Russian Handwriting in One Go

Learning Russian handwriting is no walk in the park - but a wonderful tour through a snow-covered landscape full of charming characters! Already learned the Russian alphabet in block letters and eager to master Russian cursive? Join me through the pages of this book on a guided tour of how to write cursive in Russian. You will come across countless words to practice with, all of which are accompanied by English translations and handy pronunciation tips. And there is no shortage of opportunities for you to monitor your progress along

the way. Just remember to keep your eyes peeled for the fir trees that will help you keep your bearings, hold on to your musketeer's hat when you get on your sled and make sure you are properly warmed up before you tackle the tricky but tremendously fun mogul piste. By the end of your tour, you will be well acquainted with the quirky but lovable characters that inhabit the glistening, wintry landscape of Russian handwriting. What's more, you will have taken your language skills to the next level by learning how to read and write Russian cursive. A short book video trailer is available on the Amazon author page (video 3).
