 The life of

trailblazing
 physicist
 Mildred
 Dresselhaus,
 who expanded
 our
 understanding
 of the physical
 world. As a girl
 in New York

City in the
 1940s, Mildred
 “Millie”
 Dresselhaus
 was taught
 that there
 were only
 three career
 options open
 to women:

secretary, nurse, or teacher. But sneaking into museums, purchasing three-cent copies of National Geographic, and devouring books on the history of science ignited in Dresselhaus (1930–2017) a passion for inquiry. In Carbon Queen, science writer Maia Weinstock describes how, with curiosity and drive, Dresselhaus defied expectations and forged a

career as a pioneering scientist and engineer. Dresselhaus made highly influential discoveries about the properties of carbon and other materials and helped reshape our world in countless ways—from electronics to aviation to medicine to energy. She was also a trailblazer for women in STEM and a beloved educator, mentor, and colleague. Her path wasn't easy.

Dresselhaus's Bronx childhood was impoverished. Her graduate adviser felt educating women was a waste of time. But Dresselhaus persisted, finding mentors in Nobel Prize-winning physicists Rosalyn Yalow and Enrico Fermi. Eventually, Dresselhaus became one of the first female professors at MIT, where she would spend nearly six decades. Weinstock explores the

basics of Dresselhaus's work in carbon nanoscience accessibly and engagingly, describing how she identified key properties of carbon forms, including graphite, buckyballs, nanotubes, and graphene, leading to applications that range from lighter, stronger aircraft to more energy-efficient and flexible electronics.

George Stephenson

Yale University Press
Volumes have

been written by and about Patrick Leigh Fermor, but his wife Joan is almost entirely absent from their pages. Now, Simon Fenwick, archivist of the Leigh Fermor papers, tells Joan's story in *Joan: The Remarkable Life of Joan Leigh Fermor*. A talented photographer, Joan defied the social conventions of her times and, though she came from a wealthy and well-connected family, earned

her own living. Through her lover, and later editor of the TLS, Alan Pryce-Jones, she met and mingled with the leading lights of 1930s bohemia - John Betjeman, Cyril Connolly, Evelyn Waugh, Maurice Bowra (who adored her) and Osbert Lancaster, among others. She featured regularly in the gossip columns, not only for her affairs and her fashionable clothes, but for her intrepid

travels to Russia and America. In 1936 she met and subsequently married the journalist John Rayner, but her belief in open marriage was not shared by her husband and their relationship foundered. Then, in 1944 in Cairo, where she was a cypher clerk, she met Paddy Leigh Fermor, lionized for his daring kidnap of the Nazi General Kreipe in Crete. They would remain together until

her death in 2003. In this riveting biography, written with full access to Joan's personal archive, Simon Fenwick reveals the extraordinary life of a woman who, until now, has been defined by the man she married and their famous friends. Here, at last, Joan is placed at the centre of her own story. It is also a riveting portrait of a marriage and a milieu, revealing the sexual and

intellectual mores of that wartime generation who lived life at full tilt, no matter what the consequences. 'In this engrossing biography, the woman hitherto overshadowed by her husband is brought from black and white to full colour . . . a vivid portrait of her and the places and people she loved.' - Observer
Life Lessons from Remarkable Women
Zondervan

Anthony Reynolds' fascinating and detailed biography draws on scores of new interviews conducted with Cohen's band members past and present, his business associates, editors, friends, fans, producers, colleagues, enemies and peers. As well as their revealing accounts, the author has gained access to hours of previously unpublished interviews with Cohen as well as video

archive recordings from several decades. The book also includes an authoritative summary of every Cohen album, with insights and recollections supplied from the musicians who appeared on the recordings. Gradually, despite Cohen's own good-natured evasiveness over the past 40 years, a surprisingly frank portrait begins to emerge of the legendary figure who commands unparalleled

loyalty from his fans and followers, young and old. From the distant days of his penniless beginnings as a much-praised poet in Montreal, through the travels, affairs and religious crisis to his latest tours, Cohen's extraordinary life and body of work is examined as never before. The book includes many previously unpublished photographs. *The History of the Remarkable Life of John Sheppard*

