Japan by Rail History Press

Night trains have long fascinated us with the possibilities of their private sleeping compartments, gilded dining cars, champagne bars and wealthy travellers. Authors from Agatha Christie to Graham

Greene have used night trains to tell tales of romance, intrigue and decadence against a rolling background of dramatic landscapes. The reality could often be as thrilling: early British travellers on the Orient Express were advised to carry a revolver (as well as a teapot). In *Night Trains*, Andrew Martin attempts to relive the golden age of the great European sleeper trains by using their modern-day equivalents. This is no simple matter. The night trains have fallen on hard times, and the services are disappearing one by one. But if the Orient Express experience can only be recreated by taking three separate sleepers, the intriguing characters and exotic atmospheres have survived. Whether the backdrop is 3am at a Turkish customs post, the sun rising over

the Riviera, or the constant twilight of a Norwegian summer night, Martin rediscovers the pleasures of a continent connected by rail. By tracing the history of the sleeper trains, he reveals much of the recent history of Europe itself. The original sleepers helped break down national barriers and unify the continent. Martin uncovers modern instances of European unity - and otherwise - as he traverses the continent during 'interesting times', with Brexit looming. Against this tumultuous backdrop, he experiences his own smaller dramas, as he fails to find crucial connecting stations, ponders the mystery of the compartment dog, and becomes embroiled in his very own night train whodunit.

The acclaimed travel writer journeys by train across the Americas from Boston to Patagonia in this international

bestselling travel memoir. Starting with a rush-hour subway ride to South Station in Boston to catch the Lake Shore Limited to Chicago, Paul Theroux takes a grand railway adventure first across the United States and then south through Mexico, Central America, and across the Andes until he winds up on the meandering Old Patagonian Express steam engine. His epic commute finally comes to a halt in a desolate land of cracked hills and thorn bushes that reaches toward Antarctica. Along the way, Theroux demonstrates how train travel can reveal “the social miseries and scenic splendors” of a continent. And through his perceptive prose we learn that what matters most are the people he meets along the way, including the monologuing Mr.

Thornberry in Costa Rica, the bogus priest of Cali, and the blind Jorge Luis Borges, who delights in having Theroux read Robert Louis Stevenson to him. *Europe by Rail* Penguin Group Australia Whether you are making a long grand tour or just a short break, *Europe by Rail* is the perfect guide.
