Evening Plays, three new dramas by award-winning playwright Richard Maxwell are a response to Dante's Divine Comedy. The Evening centers around three archetypal barflies who together form an

elegy of universal loss. The loss of a loved one seeps poignantly into his illustration of the stark reality and emotional tumult of coping with death. Samara is a mythic tale of redemption that follows a messenger through a bleak frontier in his quest to collect a debt, though the human cost of the journey may be more than he bargained for. And Paradiso, which takes place in the not-too distant future, describes three great loves: family, country and God.

Stanislavski was the first person to develop a cogent and practical system of acting. Throughout his life he sought the answers to such fundamental questions as: "What is great acting?" and "How can you find inspiration in every performance?" Stanislavski remains the most important influence on actor training today, and yet many of his ideas are little known, or even misunderstood. Stanislavski For Beginners charts the development of the Stanislavski system. It includes a clear exposition of the key elements of the system and explores his Method of Physical Actions, which he worked on in the years before his death, and which he called "the result of my whole life's work."

This book looks at the Theatre of the Oppressed and explores the possibilities of drama as an agent for social change. The critical analysis of the theory and practice of Augusto Boal's theatre demonstrates the suitability of the method to deal with social issues. The focus is on the semiotic aspect of theatre. There are a number of elements in theatre that follow codes and conventions. When conceiving theatre as a language these can be subverted in order to make particular statements. Augusto Boal's work draws from Bertolt Brecht's Marxist drama and Paulo Freire's 'Pedagogy of the Oppressed'. The concept of 'Dialectics' is a key term in Brecht's work. Indeed, Boal conceives oppression as the absence of dialogue. Boal's aesthetic language developed in Brazil's military coup environment. At the time the challenge was to provide people with a system of symbols that could pair the written and spoken language. Then, Boal formulated the concept of 'spect-actor'. Some voices claim that the method has become dogmatic. At the present, Boal is no icon of oppression. A number of theatre companies specialise in tackling specific social issues that lead to isolation and social apartheid. This is supported by a social policy and funding bodies that seek social cohesion through these kind of schemes.

Much of the theatre we make starts with a script and a story given to us by someone else. But what happens when we're required to start from scratch? How do we begin to make theatre using our own ideas, our own perspective, our own stories? *A Beginner's Guide to Devising Theatre*, written by the artistic directors of the award-winning young people's performance company Junction 25 and is aimed at those new to devising or wanting to further develop their skills. It explores creative ways to create original theatre from a contemporary stimulus. It offers a structure within which to approach the creative process, including ideas on finding a starting point, generating material, composition and design; it offers practical ideas for use in rehearsal; and it presents grounding in terminology that will support a confident and informed approach to production. The book features contributions from some of the young performers who have been a part of Junction 25's work to date, as well as key artists and companies that work professionally in devised theatre, including case studies from Quarantine, the Team, Mammalian Diving Reflex, Nic Green and Ontroerend Goed. The work of Junction 25 is used to illustrate the concepts and ideas set out in the book. Ideal for any student faced with the challenge of creating work from scratch, *A Beginner's Guide to Devising Theatre* offers constructive guidance, which supports the requirements of students taking Drama and Theatre Studies courses. The book includes a foreword by theatre critic Lyn Gardner.

