## REAGAN STEPHANIE

---

The Politics of Disaster Vintage

Traces how Karl Rove has risen through the Republican party's ranks and is backing GOP candidates through SuperPACs, examining his controversial actions to speculate on his goals for the party and the electoral system.

**Divided We Stand** Penguin

An insider's look at the most controversial U.S. presidential election in modern history, detailing both the hard facts and the roller coaster of human emotions experienced on both sides through every dramatic step of the way.

Boss Rove Simon and Schuster

Hanging chads. Butterfly ballots. Unruly demonstrations across the country. A state capital occupied by the national press corps. For thirty-six excruciating days in late 2000, a nation held its breath while seven men held in their hands the fate of the presidential election in Florida. The events that transpired within the justices' chambers—their arguments, exhortations, and appeals to one another—have remained a mystery . . . until now.

Inside Bush v. Gore presents the unique, candid, and compelling perspective of the Florida Supreme Court Chief Justice who stood at the center of the storm.

Breaking the Deadlock Penguin

Inside Bush v. Gore University Press of Florida

What Happened Univ of California Press

"... what really happened in the 'post-election' of 2000."--Dust jacket.

First Son Yale University Press

NATIONAL BESTSELLER • In these coolly observant essays, the iconic bestselling writer looks at the American political process and at "that handful of insiders who invent, year in and year out, the narrative of public life." Through the deconstruction of the sound bites and photo ops of three presidential campaigns, one presidential impeachment, and an unforgettable sex scandal, Didion reveals the mechanics of American politics. She tells us the uncomfortable truth about the way we vote, the candidates we vote for, and the people who tell us to vote for them. These pieces build, one on the other, into a disturbing portrait of the American political landscape, providing essential reading on our democracy.

**Election Meltdown** Crown/Archetype

The verdicts have made headlines, but little is known about the inner workings of the court in which they were delivered. In *Fifty Years of Justice*, James Denham presents the fascinating history of the U.S. Middle District Court of Florida from its founding in 1962 to the present. Readers will discover the intricacies of rulings, the criminal defendants and civil litigants, and the dedicated officials—the unsung heroes—who keep the justice system running day to day. From desegregation to discrimination, espionage to the environment, trafficking to terrorism, and a host of cases in between, litigation in these courtrooms has shaped and shaken both state and nation.

**Tension City** University Press of Florida

The 2000 Presidential election ended in a collision of history, law, and the courts. It produced a deadlock that dragged out the result for over a month, and consequences—real and imagined—that promise to drag on for years. In the first in-depth study of the election and its litigious aftermath, Judge Posner surveys the history and theory of American electoral law and practice, analyzes which Presidential candidate "really" won the popular vote in Florida, surveys the litigation that ensued, evaluates the courts, the lawyers, and the commentators, and ends with a blueprint for reforming our Presidential electoral practices. The book starts with an overview of the electoral process, including its history and guiding theories. It looks next at the Florida election itself, exploring which candidate "really" won and whether this is even a meaningful question. The focus then shifts to the complex litigation, both state and federal, provoked by the photo finish. On the basis of the pragmatic jurisprudence that Judge Posner has articulated and defended in his previous writings, this book offers an alternative justification for the Supreme Court's decision in *Bush v. Gore* while praising the Court for averting the chaotic consequences of an unresolved deadlock. Posner also evaluates the performance of the lawyers who conducted the post-election litigation and of the academics who commented on the unfolding drama. He argues that neither Gore's nor Bush's lawyers blundered seriously, but that the reaction of the legal professoriat to the litigation exposed serious flaws in the academic practice of constitutional law. While rejecting such radical moves as abolishing the Electoral College or creating a national ballot, Posner concludes with a detailed plan of feasible reforms designed to avoid a repetition of the 2000 election fiasco. Lawyers, political scientists, pundits, and politicians are waiting to hear what Judge Posner has to say. But this book is written for and will be welcomed by all who were riveted by the recent crisis of presidential succession.

**Stealing Elections** Crown

In 2000, just a few hundred votes out of millions cast in the state of Florida separated Republican presidential candidate George W. Bush from his Democratic opponent, Al Gore. The outcome of the election rested on Florida's 25 electoral votes, and legal wrangling continued for 36 days. Then, abruptly, one of the most controversial Supreme Court decisions in U.S. history, *Bush v. Gore*, cut short the battle. Since the Florida debacle we have witnessed a partisan war over election rules. Election litigation has skyrocketed, and election time brings out inevitable accusations by political partisans of voter fraud and voter suppression. These allegations have shaken public confidence, as campaigns deploy "armies of lawyers" and the partisan press revs up when elections are expected to be close and the stakes are high.

