey research, this timely, groundbreaking book allows men who have unprotected sex, a practice now known as "barebacking," to speak for themselves on their willingness to risk it all. *Without Condoms* takes a balanced look at the profound needs that are met by this seemingly reckless behavior, while at the same time exposing the role that both the Internet and club drugs like crystal methamphetamine play in facilitating high-risk sexual encounters. The result is a compassionate, sophisticated and nuanced insight into what for many people is one of the most perplexing aspects of today's gay male culture and life style. Michael Shernoff digs deep and forces us to see that the AIDS epidemic is not over. We must now ask the hard questions and listen to the voices that answer. The stakes are too high to ignore.

"Clear-eyed glimpses of human behavior in the extremities of poverty, stupidity, greed, vanity...

Story-telling of an unconventional sort, with most of the substance beneath the shining, enameled surface." --The New York Times Book Review Widely acknowledged as "the father of the Japanese short story," Ryunosuke Akutagawa remains one of the most influential Japanese writers of all time.

Rashomon and Other Stories, a collection of his most celebrated work, resonates as strongly today as when it first published a century ago. This volume includes: *In a Grove*: An iconic, contradictory tale of the murder of a samurai in a forest near Kyoto told through three varying accounts

Rashomon: A masterless samurai contemplates following a life of crime as he encounters an old woman at the old Rashomon gate outside Kyoto
Yam Gruel: A low-ranking court official laments his position all the while yearning for his favorite, yet humble, dish
The Martyr: Set in Japan's Christian missionary era, a young boy is excommunicated for fathering an illegitimate child, but not all is as it seems
Kesa and Morito: An adulterous couple plots to kill the woman's husband as the situation

threatens to spin out of control
The Dragon: A priest concocts a prank involving a dragon, but the tall tale begins to take on a life of its own
With a new foreward by noted Akutagawa scholar Seiji Lippit, this updated version of a classic collection is a an excellent, readable introduction to Japanese literature.

Yurei Attack! is a nightmare-inducing one-stop guide to Japan's traditional ghosts and spirits.

Surviving encounters with angry ghosts and sexy spectres. Haunted places. Dangerous games and how to play them. And more importantly, a guided tour of what awaits in the world of the dead.

Yurei is the Japanese word for "ghost." It's as simple as that. They are the souls of dead people, unable--or unwilling--to shuffle off this mortal coil. Yurei are many things, but "friendly" isn't the first word that comes to mind. Not every yurei is dangerous, but they are all driven by emotions so uncontrollably powerful that they have taken on a life of their own: rage, sadness, devotion, a desire for revenge, or even the firm belief that they are still alive. This book, the third in the authors' bestselling *Attack!* series, after *Yokai Attack!* and *Ninja Attack!* gives detailed information on 39 of the creepiest yurei stalking Japan, along with detailed histories and defensive tactics should you have the misfortune to encounter one. Japanese ghosts include: *Oiwa*, *The Horror of Yotsuya* *Otsuyu*, *The Tale of the Peony Lantern* *The Lady Rokujo*, *The Tale of Genji Isora*, *Tales of Moonlight and Rain* *Orui*, *The Depths of Kasane* Book 3 of 3 in the *Yokai Attack!* series. Others include *Ninja Attack!* and *Yokai Attack!*.

Throughout his career, Eduardo Galeano has turned our understanding of history and reality on its head. Isabelle Allende said his works "invade the reader's mind, to persuade him or her to surrender to the charm of his writing and power of his idealism." *Mirrors*, Galeano's most ambitious project since *Memory of Fire*, is an unofficial history of the world seen through history's unseen, unheard, and forgotten. As Galeano notes: "Official history has it that Vasco Núde Balboa was the first man to see, from a summit in Panama, the two oceans at once. Were the people who lived there blind??" Recalling the lives of artists, writers, gods, and visionaries, from the Garden of Eden to twenty-first-century New York, of the black slaves who built the White House and the women erased by men's fears, and told in hundreds of kaleidoscopic vignettes, *Mirrors* is a magic mosaic of our humanity.

Nine short stories by the Japanese literary genius provide insights into the struggles and problems of his contemporary countrymen.

Revolt Against the Modern World Simon and Schuster

After being diagnosed with lung cancer, Roy Cady kills the men hired by his loan shark boss to kill him, and flees to Galveston, Texas, with a prostitute and her young sister, where they face more problems.

Japanese Fairy Tales Penguin

This collection of Japanese fairy tales is the outcome of a suggestion made to me indirectly through

a friend by Mr. Andrew Lang. They have been translated from the modern version written by Sadanami Sanjin. These stories are not literal translations, and though the Japanese story and all quaint Japanese expressions have been faithfully preserved, they have been told more with the view to interest young readers of the West than the technical student of folk-lore. Grateful acknowledgment is due to Mr. Y. Yasuoka, Miss Fusa Okamoto, my brother Nobumori Ozaki, Dr. Yoshihiro Takaki, and Miss Kameko Yamao, who have helped me with translations. The story which I have named "The Story of the Man who did not Wish to Die" is taken from a little book written a hundred years ago by one Shinsui Tamenaga. It is named Chosei Furo, or "Longevity." "The Bamboo-cutter and the Moon-child" is taken from the classic "Taketari Monogatari," and is NOT classed by the Japanese among their fairy tales, though it really belongs to this class of literature. The pictures were drawn by Mr. Kakuzo Fujiyama, a Tokio artist. In telling these stories in English I have followed my fancy in adding such touches of local color or description as they seemed to need or as pleased me, and in one or two instances I have gathered in an incident from another version. At all times, among my friends, both young and old, English or American, I have always found eager listeners to the beautiful legends and fairy tales of Japan, and in telling them I have also found that they were still unknown to the vast majority, and this has encouraged me to write them for the children of the West...FROM THE BOOKS.

Cosmos Routledge

"Substantially the book that devotees of the director have been waiting for: a full-length critical work about Ozu's life, career and working methods, buttressed with reproductions of pages from his notebooks and shooting scripts, numerous quotes from co-workers and Japanese critics, a great many stills and an unusually detailed filmography."—Sight and Sound Yasujiro Ozu, the man whom his kinsmen consider the most Japanese for all film directors, had but one major subject, the Japanese family, and but one major theme, its dissolution. The Japanese family in dissolution figures in every one of his fifty-three films. In his later pictures, the whole world exists in one family, the characters are family members rather than members of a society, and the ends of the earth seem no more distant than the outside of the house.

This book reflects cutting-edge science that has only recently become available. It is a comprehensive assortment of new approaches to HIV prevention. It describes a set of prevention strategies that do not solely rely on male condoms, including: the use of HIV antibody testing and 'negotiated safety', abstinence, control of sexually transmitted diseases, treatment advances as prevention, and psychopharmacology to assist with behavior change. It is of interest to HIV prevention scientists, health psychologists, health educators, and public health workers in the communities at risk.
