 The aftermath of "THE BUTTON" has left Barry Allen—the Fastest Man Alive, known as the Flash—at a crossroads. Can he continue lying to the woman he loves about his secret identity? Can he mend his broken relationship with Kid Flash? Green Lantern Hal Jordan offers some advice, but Flash doesn't have much time to

make a decision, courtesy of the return of his greatest enemy, the time-traveling Reverse-Flash! Eobard Thawne has taken Iris West to the 25th century to reveal Barry Allen's most closely guarded secrets to her...before killing Iris and the Flash! Following them to the future, Flash finally learns why his arch-foe from the future hates him so much, but even that knowledge may not be enough to give him a fighting chance against a villain who knows all his possible futures. Following the events of "THE BUTTON," the future unfolds as never before in THE FLASH VOL. 4: RUNNING SCARED, the epic adventure from writer Joshua Williamson and artists Carmine Di Giandomenico and Howard Porter. Chainsaw Man, Vol. 4 First Second Books

Foreign investors have a privileged position under investment treaties. They enjoy strong rights, have no obligations, and can rely on a highly efficient enforcement mechanism: investor-state dispute settlement (ISDS). Unsurprisingly, this extraordinary status has made international investment law one of the most controversial areas of the global economic order. This book sheds new light on the topic, by showing that foreign investor rights are not the result of unpredicted arbitral interpretations, but rather the outcome of a world-making project realized by a coalition of business leaders, bankers, and their lawyers in the 1950s and 1960s. Some initiatives that these figures planned for did not emerge, such as a multilateral investment convention, but they were successful in developing a legal imagination that gradually occupied the space of international investment law. They sought not only to set up a dispute settlement mechanism but also to create a platform to ground their vision of foreign investment relations. Tracing their normative project from the post-World War II period, this book shows that the legal imagination of these business leaders, bankers, and lawyers is remarkably similar to present ISDS practice. Common to both is what they protect, such as foreign investors' legitimate expectations, as well as what they silence or make invisible. Ultimate, this book argues that our canon of imagination, of adjustment and potential reform, remains closely associated with this world-making project of the 1950s and 1960s.