This “seriously
entertaining
book”
explores the

skin in its
multifaceted
physical,
psychological,
and social
aspects
(Times, UK).
Providing a
cover for our
delicate
bodies, the
skin is our
largest and
fastest-
growing
organ. We see
it, touch it,
and live in it
every day. It is
a habitat for a
mesmerizingly
complex world
of micro-
organisms and
physical
functions that
are vital to our
health and
survival. One
of the first
things people
see about us,

skin is also
crucial to our
sense of
identity. And
yet much
about it is
largely
unknown to
us. With
rigorous
research and
lucid prose,
Monty Lyman
explores our
outer surface
through the
lenses of
science,
sociology, and
history. He
covers topics
as diverse as
the mechanics
and magic of
touch (how
much goes on
in the simple
act of taking
keys out of a
pocket and
unlocking a
door is

astounding), the close connection between the skin and the gut, what happens instantly when one gets a paper cut, and how a midnight snack can lead to sunburn. The Remarkable Life of the Skin takes readers on a journey across our most underrated and unexplored organ. It reveals how our skin is far stranger, more wondrous, and more complex than we have

ever imagined. Parting Words A&C Black A biography of First Lady Eleanor Roosevelt illustrated with historical photographs. *The Remarkable Life of the Skin* The History Press Sitting tall in the saddle, with a wide-brimmed black hat and twin Colt pistols on his belt, Bass Reeves seemed bigger than life. Outlaws feared him. Law-abiding citizens respected

him. As a peace officer, he was cunning and fearless. When a lawbreaker he *Carbon Queen* St. Martin's Press If you could share one lesson from your life with every woman, what would it be? Stylist magazine has asked that question of remarkable women from the worlds of entertainment , politics, sport and fashion. With honesty, wit and a serious no-BS attitude, their lessons address the

challenges every woman faces today, from climbing the career ladder and finding inner fulfilment, to forging authentic relationships and overcoming life's setbacks. Each of these impressive women, including actress Romola Garai and comedian Francesca Martinez, has a tale to tell and an experience to share. Empowering, engaging and unapologetical ly impassioned,

their incisive observations will make you think, reflect - and kick serious ass. These are life lessons for women, by women. *The Inventor's Dilemma* John Wiley & Sons 'A daring and mesmerizing twist on the art of biography' - Douglas Smith, author of *Rasputin: The Biography* 'Anyone who loves [Dostoevsky's] novels will be fascinated by this book' - Sue Prideaux, author of *I Am Dynamite! A Life of*

Friedrich Nietzsche Dostoevsky's life was marked by brilliance and brutality. Sentenced to death as a young revolutionary, he survived mock execution and Siberian exile to live through a time of seismic change in Russia, eventually being accepted into the Tsar's inner circle. He had three great love affairs, each overshadowed by debilitating epilepsy and addiction to

gambling. Somehow, amidst all this, he found time to write short stories, journalism and novels such as *Crime and Punishment*, *The Idiot* and *The Brothers Karamazov*, works now recognised as among the finest ever written. In *Love Alex Christofi* weaves carefully chosen excerpts of the author's work with the historical context to form an illuminating and often

surprising whole. The result is a novelistic life that immerses the reader in a grand vista of Dostoevsky's world: from the Siberian prison camp to the gambling halls of Europe; from the dank prison cells of the Tsar's fortress to the refined salons of St Petersburg. Along the way, Christofi relates the stories of the three women whose lives were so deeply intertwined with Dostoevsky's:

the consumptive widow Maria; the impetuous Polina who had visions of assassinating the Tsar; and the faithful stenographer Anna, who did so much to secure his literary legacy. Reading between the lines of his fiction, Christofi reconstructs the memoir Dostoevsky might have written had life – and literary stardom – not intervened. He gives us a new portrait of the artist as never

