Charles Bernstein has described conceptual "poetry pregnant with thought." Against Expression, the premier anthology of conceptual writing, presents work that is by turns thoughtful, funny, provocative, and disturbing. Editors Craig Dworkin and Kenneth Goldsmith chart the trajectory of the conceptual aesthetic from early precursors such as Samuel Beckett and Marcel Duchamp through major avant-garde groups of the past century, including Dada, Oulipo, Fluxus, and language poetry, to name just a few. The works of more than a hundred writers from Aasprong to Zykov demonstrate a remarkable variety of new ways of thinking about the nature of texts, information, and art, using found, appropriated, and randomly generated texts to explore the possibilities of non-expressive language. --Book Jacket.

This book reviews the consequences of improper disposal of greywater into the environment and the most appropriate treatment technologies for developing countries, focusing on the potential to reuse greywater as a production medium for biomass and bio-products. It also describes the quantities and qualitative characteristics, as well as the common practice of discharging greywater in developing countries, and highlights the associated health risks. Further, it compares the management of greywater in developed and developing countries and explores the advantages and disadvantages of various treatment technologies, discussing the reuse of greywater for irrigation purposes in arid and sub-arid countries, especially in the Middle East. The book shows the benefits of greywater and introduces low-cost technologies based on the available local facilities can be used to discharge, reuse, and recycle it.

You may have watched hundreds of episodes of The Simpsons (and its sister show Futurama) without ever realizing that they contain enough maths to form an entire university course. In The Simpsons and Their Mathematical Secrets, Simon Singh explains how the brilliant writers, some of the mathematicians, have smuggled in mathematical jokes throughout the cartoon's twenty-five year history, exploring everything from to Mersenne primes, from Euler's equation to the unsolved riddle of P vs. NP, from perfect numbers to narcissistic numbers, and much more. With wit, clarity and a true fan's zeal, Singh analyses such memorable episodes as 'Bart the Genius' and 'Homer3' to offer an entirely new insight into the most successful show in television history.

The untold stories of the British talent behind the biggest movie of all time... In the sweltering heat wave of 1976, the filming of Star Wars was underway at Elstree Studios in North London. No one who was working on the movie could have imagined just how successful the film and franchise would be... 'The Galaxy Britain Built' has tracked down the most modest of British talent who brought the galaxy to life. In this book they reveal the secrets behind the creation of some of the most famous costumes, props and sets in movie history. Think you know everything there is to know about Star Wars? Think again... "We called it the laser sword because we were British! I knew the lightsaber was the Excalibur of this film! I made it from a flash tube from a 1940s camera." "We were going flat out to fill a cantina with aliens. We made foam latex, which filled the room with ammonia and we were painting with toluene paint. We were probably all high at the time!" "I broke down my script; I had a list of weapons, robots, sets, vehicles. I just stared at it in horror thinking, 'I can't do this!'" "We got wheelbarrow wheels, some plywood and some polystyrene and we built a Landspeeder." "Harrison, Carrie and Mark, being American, said they hadn't tried Yorkshire puddings before! So on that Sunday, we invited them round for lunch..." About the author: David Whiteley is a British TV presenter and filmmaker. Born on May the Fourth (Yes, Star Wars day!), 1977 (the year Star Wars was released), he was destined to be a life-long fan of the movies. Having hit upon the idea of making a documentary about the Brits behind Star Wars, he always felt there were many more stories to tell. Through extensive interviews from 2016 to 2019, David brought those stories together for this book; The Galaxy Britain Built: The British Talent Behind Star Wars.

Senator Orrin Hatch calls Threads of Honor, "A masterful job. I was inspired . . ." The process that Bill Tolbert was required to go through in his attempt to obtain flight clearance for Troop 514's flag would have deterred a lesser man. But the responsibility he felt for those fourteen young men kept him going. He enlisted the help of all his resources to get the flag included in the official flight kit. Finally, he stood before the troop and announced that their request had been approved. Troop 514's flag would be on the next shuttle mission, due to launch in eight weeks.

You would have to wonder why a Rhodes Scholar, a VC winner and a Commissioner of Police named his son Frank E. R. Stein by way of a ha-ha 'monstrous joke'... or why he cackled derision every time his eyes lit upon the boy; or why he showered more affection on his adopted son, Costas, the otherwise offspring of a Mr Bigs of organized crime. And as the well is so poisoned such is the quest Frank Stein must make to seek revenge for the gangland killing of his crusading crime-fighting half-brother. At least it is a way to presuppose the kingpins presumably coming for him too; after all, even as a joke, it's not how you bow out, but how you get stuck in. Rape, assassination, shocking intrusions of a vicious crime world... it's all there for a tragic and hilarious story to unfold before Frank Stein, assisted(?) by his own side comprising of a woman in search of an international bestseller and an indigenous brother who survives writing sports reports without going to any games when all he needs is a deaf, dumb and blind rich white sort to tide him over. And, yes, haunting over all is a shadowy guardian Chinese toughie, as well as his ubiquitous father from his wheelchair. One has to ask: what have the famous father's shocking WW1 experiences to do with the resulting mayhem? What has been done to his sons? What did the Nip bullet the old boy finally coughed up after forty years look like, even as a metaphor? Underlying the rich gallery of these and other grotesques, there are the wit and the pace and the bawdry of Crooks. In the real-life crime parlance of 'a pushover to put down', this book won't disappoint crime buffs. ----- about the author Originally a well-known playwright, Bill Reed began writing longform fiction in his late thirties. To date he has written thirteen novels, including the so-called noteworthy '1001 Lankan Nights, books 1 and 2'. He has had eight plays professionally staged. He has worked as an editor and journalist in Australia and overseas before finally putting his feet up in Sri Lanka.

Fastest wins. Your adventure starts now ... This is a race. It is not a race against the clock, because that would be a far easier race.

Clocks can be fast, but clocks never win races. It's nearly always humans, sometimes horses, and occasionally dogs. This is a race against your fellow Taskmaster players. You are competing against everyone else who is reading this book. All you've got to do is find The Taskmaster's Head first. This is a race with many twists and turns, that requires very little running, much sideways thinking and quite a lot of patience. Thankfully, there will be a shedload of tasks along the way to distract you. There are tasks to do on your own, tasks to do with your family and friends, and tasks for bigger groups too. Some of these distractions may slow you down, but some may help you get where you need to go. As always, enjoy them, do your best, make good choices. So get going. Take on the tasks. All the information you need is in the book... Alex Horne, Taskmaster's Assistant

"Effondré dans le fauteuil qu'il avait emporté d'un ancien travail, vestige de sa reconnaissance professionnelle déchu, il contemplait le tapis de feuilles aux couleurs ternes déposé sur le sol du jardin. Elles s'amoncelaient aux pieds des troncs, les couches inférieures déjà collées par la pluie, tandis que celles nouvellement arrivées virevoltaient encore au gré du vent. Il y distinguait sans peine la métaphore de son état, son corps trop lourd le clouait à son siège, alors que son esprit divaguait librement, ressassant sans cesse les événements des derniers mois. Son attention fut attirée par l'arrivée d'un moineau résistant qui sautait d'une branche à l'autre avec une apparence de gaieté. Il observa la scène à travers la fenêtre, avant de revenir à la quiétude morne des feuilles qui se disputaient. Dure était la chute." Après "Haute Trahison", Cédric Belétron est à nouveau mêlé à une enquête policière inattendue.
