So, why learn to draw? Drawing is arguably as important and essential a skill as learning literacy and mathematics. When a child learns to draw, they are encouraged to do two things. The first is to look at the world around them - they begin to understand the connections between color and shape, form and perspective, dimensions and relations. The second is to look within themselves. Once a child learns how to draw, they are able to express themselves in a unique and fascinating way. Every individual has a very different imagination and a particular creative process, even from a young age - however they need a way to vent this imagination and creativity. Learning to draw is the perfect way to do this. Moreover, the better your child becomes at a skill like drawing, the more easily they will be able to express themselves. That is why this book is the perfect guide to the techniques needed in the earliest stages of drawing. Not only will it teach them the basics but more importantly they will have fun whilst they are learning. In no time at all you are sure to see your child's ability go from strength to strength, which will be an incredibly rewarding process for them but also for you! "Wavin'Flag" has become an international anthem. Its powerful words of hope have crossed generations and borders, and have made K'NAAN an international star. In his first book for children, *When I Get Older*, Somali-Canadian poet, rapper, singer, and songwriter K'NAAN tells his own story. Born in Somalia, he grew up in Mogadishu. His grandfather was a renowned poet who passed on his love of words to his grandson. When the Somali Civil War began in 1991, K'NAAN was just thirteen. His mother made the difficult decision to move her family so that they could grow up in safety. First in New York and then in Toronto, K'NAAN faced many challenges. Like so many other immigrants, he had to make a place for himself in a world of alien customs, clothes, and language. His road was a hard one: he lost many friends to violence. But K'NAAN's love of music, and his enormous talent, became a way for him to connect with his past, with his classmates, and eventually, to millions of people around the world. Not only does K'NAAN tell a story that will inspire and encourage young readers, but he provides a brief history of the Somali conflict. The lyrics of "Wavin' Flag" are also included. Born Keinan Abdi Warsame, K'NAAN first came to prominence when he performed a spoken word piece before the United Nations High Commissioner for Refugees in 1999. A member of

the audience, the singer Youssou N'Dour, was so impressed that he asked K'NAAN to take part in an album and to tour with him. Since then, K'NAAN has performed in more than 86 countries and has received many honors, including three Juno Awards and the BBC Radio 3 Award for World Music. During the Vancouver Olympics, he worked with other Canadian musicians and artists under the name Young Artists for Haiti to produce a charity version of "Wavin' Flag." The song was adapted again to become the FIFA World Cup theme song. There are now twenty-two versions of the song, which hit #1 in nineteen countries.

"A must-purchase picture book biography of a figure sure to inspire awe and admiration among readers."—School Library Journal (starred review) Extraordinary illustrations and lyrical text present pioneering African American scientist Ernest Everett Just. Ernest Everett Just was not like other scientists of his time. He saw the whole, where others saw only parts. He noticed details others failed to see. He persisted in his research despite the discrimination and limitations imposed on him as an African American. His keen observations of sea creatures revealed new insights about egg cells and the origins of life. Through stunning illustrations and lyrical prose, this picture book presents the life and accomplishments of this long overlooked scientific pioneer.