before seen: a shy but devoted lover, an empathetic friend of the people, a loyal brother and friend, and a writer able to penetrate to the very depths of the human soul. The Remarkable Life of Victoria Drummond, Marine Engineer Houghton Mifflin Harcourt Learn to see God's remarkable works in the everyday ordinary of your life. Your remarkable life is happening

right here, right now. You may not be able to see it-- your life may seem predictable and your work insignificant until you look at your life as Frederick Buechner does. Named "the father of today's spiritual memoir movement" by Christianity Today, Frederick Buechner reveals how to stop, look, and listen to your life. He reflects on how both art and faith teach us how to pay

attention to the remarkableness right in front of us, to watch for the greatness in the ordinary, and to use our imaginations to see the greatness in others and love them well. Pay attention, says Buechner. Listen to the call of a bird or the rush of the wind, to the people who flow in and out of your life. The ordinary points you to the extraordinary God who created and loves all of

creation, including you. Pay attention to these things as if your life depends upon it. Because, of course, it does. As you learn to pay attention to your life and what God is doing in it, you will uncover the plot of your life's story and the sacred opportunity to connect with the Divine in each moment. *The Remarkable Life of the Skin* Chicago Review Press
 What is phantom limb pain? Can

words actually hurt? Why do we experience pain, even after we've healed? We're currently experiencing a Renaissance in pain science. In recent years our understanding of pain has altered so radically it's fair to say that everything we thought we knew about pain is wrong. As Dr Monty Lyman reveals, we misunderstand pain - with harmful consequences. Exploring cutting-edge research that

encompasses everything from phantom aches to persistent pain, as well as interviews with survivors of torture and those who have never felt pain, Dr Lyman not only provides hope for reducing and managing pain but takes us to a deeper understanding of what it means to be human. This is the untold story of pain - our most elusive feeling. *The Patriarch* Random House

story of Ivan, known as the Shopping Mall Gorilla, who lived alone in a small cage for almost 30 years before being relocated to the gorilla habitat at ZooAtlanta."--
Windblown;
The Remarkable Life of Richard S. Buker Jr., MD; A Family Doctor
Bantam Press
When William Beebe needed to know what was going on in the depths of the ocean, he had himself lowered a half-mile down in a four-foot steel sphere

to see-five times deeper than anyone had ever gone in the 1930s. When he wanted to trace the evolution of pheasants in 1910, he trekked on foot through the mountains and jungles of the Far East to locate every species. To decipher the complex ecology of the tropics, he studied the interactions of every creature and plant in a small area from the top down, setting the emerging field of tropical

ecology into dynamic motion. William Beebe's curiosity about the natural world was insatiable, and he did nothing by halves. As the first biographer to see the letters and private journals Beebe kept from 1887 until his death in 1962, science writer Carol Grant Gould brings the life and times of this groundbreaking scientist and explorer compellingly to light. From the Galapagos

Islands to the jungles of British Guiana, from the Bronx Zoo to the deep seas, Beebe's biography is a riveting adventure. A best-selling author in his own time, Beebe was a fearless explorer and thoughtful scientist who put his life on the line in pursuit of knowledge. The unique glimpses he provided into the complex web of interactions that keeps the earth alive and breathing have inspired

generations of conservationists and ecologists. This exciting biography of a great naturalist brings William Beebe at last to the recognition he deserves. [Ivan](#) Hachette UK Received an Honourable Mention for the 2018 Lieutenant Governor's Medal for Historical Writing The first book on Agnes Deans Cameron, BC's first female principal, itinerant traveller, and journalist.

Agnes Deans Cameron was an extraordinary woman who was ahead by a century. Born in Victoria in 1863, she was the first female school principal in the province, but she worked tirelessly to achieve work equality and voting rights for women. One of Canada's most well known writers of her time, she put western Canada on the map through her writing, which was published

internationally including in the Saturday Evening Post. She was also a trailblazer in sports, becoming the first “Lady Centurion” in the West. A consummate trailblazer, in the summer of 1906, Cameron travelled 10,000 miles down the Mackenzie River and out into the Beaufort Sea—something no other European woman had done—in one short season. Cameron was named one of the top 150

