 The traits that characterize the "language" of French Symbolism are the center of these essays. In interpreting major or previously neglected compositions by Mallarmé, Verlaine, Rimbaud, Claudel, Valéry, and Apollinaire, the author shows how each of these poets worked with the elements that distinguish this influential group of writers as a whole. Originally published in 1969. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Published in 1950: The Pensées is a collection of philosophical fragments, notes and essays in which Pascal explores the contradictions of human nature in psychological, social, metaphysical and - above all - theological terms. Mankind emerges from Pascal's analysis as a wretched and desolate creature within an impersonal universe, but who can be transformed through faith in God's grace.

Pascal's Pensées Albin Michel

The process of Globalisation has subjected cultures, religions and societies or communities of the world to fundamental changes, which are primarily characterised and conditioned by new communication technologies, migration, worldwide exchange of goods and capital. This

development has led to the rise of plural societies, which not only mean chances and opportunities but also a potential of threat for the future of humanity. Subsequent to this development this international conference addresses the question of how living together in a global age could succeed and be fruitful. Im Zuge des Globalisierungsprozesses befinden sich alle Kulturen, Religionen und damit alle Gesellschaften der Welt in einem grundlegenden Wandel, der vor allem durch neue Kommunikationstechnologien, Migration, weltweiten Austausch von Kapital und Gütern bedingt ist. Diese Entwicklung hat zur Entstehung pluraler Gesellschaften geführt, die nicht nur eine Chance, sondern auch ein Bedrohungspotenzial für die Zukunft der Menschheit bedeutet. Vor diesem Hintergrund stellt sich für die Tagung die Frage, wie ein Zusammenleben der Menschen in einer zunehmend multireligiösen und multikulturellen Welt gelingen kann
