An enhanced read-along audio ebook from Ladybird. Based on the classic fairy tale. While the three bears are out for a walk, naughty little Goldilocks comes calling and tries out their porridge, chairs and beds to see which are just right. But then the three bears come home... Read it yourself with Ladybird is one of Ladybird's best-selling series. For over thirty five years it has helped young children who are learning to read develop and improve their reading skills. Now, for the first time, each title is also available as an ebook with synched audio. Each Read it yourself book is very carefully written to include many key, high-frequency words that are vital for learning to read, as well as a limited number of story words that are introduced and practised throughout. Simple sentences and frequently repeated words help to build the confidence of beginner readers and the four different levels of books support children all the way from very first reading practice through

to independent, fluent reading. Each book has been carefully checked by educational consultants and can be read independently at home or used in a guided reading session at school. Goldilocks and the Three Bears is a Level 1 Read it yourself title, suitable for very early readers who have had some initial reading instruction and are ready to take their first steps in reading real stories. Each story is told very simply, using a small number of frequently repeated words.

When President Barack Obama nominated Sonia Sotomayor to the Supreme Court of the United States, the country celebrated. Not only would the Supreme Court welcome its third woman justice but also its first Hispanic member. Many Americans saw the appointment of the first Hispanic justice as an important step in the civil rights movement.

**Secrets to Success for Social Studies Teachers** Nova Publishers

School improvement is at the centre of educational reform and is perceived by many as a key to social and economic advance. It contributes to determining the personal fulfilment and career

paths of individual students and consequently engages the interest of parents and community members. It is an ever-present commitment of teachers and managers in schools. Policy makers and politicians at international, national and local levels devote much time and effort to their search for better schools. School improvement has also attracted the attention of researchers and scholars in many countries. They have been drawn from various disciplines and fields within the educational studies community, including psychology, sociology, history, evaluation, and studies in curriculum and assessment. There is now an established body of findings from studies conducted in many contexts. This book brings together leading experts drawn from many countries and several continents, reflecting diverse approaches to educational policy and practice, evaluation and research. Variations between countries and between local communities within countries are highlighted. The possibilities and difficulties inherent in transferring evidence from one educational system, at a number of levels, to another are clearly discussed. What emerges from the cross-national and cross-cultural evidence are several significant threads, currently under active investigation, including: school structure and management, classroom organisation, school leadership, teacher training and staff development, curriculum and assessment, community

involvement, lifelong learning and special provision for students with special educational needs. "School Improvement: International Perspectives" is written for national educational policy makers, teachers and student teachers, governing bodies and parents from various levels of schooling, and university researchers and scholars.

Kids will love exploring the justice system with the fun characters and stories found in *More Jury Trials in the Classroom*, the long-awaited companion book to the best-selling *Jury Trials in the Classroom*. Four new trial simulations are introduced, including a modern-day version of the tortoise and the hare story and a reenactment of a trial featuring Susan B. Anthony. The simulations in this book let students delve into criminal and civil law with motivating cases that mirror situations in history, folklore, and literature. In the roles of attorneys, members of the jury, defendants, witnesses, and courtroom personnel, students prepare and conduct cases. They also will learn to use statements of fact and witness affidavits to determine guilt or innocence.

The Broadway musical came of age in the 1950s, a period in which some of the greatest productions made their debuts. Shows produced on Broadway during this decade include such classics as *Damn Yankees*, *Fiorello!*, *Guys and Dolls*, *The King and I*, *Kismet*, *The Most Happy Fella*, *My Fair Lady*, *The Pajama Game*, *Peter Pan*, *The Sound of Music*, and *West Side Story*. Among the performers who made their marks were Julie Andrews, Bob Fosse, Carol Lawrence, and Gwen Verdon, while other talents who contributed to shows include Leonard Bernstein, Oscar Hammerstein II, Alan Jay Lerner, Frederick Loewe, Cole Porter, Jerome Robbins, Richard Rodgers, and Stephen Sondheim. In *The Complete Book of 1950s Broadway Musicals*, Dan Dietz examines in detail every musical and revue which opened on Broadway during the 1950s. In addition to providing details on every hit and flop that debuted during the decade, this book includes revivals, and one-man and one-woman shows. Each entry contains the following information: Opening and closing dates Plot summary Cast members Number of performances Names of all important personnel including writers, composers, directors, choreographers, producers, and musical directors Musical numbers and the names of performers who introduced the songs Production data, including information about tryouts Source material Critical commentary Tony awards and nominations Details about London and other foreign productions Besides separate entries for each production, the book offers numerous appendices, such as a discography, film and television versions, published scripts, Gilbert and Sullivan operettas, and lists of productions by the New York City Center Light Opera Company, and the New York City Opera Company. A treasure trove of information, *The Complete Book of 1950s Broadway Musicals* provides readers with a complete view of each show. This significant resource will be of use to scholars, historians, and casual fans of one of the greatest decades in musical theatre history.

**Little Storytellers: Goldilocks and the Three Bears** Rowman & Littlefield

The angry grizzly and the cuddly teddy: few animals possess such a range of personas as the bear. Here, Robert Bieder surveys the wealth of imagery, myths, and stories that surrounds the bear. Beginning with the dawn bear, the small dog-sized ancestor of all bears who hails from 25 million years ago, Bieder embarks on a fascinating exploration of the evolutionary history of the bear family, from extinct species such as the cave bear and giant short-faced bear to the mere eight species that survive today. Bear draws on cultural material from around the world to examine the various legends and myths surrounding the bear, including ceremonies and taboos that govern the hunting, killing, and eating of bears. The book also looks at the role of bears in modern culture as the subjects of stories, songs, and films; as exhibited objects in circuses and zoos; and, perhaps most famously, as toys. Bieder also considers the precarious future of the bear as it is threatened by loss of habitat, poaching, global warming, and disease and discusses the impact of human behavior on bears and their environments. Accompanied by numerous vibrant photographs and illustrations, and written in an engaging fashion, *Bear* is an appealing and informative volume for anyone who has curled up with Winnie-the-Pooh or marveled at this powerful king of the forest.

There has been a dearth of books covering themes and issues related to university-school partnerships and school development from an international perspective, particularly providing examples on university-school partnerships in the Asia-Pacific region. The book is broadly divided into two parts. Part One focuses on university-school partnership while Part Two highlights changes in school development. The nature of different partnerships, as well as the experiences of and research on school development in connection with individual strategies and organizational strategies are described. The contributors are all renowned scholars, school reformers, and experienced practitioners from the United States, Norway, Sweden, the United Kingdom, Australia, and Hong Kong. Together they provide an international perspective on the issues related to school partnerships and development.
