URIEL AUGUST

Wheeler Publishing, Incorporated

This groundbreaking classic is now available in a special anniversary edition with bonus content. Winner of the Newbery Medal as well as the National Book Award, *HOLES* is a New York Times bestseller and one of the strongest-selling middle-grade books to ever hit shelves! Stanley Yelnats is under a curse. A curse that began with his no-good-dirty-rotten-pig-stealing-great-great-grandfather and has since followed generations of Yelnatses. Now Stanley has been unjustly sent to a boys' detention center, Camp Green Lake, where the boys build character by spending all day, every day digging holes exactly five feet wide and five feet deep. There is no lake at Camp Green Lake. But there are an awful lot of holes. It doesn't take long for Stanley to realize there's more than character improvement going on at Camp Green Lake. The boys are digging holes because the warden is looking for something. But what could be buried under a dried-up lake? Stanley tries to dig up the truth in this inventive and darkly humorous tale of crime and punishment

—and redemption. Special anniversary edition bonus content includes: A New Note From the Author!; "Ten Things You May Not Know About HOLES" by Louis Sachar; and more!

Comprehension Homework Packets Teaching Resources CONQUER COMPREHENSION WORKBOOK 6 is designed for students to practise and work on answering the different types of comprehension questions found in the multiple-choice and open-ended formats. The passages are carefully graded into three levels: Basic, Intermediate, Advanced. The main objective of the Basic level is to lay the foundation to build up a student's confidence in tackling comprehension. In the Intermediate level, the passages encourage higher-level thinking and understanding. The Advanced level challenges a student to think beyond the ideas presented in the passages. The wide variety of themes and genres also serve to widen a student's exposure to the different text types which are currently taught in schools. The different questioning techniques aim to develop a student's comprehension and inference skills. Thinking questions are incorporated to allow a student to exercise his opinions and make his conclusions. A glossary is included after every exercise to help students comprehend the passage better. It also increases a student's vocabulary and will aid in other writing, reading and

comprehension exercises. These varied and useful exercises should give a student greater confidence when doing comprehension tests.

Pathfinder Reading teaches strategies for reading success. This reading series stimulates responsive strategizing in your students. Filled with reading passages of varying difficulty to allow for differentiated instruction, these books are designed to boost students' chances for success on reading tests. Each book is divided into two sections: 1. guided practice lessons with sample exercises and practice passages and questions 2. two practice tests for more extensive practice and assessment purposes In each chapter of the first section, the relevant skills are listed. Students are then presented with concepts related to the targeted skills, followed by detailed, guided instruction to better familiarize themselves with the required skills as well as relevant terminology and representative examples. They are then given four practice passages: Passage 1: about half the length of a typical test passage and a little lower in readability; it will contain a few questions followed by very detailed explanations and instruction. Passage 2: about half the length of a typical test passage and a little lower in readability; will contain a few questions followed by less detailed explanation/instruction. Passage 3: the same length and readability as a typical test passage; the questions will be coupled with brief tips or hints. Passage 4: the same length and reading level as a typical test passage; questions will not have tips or hints. Reading Comprehension A is written at a 3rd grade level, but ungraded for those students working below grade level."

Teachers are constantly seeking ways to improve their teaching and thereby enhance the learning of their students. One method of doing this is to bring critical and creative thinking skills to the forefront of the curriculum. This has been emphasized by the Malaysian Ministry of Education via the KBSM syllabus in order to teach critical and creative thinking by considering the use of programs like Bloom's taxonomy of educational objectives in classroom practice. This study demonstrates how the higher-order skills can be integrated into the secondary school reading curriculum. The main aim of the study is to investigate how teachers design reading comprehension questions (RCQs) and reading comprehension tasks (RCTs) in relation to the demands of higher-order thinking to produce students with critical minds. It focuses primarily on the use of COGAFF taxonomy (a cognitive-affective taxonomy adapted from Bloom's and Krathwohl's) to formulate higher-order reading questions and tasks as a means to develop critical and creative thinking skills. In a pilot study in Britain (with forty Malaysian teachers) and in the main field study in Malaysia, 150 subjects (teachers and student teachers) have yielded about one thousand RCQs and one thousand RCTs. In line with many research findings of question and task design, 91.2% of the RCQs and 83.6% of RCTs produced during the pretest were of low-order types. Subjects attended a workshop emphasizing question and task designing using the COGAFF taxonomy. Dramatically, during the posttest, 74.4% of the RCQs and 80.6% of the RCTs were transformed into higher-order inferential forms. The other major thrust of the study is to demonstrate how higher-order questions can be used to design equally higher-order tasks that can be utilized as a thinking skills approach in the teaching of reading comprehension lessons in secondary schools. Thinking tools and strategies as suggested by Beyer, Guilford, Gardner, and several others and their implications for the teaching of reading comprehension and training of teachers in Malaysia are also discussed.