**Fifty Years of Justice** Psychology Press

"In his beautifully crafted and rigorously reported volume, Andrew Rice takes readers back to Florida in 2000, laying out a cultural and political history of a moment at which America's political system was turned inside out, its power structures

upended. *The Year That Broke America* is vivid and wide-ranging; it also happens to be a page turner."—Rebecca Traister, bestselling author of *Good and Mad* "Engrossing, insightful, tragic and above all, irresistible."—Ronald Brownstein Combining the compelling insight of *Nixonland* and the narrative verve of *Ladies and Gentleman: The Bronx is Burning*, a journalist's definitive cultural and political history of the fatefully important moment when American politics and culture turned: the year 2000. Before there was Coronavirus, before there was the contentious 2020 election or the entire Trump presidency, there was a turning-point year that proved momentous and transformative for American politics and the fate of the nation. That year was 2000, the last year of America's unchallenged geopolitical dominance, the year Mark Burnett created *Survivor* and a new form of celebrity, the year a little Cuban immigrant became the focus of a media circus, the year Donald Trump flirted with running for President (and failed miserably), the year a group of Al Qaeda operatives traveled to America to learn to fly planes. They all converged in Florida, where that fall, the most important presidential election in generations was decided by the slimmest margin imaginable. But the year 2000 was also the moment when the authority of the political system was undermined by technical malfunctions; when the legal system was compromised by the justices of the Supreme Court; when the financial system was devalued by deregulation, speculation, creative securitization, and scam artistry; when the mainstream news media was destabilized by the propaganda power of Fox News and the supercharged speed of the internet; when the power of tastemakers, gatekeepers, and cultural elites was diminished by a dawning recognition of its irrelevance. Expertly synthesizing many hours of interviews, court records, FOIA requests, and original archival research, Andrew Rice marshals an impressive cast of dupes, schmucks, superstars, politicians, and shameless scoundrels in telling the fascinating story of this portentous year that marked a cultural watershed. Back at the start of the new millennium it was easy to laugh and roll our eyes about the crazy events in Florida in the year 2000—but what happened then and there has determined where we are and who we've become.

**The Red and the Blue** Springer

John Fund explores the real divide the country faces with the looming election. Through wary thoughts on voting integrity, he shows how elections can be decided by the votes of dead people, illegal felon voters, and absentee voters that simply don't exist. If nothing is done to address the growing cynicism about vote counting, rest assured that another close presidential election that descends into bitter partisan wrangling is just around the corner.

**The Miami Herald Report** Princeton University Press

"Palast is astonishing, he gets the real evidence no one else has the guts to dig up." Vincent Bugliosi, author of *None Dare Call it Treason* and Helter Skelter Award-winning investigative journalist Greg Palast digs deep to unearth the ugly facts that few reporters working anywhere in the world today have the courage or ability to cover. From East Timor to Waco, he has exposed some of the most egregious cases of political corruption, corporate fraud, and financial manipulation in the US and abroad. His uncanny investigative skills as well as his no-holds-barred style have made him an anathema among magnates on four continents and a living legend among his colleagues and his devoted readership. This exciting collection, now revised and updated, brings together some of Palast's most powerful writing of the past decade. Included here are his celebrated Washington Post exposé on Jeb Bush and Katherine Harris's stealing of the presidential election in Florida, and recent stories on George W. Bush's payoffs to corporate cronies, the payola behind Hillary Clinton, and the faux

energy crisis. Also included in this volume are new and previously unpublished material, television transcripts, photographs, and letters.

*Political Fictions* HarperCollins

From MSNBC correspondent Steve Kornacki, a lively and sweeping history of the birth of political tribalism in the 1990s—one that brings critical new understanding to our current political landscape from Clinton to Trump In *The Red and the Blue*, cable news star and acclaimed journalist Steve Kornacki follows the twin paths of Bill Clinton and Newt Gingrich, two larger-than-life politicians who exploited the weakened structure of their respective parties to attain the highest offices. For Clinton, that meant contorting himself around the various factions of the Democratic party to win the presidency. Gingrich employed a scorched-earth strategy to upend the permanent Republican minority in the House, making him Speaker. The Clinton/Gingrich battles were bare-knuckled brawls that brought about massive policy shifts and high-stakes showdowns—their collisions had far-reaching political consequences. But the '90s were not just about them. Kornacki writes about Mario Cuomo's stubborn presence around Clinton's 1992 campaign; Hillary Clinton's star turn during the 1998 midterms, seeding the idea for her own candidacy; Ross Perot's wild run in 1992 that inspired him to launch the Reform Party, giving Donald Trump his first taste of electoral politics in 1999; and many others. With novelistic prose and a clear sense of history, Steve Kornacki masterfully weaves together the various elements of this rambunctious and hugely impactful era in American history, whose effects set the stage for our current political landscape. Yale University Press

The contributors to this volume were highly visible in the national media while the controversy raged, and here they present fully fleshed-out arguments for the positions they promoted on the airwaves. Readers should find in "The Vote" equally impassioned defences for and indictments of the Court's actions, and they should come to understand the practical and theoretical implications of the Court's ruling in the realms of both law and politics. No doubt a spate of books will appear on the 2000 presidential election, but none will claim as distinguished a roster of contributors better qualified to place these recent events in their appropriate historical, legal and political contexts.

