Immigration in Post-War France (1987)
presents a collection of articles,
illustrations and other data, covering
everything from politics and education to
religion and rock music, that examine the
experience of North African immigrants to
France. The extensive selection of
documents include opinion polls,

newspaper articles, academic analyses,
cartoons, political posters, maps, tables
and photographs. Together, they reflect
the views of a wide cross-section of the
French and immigrant communities.

These reports are the result of a collection
of statistics of marriage and divorce for
the years 1922- They represent the fourth-
investigation on the subject made by the
federal government. The first
investigation, made by the former
Department of Labor, covered the 20-year
period 1867-1886; the second

investigation made by the Bureau of the
Census, covered the 20-year period
1887-1906; and the third investigation,
also made by the Bureau of the Census,
covered the calendar year 1916 cf. 1922,

Soul Survivor explores the depths of
human emotions, both real and imagined.
That any I of us reach adulthood in one
piece, emotionally or physically is a
miracle of no small proportion. That any of
us reach adulthood to contribute back to
society and become highly respected in

the community is truly a gift of time and place. *Soul Survivor* is a true story of fortitude, and iron will and looking to the future in the hope that tomorrow will be better than today. *Soul Survivor* is nothing less than a story of triumph. "Little Mary" Reese spent her childhood living, working and playing in a funeral home. Her mother, Mrs. Mary ("Big Mary") Reese, was well known and respected in the African-American community in Los Angeles through the operation of a prestigious black funeral home. Little Mary's story tells what really happens behind the embalming room doors- the light and dark side of life. *Soul Survivor* is both humorous and mischievous, and talks of sex, murder, voodoo, preachers and deviate gravediggers. Famous entertainers that passed through Little Mary's life include Redd Foxx, Lou Rawls, Sam Cooke, Billy Preston and Johnny Cochran. Little Mary was born in 1944 in the South, reared in the Southwest and was often disparagingly referred to as "high-yellow." During racial tensions of the '50s and '60s, Little Mary found her hue to be a major issue but not her only problem. Mary's mother caused her to endure life

threatening situations due to her drinking and wild ways. Little Mary's childhood experiences, the mental and physical abuse faced each day, led her to believe that her only true friends were the dead people in the funeral home. Indeed, Little Mary received a BS degree (Be Smart) at an early age. It was the only way she knew to survive. Little Mary's story is and unlikely but revealing peek into the unexpected and in the end, truly a story of a *Soul Survivor*.

In this introduction to commutative algebra, the author choses a route that leads the reader through the essential ideas, without getting embroiled in technicalities. He takes the reader quickly to the fundamentals of complex projective geometry, requiring only a basic knowledge of linear and multilinear algebra and some elementary group theory. The author divides the book into three parts. In the first, he develops the general theory of noetherian rings and modules. He includes a certain amount of homological algebra, and he emphasizes rings and modules of fractions as preparation for working with sheaves. In

the second part, he discusses polynomial rings in several variables with coefficients in the field of complex numbers. After Noether's normalization lemma and Hilbert's Nullstellensatz, the author introduces affine complex schemes and their morphisms; he then proves Zariski's main theorem and Chevalley's semi-continuity theorem. Finally, the author's detailed study of Weil and Cartier divisors provides a solid background for modern intersection theory. This is an excellent textbook for those who seek an efficient and rapid introduction to the geometric applications of commutative algebra.

The French pursued victory and colonisation amid a Roman landscape little affected down the centuries by local inhabitants. In the space of two generations they destroyed much of it, re-using its materials to create security and a modern prosperity.

Walter Scott (1771-1832) was a Scottish historical novelist, poet, and playwright. Although he was an advocate and legal administrator by profession, Scott is most famous for his great literary works and

activities in the Royal Highland Society. As the title suggests, "Life of Napoleon" is a monumental biographical work representing the study of France during the Napoleonic Era. In an attempt to convey an accurate picture of events, Sir Walter Scott visited the Waterloo, and also interviewed officers engaged in the battle. The book is also based on The British governments to archives dealing with Napoleon's exile in St. Helena.
