In this book, native popular musicologists focus on their own popular music cultures from Germany, Austria and Switzerland for the first time: from subcultural to mainstream phenomena; from the 1950s to contemporary acts. Starting with an introduction and two chapters on the histories of German popular music and its study, the volume then concentrates on focused, detailed and yet concise close readings from different perspectives (including particular historical East and West German perspectives), mostly focusing on the music and its protagonists. Moreover, these

analyses deal with very original specific genres such as Schlager and Krautrock as well as transcultural genres such as Punk or Hip Hop. There are additional chapters on characteristically German developments within music media, journalism and the music industry. The book will contribute to a better understanding of German, Austrian and Swiss popular music, and will interconnect international and especially Anglo-American studies with German approaches. The book, as a consequence, will show close connections between global and local popular music cultures and diverse traditions of study.

Developing an Anti-Fragile Faith Violence against Christ-followers is increasing globally. The lived reality for many Christians involves daily threats, risks, and persecution. When evil casts its shadow on us, and we're tempted to despair, it is vital to develop anti-fragile faith and the guts to endure in hard places. Facing Fear is a practical guide for believers who long to have bold, mature courage. Cultivating this courage is necessary to endure wisely for Christ's sake. Anna Hampton integrates exegesis and psychology to explain how humans respond to fear and how the Holy Spirit enables us to make a different choice than our normal. Learning to face our fears, name them, and manage them requires learning specific steps to reduce their impact on us. This book is a pastoral and practical resource for those working to advance the gospel in the world's most dangerous places. You'll gain valuable skills to become "shrewd as a serpent" and stand with unshakable faith in unsafe situations. Risk can be an offering of worship. Jesus is worthy of whatever pain you go through, whatever loss you experience, and whatever fears you have.

In this book, new approaches are presented for detecting and extracting simultaneously relevant and novel information from unstructured text documents. A major contribution of these approaches is that the information already provided and the extracted information are modeled semantically. This leads to the following benefits: (a) ambiguities in the language can be resolved; (b) the exact information needs regarding relevance and novelty can be specified; and (c) knowledge graphs can be incorporated. More specifically, this book presents the following scientific contributions: 1. An assessment of the suitability of existing large knowledge graphs (namely, DBpedia, Freebase, OpenCyc, Wikidata, and YAGO) for the task of detecting novel information in text documents. 2. A description of an approach by which emerging entities that are missing in a knowledge graph are detected in a stream of text documents. 3. A suggestion for an approach to extracting novel, relevant, semantically-structured statements from text documents. The developed approaches are suitable for the recommendation of emerging entities and novel statements respectively, for the purpose of knowledge graph population, and for providing assistance to users requiring novel information, such as journalists and technology scouts.

This source edition on the persecution and murder of the European Jews by Nazi Germany presents in a total of 16 volumes a thematically comprehensive selection of documents on the Holocaust. The work illustrates the contemporary contexts, the dynamics, and the intermediate stages of the political and social processes that led to this unprecedented mass crime. It can be used by teachers, researchers, students, and all other interested parties. The edition comprises authentic testimony by persecutors, victims, and onlookers. These testimonies are furnished with academic annotations and the vast majority of them are published here for the first time in English. Volume 3 documents the persecution of the Jews in the German Reich after the start of the Second World War and in the 'Protectorate of Bohemia and Moravia', created in March 1939, until September 1941. It reveals the increasing isolation of the German and Czechoslovak Jews but also the perpetrators' plans up to the eve of systematic deportations.

The true story behind the iconic fictional detective is "a fascinating chapter in the history of publishing" (The Seattle Times). An Edgar Award Winner for Best Biography and a Chicago Tribune Best Book of the Year The plucky "titian-haired" sleuth solved her first mystery in 1930—and eighty million books later, Nancy Drew has survived the Depression, World War II, and the sixties (when she was taken up with a vengeance by women's libbers) to enter the pantheon of American culture. As beloved by girls today as she was by their grandmothers, Nancy Drew has both inspired and reflected the changes in her readers' lives. Here, in a narrative with all the page-turning pace of Nancy's

adventures, Melanie Rehak solves an enduring literary mystery: Who created Nancy Drew? And how did she go from pulp heroine to icon? The brainchild of children's book mogul Edward Stratemeyer, Nancy was brought to life by two women: Mildred Wirt Benson, a pioneering journalist from Iowa, and Harriet Stratemeyer Adams, a well-bred wife and mother who took over her father's business empire as CEO. In this century-spanning, "absorbing and delightful" story, the author traces their roles—and Nancy's—in forging the modern American woman (The Wall Street Journal). "It's truly fun to see behind the scenes of the girl sleuth's creation." —Publishers Weekly "As much a social history of the times as a book about the popular series . . . Those who followed the many adventures of Nancy Drew and her friends will be fascinated with the behind-the-scenes stories of just who Carolyn Keene really was." —School Library Journal "Sheds light on perhaps the most successful writing franchise of all time and also the cultural and historic changes through which it passed. Grab your flashlights, girls. The mystery of Carolyn Keene is about to begin." —Karen Joy Fowler

In this sequel of "Five 'til Midnight," the story follows the love story of the now-married Jake and Helene Mortensen. As Jake's movie career is steadily rising and Helene's novels and movie scripts are in demand, life was simply perfect for them. Jake could not be any happier when Helene found out that she was pregnant. And then, the unimaginable and unthinkable happened. Jake began to wonder if he was the source of all the misfortune that surrounds him. With his family's support, he returns to acting in movies that were previously scripted by Helene. During his next two filming projects, he encounters a beautiful Israeli actress, Ilana Dayan, and Reeva Pieterse, a daughter of a South African billionaire, a supermodel and successful actress in her own right. While both women are interested in Jake, he is tormented by the thoughts of his beloved Helene and simply could not move on. He pours his love into raising his son, Arthur, and when he finally resigned to the fact that there is more to life than living with memories, the shock of his life was waiting. He once again questions himself if he could get over the ultimate lies, betrayal, and learn to forgive and love again.

*1 Brief an Jakob Job*

Helene Fischer is a professional killer who arrives in West Cumbria with instructions to shoot dead 12 people. She has two specific targets, the other ten are chosen at random. Accompanying Helene is Nasseem Ahmed, a computer hacker who is peculiarly averse to the sight of blood. The final shooting takes place at a kart circuit near Rowrah is clearly an example of world class marksmanship. Such precision convinces police that they are dealing with professionals. Henceforth, it all turns into a car-crash in more ways than one as investigations spread out to three different countries. Who has organised the hits? Could it be the high flying financier Sir Robin Coleridge-Smythe, or perhaps Jose Luis Gonzaleze, an American racing car boss? Both have strong links to one of the victims. TV Presenter Fiona Dunne asks some searching questions that eventually lead to a libel trial in the Royal Courts of Justice. However, it is Detective Sergeant Lisa Robb who finally arrives at the answer and her conclusions will shock many readers.