**Winning Florida** Random House Incorporated

From the nation's leading expert, an indispensable analysis of key threats to the integrity of the 2020 American presidential election As the 2020 presidential campaign begins to take shape, there is widespread distrust of the fairness and accuracy of American elections. In this timely and accessible book, Richard L. Hasen uses riveting stories illustrating four factors increasing the mistrust. Voter suppression has escalated as a Republican tool aimed to depress turnout of likely Democratic voters, fueling suspicion. Pockets of incompetence in election administration, often in large cities controlled by Democrats, have created an opening to claims of unfairness. Old-fashioned and new-fangled dirty tricks, including foreign and domestic misinformation campaigns via social media, threaten electoral integrity. Inflammatory rhetoric about "stolen" elections supercharges distrust among hardcore partisans. Taking into account how each of these threats has manifested in recent years—most notably in the 2016 and 2018 elections—Hasen offers concrete steps that need to be taken to restore trust in American elections before the democratic process is completely undermined.

*Oh, Waiter! One Order of Crow!* Nation Books

Millions of Americans were baffled and outraged by the U.S. Supreme Court's role in deciding the presidential election of 2000 with its controversial ruling in *Bush v. Gore*. The Court had held a

unique place in our system of checks and balances, seen as the embodiment of fairness and principle precisely because it was perceived to be above the political fray. How could it now issue a decision that reeked of partisan politics, and send to the White House a candidate who may have actually lost the election? In *Supreme Injustice*, best-selling author and legal expert Alan M. Dershowitz addresses these questions head-on, at last demystifying *Bush v. Gore* for those who are still angered by the court's decision but unclear about its meaning. Dershowitz—himself a former Supreme Court clerk—argues that in this case for the first time, the court's majority let its desire for a particular partisan outcome have priority over legal principles. As in his other bestselling books, Dershowitz clarifies complex legal issues, explaining concepts such as "equal protection" and "irreparable harm." Digging deeply into their earlier writings and rulings, Dershowitz proves beyond a reasonable doubt that the justices who gave George W. Bush the presidency contradicted their previous positions to do so. The most egregious ruling since the *Dred Scott* Decision, *Bush v. Gore* has shattered the image of the Supreme Court as a fair and impartial arbiter of important national issues. The resulting loss of the American people's respect, Dershowitz concludes, has severely compromised the Court's role in national affairs. And yet Dershowitz sees some benefit emerging from this constitutional crisis—if we understand its lessons and take action to prevent it from happening again. *Deadlock The Inside Story Of America's Closest Election* Nation Books

This is the inside story of how Jeb Bush persuaded the Fox network to call the presidential election for his brother George W. Bush on Election Night 2000. It was one phone call to Fox — the details of which are revealed in this book for the first time — that propelled George W. Bush into leading position for 43rd president of the United States. Even though the erroneous statement had to be retracted within two hours, the damage done by this false call to Al Gore's chances of winning the election were incalculable. David Moore, at the time senior editor for the Gallup Poll, makes the plausible and alarming case that, had Fox not made this miscall, the resulting political environment would have been less biased in favor of Bush, and that Al Gore could have won. On Election Night in 2000, Moore was with the exit poll "decision team" of CBS and CNN, taking notes on how election races were called, and miscalled, around the country — including the two miscalls and two rescissions in Florida. Prior to joining Gallup in 1993, Moore was founder and director of the Survey Center at the University of New Hampshire.

*I Alone Can Fix It* Simon and Schuster

What's the real story behind the 2000 presidential election fiasco? *Hanging Chads* presents candid and insightful interviews with key figures in the post-election recount in Florida, which decided whether Al Gore or George W. Bush would win the closest presidential contest ever. The book features an introduction that clearly explains the often complex and convoluted legal manoeuvring that occurred during those tense thirty-six days of the recount, a timeline laying out the sequence of events, a cast of characters that identifies the key players on both sides, and a glossary of the court cases and legal terminology that came into play. Pleasant interviews the two main Florida lawyers, Dexter Douglass for Gore and Barry Richard for Bush, and discusses the decision-making process with three judges involved in key cases. The book includes the viewpoint of the press and key political players like Tom Feeney, the Florida legislature's Speaker of the House, and Mac Stipanovich, a key political advisor to Katherine Harris. In addition, Palm Beach County Supervisor of Elections Theresa LePore explains why she chose the infamous butterfly ballot that sent the whole process

into motion. Providing a unique and balanced insiders' view of one of the most important events in recent history, *Hanging Chads* is a must-have for students and historians of American politics.

*Too Close to Call* Inside Bush v. Gore

A prize-winning *Washington Post* reporter tells the story of the Florida Everglades, from its beginnings as 4,500 off-putting square miles of natural liquid wasteland to the ecological mess it

has become. Photos.

**The Most Dangerous Branch** HarperCollins

The executive editor and anchor of PBS's *NewsHour* presents a lively analysis of political debates from the last two decades through the preparations, executions and mistakes of recent moderators and participants, offering insight into specific high-profile events and decisions.
