Pie Corbett's ground-breaking Talk for Writing approach has been successfully used by thousands of schools to teach writing creatively in an engaging way that

motivates children. Now Pie and Julia take this multi-sensory approach to Early Years settings introducing a simple way to inspire young children's language development through storytelling. Children learn language through memorable, meaningful repetition. The Talk for Writing approach enables children to internalise the language of story so that they can imitate it, innovate on it and create their own effective stories independently. Talk for Writing in the Early Years will show you how to put rhyme and story at the heart of your work with children and parents so that young learners language development and creativity flourishes. This multimedia resource shows you how to:

- Select a story or rhyme the children will enjoy and tell it engagingly, encouraging the children to join in
- Use a story map so they can picture what happens
- Use actions to reinforce meaning and emphasise key language patterns
- Help children build a bank of tales, developing their linguistic repertoire

The 2 OLCs contain: 1 Footage of Pie Corbett conferences with EY teachers showing Talk for

Writing in action 2 Clips of nursery children engaged in the Talk for Writing approach 3 Advice on how to use the OLC and handouts to train all staff in the approach 4 Interviews with parents and nursery school teachers on the impact of Talk for Writing 5 21 stories with story maps

This book brings to life the story of Sam, whose over-sensitivity creates chaos and frustration in his life.

Sam's various sensory sensitivities adversely affect Sam's experiences, both at home and in the classroom. He walks readers through his typical day of sensory blunders (which many kids and families may find all too familiar!). Finally, at the suggestion of Sam's teacher, his parents take Sam to see an occupational therapist. Sam describes the process in a non-threatening, child's perspective that is sure to sooth young readers who may be facing the same challenges. Appropriate for children, families, and professionals. *Talk for Writing in the Early Years: How to Teach Story and Rhyme Involving Families 2-5 (Revised Edition)* Ladybird
"Perfect for reading aloud, this counting book not only contains bright bold illustrations but also has lots of . . . sound effects that children will love to replicate." -- BOOKLIST
Down by the marsh, by the sleepy, slimy marsh, one duck gets stuck in the muck . . . Can two fish, tails going swish, help? What about three moose, munching on spruce? Bright, spirited illustrations by Jane Chapman enhance this one-of-a-kind counting

tale by Phyllis Root - a feast of sounds and numbers that will have listeners scrambling to join in the slippy, sloppy fun.

Five Little Ducks

Turtleback Books

Librarians need to understand the needs and abilities of differently abled patrons, and anyone responsible for hiring and managing librarians must know how to provide an equitable environment. This book serves as an educational resource for both groups. Understanding the needs and abilities of patrons who are differently abled increases librarians' ability to serve them from

childhood through adulthood. While some librarians are fortunate to have had coursework to help them understand the needs and abilities of the differently abled, many have had little experience working with this diverse group. In addition, many persons who are differently abled are-or would like to become-librarians. Disabilities and the Library helps readers understand the challenges faced by people who are differently abled, both as patrons and as information professionals. Readers will learn to assess their library's physical facilities, programming, staff, and

continuing education to ensure that their libraries are prepared to include people of all abilities. Inclusive programming and collection development suggestions will help librarians to meet the needs of patrons and colleagues with mobility and dexterity problems, learning differences, hearing and vision limitations, sensory and cognitive challenges, autism, and more. Additional information is included about assistive and adaptive technologies and web accessibility. Librarians will value this accessible and important book as they strive for equity and inclusivity.
