Among the enduring stereotypes of early American history has been the colonial Goodwife, perpetually spinning, sewing, darning, and quilting, answering all of her family's textile needs. But the Goodwife of popular historical imagination obscures as much as she reveals; the icon appears to explain early American women's labor history, while at the same time allowing it to go unexplained. Tensions of class and gender recede, and the largest artisanal trade open to early American women is obscured in the guise of domesticity. In this book, Marla R. Miller illuminates the significance of women's work in the clothing

trades of the early Republic. Drawing on diaries, reminiscences, letters, ledgers, and material culture, she explores the contours of working women's lives in rural New England, offering a nuanced view of their varied ranks and roles - skilled and unskilled, black and white, artisanal and laboring - as producers and consumers, clients and crafts-women, employers and employees

A sweeping intellectual history of the role of wealth in the church in the last days of the Roman Empire Jesus taught his followers that it is easier for a camel to go through the eye of a needle than for a rich man to enter heaven. Yet by the fall of Rome, the church was becoming rich beyond measure. Through the Eye of a Needle is a sweeping intellectual and social history of the vexing problem of wealth in Christianity in the waning days of the Roman Empire, written by the world's foremost scholar of late antiquity. Peter Brown examines the rise of the church through the lens of money and the challenges it posed to an institution

that espoused the virtue of poverty and called avarice the root of all evil. Drawing on the writings of major Christian thinkers such as Augustine, Ambrose, and Jerome, Brown examines the controversies and changing attitudes toward money caused by the influx of new wealth into church coffers, and describes the spectacular acts of divestment by rich donors and their growing influence in an empire beset with crisis. He shows how the use of wealth for the care of the poor competed with older forms of philanthropy deeply rooted in the Roman world, and sheds light on the ordinary people who gave away their money in hopes of treasure in heaven. Through the Eye of a Needle challenges the widely held notion that Christianity's growing wealth sapped Rome of its ability to resist the barbarian invasions, and offers a fresh perspective on the social history of the church in late antiquity.

Success came easily to Chad Carstairs. Then, without warning,

evil invaded his pleasure-filled life...a chilling evil that sent him racing from an elegant English country estate to the sleazy clubs of London's West End, from the drug-ridden streets of Marseilles to a farmhouse on the desolate coast of Wales. Driven by revenge, he was a man willing to risk his fortune, his future, and even his life in a desperate gambit to outwit the world's deadliest organization at its own game and finger the powerful men behind... This globe-spanning history of sewing and embroidery, culture and protest, is "an astonishing feat . . . richly textured and moving" (*The Sunday Times*, UK). In 1970s Argentina, mothers marched in headscarves embroidered with the names of their "disappeared" children. In Tudor, England, when Mary, Queen of Scots, was under house arrest, her needlework carried her messages to the outside world. From the political propaganda of the Bayeux Tapestry, World War I soldiers coping with PTSD, and the maps sewn by schoolgirls in the New World, to the AIDS quilt, Hmong story clothes, and pink pussyhats, women and men have

used the language of sewing to make their voices heard, even in the most desperate of circumstances. *Threads of Life* is a chronicle of identity, memory, power, and politics told through the stories of needlework. Clare Hunter, master of the craft, threads her own narrative as she takes us over centuries and across continents—from medieval France to contemporary Mexico and the United States, and from a POW camp in Singapore to a family attic in Scotland—to celebrate the universal beauty and power of sewing.

Embark on a journey through the Old and New Testament with Sherlock Holmes and Dr. John Watson as they explore exotic and spice-laden places in search of clues. The detective and the doctor travel back in time with the help of a Moriarty-designed time machine to investigate ten Bible destinations, unlocking clues to ten Bible mysteries. The most fascinating crime cases are those that are already solved, those that have been investigated by the police and brought to a swift, satisfying, and almost inevitable conclusion. So it is with Bible stories which the reader may consider familiar and unremarkable. But under close scrutiny these stories give up their hidden clues, their long kept secrets. Like a jewel newly polished, they sparkle and shine with

a fresh, introspective light. While traveling back in time to witness certain scenes, Holmes and Watson unravel ten different Biblical mysteries, including the following: · The Hanging Tree: Why did Ahithophel hang himself? · Righteous Blood is Red: Is Zechariah the son of Berekiah or Jehoiada in Matthew 23? · You Miss, You Die: Why did David take five stones against Goliath? · Dead Man Walking: Why did Jesus delay in coming to Lazarus in John 11?

THROUGH THE NEEDLE'S EYE is told through the authentic voice of Jessie, a precocious girl raised in the Blue Ridge Foothills of Southern Appalachia after World War II. Saddled with an alcoholic narcissistic father and a passive mother, Jessie is charged with mothering her siblings as generational curses and poverty never cease to overwhelm her family. As providence would have it, Granny Isabelle sets her eagle eye upon Jessie, the child neither parents nor teachers think worthwhile. Sporting a ridiculous paper bag hat, Granny Isabelle chucks clods of dirt with a garden hoe as she earnestly works every stitch of ground to produce beds of corn and green onions to be hawked at nearby markets for nickels and dimes. Through keen intuition and a special bond, she provides a haven for Jessie's survival to help motivate the child beyond her circumstances.

I have been to the peak of achievement both physically and mentally and have fallen to the depths of despair entangled in

the darker side of life deep within oneself. I write of very real solutions to find a more profound connection with the world around and overcome the mundane, which is so common in a routine, predictable world we can find ourselves in. I have suffered very real problems and on more than one occasion have found myself in circumstances where, in most cases, there is little chance of getting back to not only a normal way of life but to a way of life where I could really achieve and have a productive and fulfilling life. There are few positives that can be drawn from the agony of mental illness other than those that are procured from the challenge of the experience. When you experience such a condition, you are open to wider range of thoughts and see visit areas of the mind that many of us would never know in our everyday lives. If you are strong inside and maintain a belief in yourself, it is possible to articulate these thoughts and feelings and present them to others so they can not only benefit from avoiding the traps and pitfalls that lead us to lose control of our lives but to benefit from the insight I have gained in fighting all the way back from the deepest darkest recesses of the mind. What fundamentally we need most of all in life is what I term a touch of magic to provide some hope for love in the harshness ultimately of the world in which we live. This translates to religion usually in a wider sense, but I have found the road for individuals to take this path after much soul searching. I guarantee successful application in nearly all areas, and I assure you, I am a compassionate believer in the material although take heed, all things should be taken in measure, and you should develop your own understanding.
