Little ones will learn to count with this Baby Steps abacus book that comes with secure, movable beads that slide across the pages! Baby Steps is a well-established, popular series of titles which features the bright and engaging artwork of Katie Saunders. COUNTING FUN! introduces the early learning concept of counting, with the aid of bright, tactile abacus beads. Simple text on each page prompts little ones to move the number of beads that corresponds to that page. This is an interactive treat that babies will love!

[Abacus Year 2 Workbook 1](#) Ginn

This kit contains 16 each of Number Workbook 1, Number Workbook 2, Number Workbook 3 and Shape, Space and Measures Workbook; 8 copies of Homework Book and 4 copies of Number Textbook.

Abacus Mind Math Instruction Book Level 1 Heinemann

Educational Books - Primary Division

Abacus Mind Math Instruction Book Level 1 (for teachers and parents): Goal for Level - 1 Addition - without carryover problems Subtraction - without borrowing problems Topics covered: Basics of abacus How to do mind math How to do dictation 5 exchange concepts explained in detail with examples Skill building activities explained Instruction book includes: Examples for each concept with detailed pictures and steps by step instruction on how to calculate and what to tell your students while teaching. Theory behind the formulas explained in simple terms. Over 380 sample problems for teachers and parents to practice the concepts.

These sample problems can be used to introduce your child to the concept with effortless ease. Instruction on how to effectively introduce children to mind math with ways to build the skill.

Dictation - a very important aspect of abacus training is explained with useful ideas to achieve. Skill building activities are explained that help you train your child. Common mistakes made by students with ways to help them avoid making these mistakes are outlined. Corresponding practice work for children is given in the two workbooks that are sold separately under the following titles. " Abacus Mind Math Level 1 Workbook 1: Excel at Mind Math with Soroban, a Japanese Abacus Abacus Mind Math Level 1 Workbook 2: Excel at Mind Math with Soroban, a Japanese Abacus " Soroban, the Japanese abacus is a very useful visual tool that helps children 'see' numbers as beads while calculating. Soroban perfectly fits with the base 10 number system used at present and provides a systematic method (formulas) to follow while calculating both on the tool and in the mind. Mastering of this tool will enhance your child's basic math comprehension, speed and accuracy. In general, when children practice mind math, they get a very important sense of achievement that helps raise their confidence as students. You can also see an improvement in their concentration, tenacity, memory power and listening skills.

Abacus Evolve Y2/P3 Ginn

Abacus is a unique maths toolkit for inspiring a love of maths and ensuring progression for every child. Written by an expert author team, it has been carefully crafted on a robust approach to creating inspired and confident young mathematicians. Year 2 Mastery Checkpoints 39 short activities, to be used throughout the school year Designed to help you check mastery of key concepts straight after teaching, enabling quick intervention for those children who need it 'Have you mastered...?' questions aim to assess mastery of the relevant outcome 'Champions' Challenge' questions aim to assess whether some children have achieved mastery with greater depth 'My Learning' pages provide opportunities for children to reflect on their learning

Abacus Year 4 Number Textbook 2 Malta Ginn
