Annual Report Amit Bhagat

The contents of this volume of essays in his honour gives a good overview of the fields in which Prof. Van Doorselaer has been active throughout his academic career. This book is especially an Album Amicorum, filled with reminiscences and intentions to continue the work. The voluminous size of this book may be considered as an adequate measure of the overall sympathy for Prof. Van Doorselaer. We hope that this publication may encourage him to remain active in the field of archaeology, and that the co-operation among colleagues, stimulated by this

project, may be continued in the future.

Vocabolario Di Marina in Tre Lingue. Tomo Primo [-Volume the Third][Simone Stratico] Leuven University Press

The view of translation as a socially regulated activity has opened up a broad field of research in the last few years. This volume deals with central questions of the new domain and aims to contribute to the conceptualisation of a general sociology of translation. Interdisciplinary in approach, it discusses the role of major representatives of sociology like Pierre Bourdieu, Bruno Latour, Bernard Lahire, Anthony Giddens or Niklas Luhmann in establishing a theoretical framework for a sociology of translation. Drawing on methodologies from sociology and integrating them into translation studies, the book questions some of the established categories in this discipline and calls for a redefinition of long-assumed principles. The contributions show the social involvement of translation in various fields and focus especially on the translator's position in an emerging sociology of translation, Bourdieu's influence in conceptualising this new sub-discipline, methodological questions and a sociologically oriented meta-discussion of translation studies.
