### Le Sacre Du Printemps

Medieval Institute  
Publications

As parents, we deeply desire the best for our kids. We look for the right preschool, teach them to read, and get them involved in extracurriculars. We take our job as parents seriously. But are we also putting our time and energy into teaching them the Bible? Leading our kids to life through Scripture is not only doable, it's an essential part of parenting kids for Jesus. And the good news is studying God's Word as a family doesn't have to be hard or overly time-consuming. This book will give you the tools and confidence to study the Bible as a family. It will help you identify and overcome your objections and fears, give you a crash course in what the Bible is all about and how to teach it, and provide the tools and techniques to set up a family Bible-study habit. You will finish this book feeling encouraged and empowered to initiate and strengthen your child's

relationship with the Lord through his Word.

The crafts in this book coordinate with each lesson in the Noah's Park Leader's Guide. Each craft activity is designed to help reinforce the Bible story the children have heard and participated in during the lesson. The craft is also designed to help the children and their parents extend the learning even further by linking it to activities they can do at home during the following week. Each craft activity in the book has a list of supplies which should be obtained prior to the session.

The great corpus that is medieval literature contains, at its very center, the tale. These verse and prose fictional narratives, as well as stories that are grounded in some degree of historical truth, are the foundation of what readers, scholars, and enthusiasts often point to as signifiers of the medieval age. These tales - from the skillfully crafted to the more rudimentary and plain - often make familiar to modern readers what seems so distant and foreign about

the Middle Ages. This volume of essays focuses on the tale and its ability to create "mirth," what modern audiences would often define as "happiness" or "joy," and the significance that the book has had on the transference of this mirth to audiences. This volume also celebrates the scholarship of Thomas H. Ohlgren, a medievalist whose work encompasses a number of different areas, but at its center lives the power of the tale and its ability to create a lasting impression on readers, both medieval and modern.

**The Beginning of the Book of Genesis [chap. I-IV. 18]. With Notes and Reflections. By the Rev. Isaac Williams**

Zondervan

The style of the Hebrew Bible has long been of significant interest to scholars and exegetes alike. Early Jewish and later Christian commentaries point out the importance of the exact wording in interpreting the text, and many an article has been written on features such as repetition and inclusio. With the rise of literary and narrative criticism in biblical studies, these

features have received even more attention. The current book stands in the tradition of Robert Alter in that it focuses on how the text of Genesis is written and phrased. More explicitly, it is interested in why Genesis is formulated the way it is and how this affects the reader in his/her encounter with the text. *Doubling and Duplicating* is not only concerned with a style-as-analysis frame for interpreters but also with its role as a guide for any audience and its gateway to the ancient mind-set (ideological, ontological, and so on). All of the contributors to this collected volume focus on the form of the book of Genesis—that is, on its use of language and formulation. Yet, each author does this in his/her own way, depending on the most fitting tool for the specific research question or based on the researcher's methodological background. Thus, the essays represent the various approaches in current literary and stylistic criticism as applied to the biblical corpus. Furthermore, the recurring duality of the features discussed in each of the contributions adds to the overall unity of the

volume. This recurrence suggests the presence of a stylistic feature in the book of Genesis, the feature of doubling and duplicating, that surpasses the other features of the individual units or stories. This book offers insights about meaning-making on both the micro- and the macro-text levels.

Joseph Exalted Over All Egypt (Genesis 41) *Bible Stories & Crafts: Old Testament Createspace Independent Publishing Platform* We are, each one of us, situated in a particular place. As embodied creatures, as members of local communities and churches, as people who live in a specific location in the world, we all experience the importance of place. But what role does place play

in the Christian life and how might our theology of place be cultivated? In this *Studies in Theology and the Arts* volume, Jennifer Allen Craft argues that the arts are a significant form of placemaking in the Christian life. The arts, she contends, place us in time, space, and community in ways that encourage us to be fully and imaginatively present in a variety of contexts: the natural world, our homes, our worshiping communities, and society. In so doing, the arts call us to pay attention to the world around us and invite us to engage in responsible practices in those places. Through this practical theology of the arts, Craft shows how the arts can help us by cultivating our theological imagination, giving shape to the Christian life, and forming us more and more into the image of Christ. The *Studies in Theology and the Arts* series encourages Christians to thoughtfully engage with the relationship between their faith and artistic expression, with contributions from both theologians and artists on a range of artistic media including visual art, music, poetry, literature,

film, and more.