Puppetry for Beginners (Puppets & Puppetry Series) Nick Hern Books

Perhaps the most important conclusion we might draw from Jung is that Christ's work of redemption is not complete because it only reached consciousness. The coming of Christ meant that evil was repressed to the unconscious psyche from where it erupts in periodic bouts of conflict such as we saw in the last century. The archetypes of the collective unconscious that provide the framework of reality have no morality and it remains for the individual to fill the archetypes with their own meaning and moral direction or else they will have none, just alternating patterns of light and dark, Antichrist and redeemer, war and peace. How could one ever hope to approach such a task? Such is the subject of Jung's most important work. Jung deconstructed Christianity and alchemy, taking both back to its most psychologically important symbolic material, before putting the pieces back together again in an 'individuation process' that seeks to integrate the core archetypes, ultimately leading to the realisation of a transcendent Self. This brings a renewal of the Christ symbol in an individual symbol of the Self that integrates the unconscious psyche. The challenge for the reader is that Jung was writing in exploratory fashion and so individuation is not addressed in one place but rather dealt with piecemeal through the *Collected Works*, a large and intimidating body of work. Even so it is the definitive source where the reader must ultimately go to get the most from individuation. There is however a place for a bridging work that helps orientate the reader and set the scene. Such is the goal of this book. Having taken so much from Jung in my own life, it is my humble attempt to give something back. I use the concept of the theatre to take us into Jung because it has certain features that aid in understanding the structure of the psyche, and also a structure that can provide a more grounded and familiar context for the rest of Jung's work. The book includes a Foreword by Jacquie Flecknoe-Brown, a Jungian analyst and author of *The Dreamer's Odyssey*.

Devising Theatre is a practical handbook that combines a critical analysis of contemporary devised theatre practice with descriptions of selected companies, and suggestions for any group devising theatre from scratch. It is the first book to propose a general theory of devised theatre. After identifying the unique nature of this type of performance, the author examines how devised theatre is perceived by professional practitioners, and provides an historical overview illustrating how it has evolved since the 1960s. Alison Oddey examines the particular working practices and products of a number of professional companies, including a Reminiscence theatre for the elderly and a theatre-in-education group, and offers ideas and exercises for exploration and experimentation.

What do Natalie Portman, Robert Downey, Jr., Zach Braff, and Mandy Moore have in common?

Before they were stars, they were campers at Stagedoor Manor, the premier summer theater camp for children and teenagers. Founded in 1975, Stagedoor continues to attract scores of young performers eager to find kindred spirits, to sing out loud, to become working actors—or maybe even stars. Every summer for the past thirty-five years, a new crop of campers has come to the Catskills for an intense, often wrenching introduction to professional theater. (The camp produces thirteen full-scale productions during each of its three sessions.) These kids come from varying backgrounds—the offspring of Hollywood players from Nora Ephron to Bruce Willis work alongside kids on scholarship. Some campers have agents, others are seeking representation. When Mickey Rapkin, a senior editor at GQ and self-proclaimed theater fanatic, learned about this place, he fled Manhattan for an escape to upstate New York. At Stagedoor, he tracked a trio of especially talented and determined teen actors through their final session at camp. Enter Rachael Singer, Brian Muller, and Harry Katzman, three high school seniors closing out their sometimes sheltered Stagedoor experiences and graduating into the real world of industry competition and rejection. These veteran campers—still battling childhood insecurities, but simultaneously searching for that professional gig that will catapult them to fame—pour their souls into what might be their last amateur shows. Their riveting stories are told in *Theater Geek*, an eye-opening, laugh-out-loud chronicle full of drama and heart, but also about the business of training kids to be professional thespians and, in some cases, child stars. (The camp has long acted as a farm system for Broadway and Hollywood, attracting visits from studio executives and casting directors.) Via original interviews with former and current campers and staff—including Mandy Moore, Zach Braff, and Jon Cryer—Rapkin also recounts Stagedoor Manor's colorful, star-studded history: What was Natalie Portman's breakout role as a camper? What big-time Hollywood director, then barely a teenager, dated a much older Stagedoor staff member? Why did Courtney Love (at Stagedoor visiting her daughter) get into an argument with a hot dog vendor who had set up shop at the camp? *Theater Geek* leads readers through the triumphs and tragedies of the three senior campers' final summer in an absorbing, thought-provoking narrative that reveals the dynamic and inspiring human beings who populate this world. It also explores what the proliferation of theater camps says about our celebrity-obsessed youth and our most basic but vital need to fit in. Through the rivalry, heartbreak, and joy of one summer at Stagedoor Manor, Rapkin offers theater geeks of all ages a dishy, illuminating romp through the lives of serious child actors. Rich, insightful, and thoroughly entertaining, *Theater Geek* pulls back the curtain on an elite and intriguing world to reveal what's really at its core: children who simply love to perform.