most significant individuals in the history of the province of British Columbia. This is the first book commemorating her life. *Skin* Vintage 'I don't know where to stop praising Benny and this amazing book...' - HEATHER MORRIS, The Tattooist of Auschwitz 'This book...is the stuff folk tales are made of. How wonderful that sometimes they are true' - MARTIN FREEMAN What a

century of life experience can teach us about happiness, ambition, courage, love and how to make the most of the lives we've been given. How many people do you know grew up as a poor immigrant in America during the Great Depression, won a scholarship to Harvard Law School, landed on the beaches of Normandy on D Day, were present at the liberation of concentration

camps including Buchenwald, Mauthausen and Flossenburg, held leading Nazis to account at the Nuremberg trials and have fought for an International Criminal Court to hold war criminals to account the world over? Now you know one. Benjamin Ferencz turned 100 in 2020. In this extraordinary book, he shares his remarkable life story and the nine humble, compelling

and life-affirming lessons he's learned along the way that we can all harness for ourselves. 'Warm, wise and inspiring - a book for our times by one of the world's most remarkable human beings' PHILIPPE SANDS, author of East West Street and The Ratline 'Ferencz is a true survivor and Mensch! He has wonderful humour, patience and gratitude. The book is a "must read"' DR EDITH

_ How does our diet affect our skin?
What makes the skin age?
And why can't we tickle ourselves?
Providing a cover for our delicate and intricate bodies, the skin is our largest, fastest growing and yet least understood organ. We see it, touch it and live in it every day. It's a habitat for a mesmerizingly complex world

of micro-organisms and physical functions that are vital to our health and our survival. It's also one of the first things people see about us and is crucial to our sense of identity. Our skin plays a central role in our lives. And yet how much do we really know about it? Through the lenses of science, sociology and history, Dr Monty Lyman leads us on a journey across our most underrated and unexplored

organ. Examining our microbiome, our love of tattoos and whether or not beauty products really work, he reveals how the skin is far stranger and more complex than you've ever imagined.

The Remarkable Life of William Beebe

TouchWood Editions
In Skin, Monty Lyman takes us on a scientific journey around the largest organ in the human body. He first

explores the terrain of the physical skin, picking out the facts from the fiction, and giving a fascinating insight into the skin's many vital functions, from sweating to blushing. He takes us on a 'safari', where we meet the many and varied microorganisms and bacteria which inhabit our skin, many of which perform vital health-giving functions and some of which can kill us. Along the way

we learn things which will have the beauty industry scurrying for cover. Does our diet really affect our skin? What makes the skin age and how can we slow the process? Is it possible to prevent hair loss? And Monty explores the intriguing hinterland between the skin and the mind, from the pain and pleasure of touch to the physical effects of stress. Including case

histories taken from Monty's experience around the world - from East Africa to New Zealand and everywhere in between - this brings our most misunderstood organ into the limelight as never before. Fascinating and jaw-dropping popular science for readers of *Adventures in Human Being*. **Dearie** Penguin UK Now in paperback, a delightful collection of essays on the

transformative power of reading In *The Book That Changed My Life*, our most admired writers, doctors, professors, religious leaders, politicians, chefs, and CEOs share the books that mean the most to them. For Doris Kearns Goodwin it was Barbara Tuchman's *The Guns of August*, which inspired her to enter a field, history writing, traditionally reserved for men. For

Jacques Pépin it was The Myth of Sisyphus, which taught him the importance of personal responsibility, dignity, and goodness in the midst of existentialist France. A testament to the life-altering importance of literature, this book inspires us to return to old favorites and seek out new treasures. All proceeds go to The Read to Grow Foundation, which partners with urban hospitals to

provide books and literacy information to newborns and their families.

The Most Offending Soul Alive

Grove Press No Better Time tells of a young, driven mathematical genius who wrote a set of algorithms that would create a faster, better Internet. It's the story of a beautiful friendship between a loud, irreverent student and his soft-spoken MIT professor, of a husband and father who

spent years struggling to make ends meet only to become a billionaire almost overnight with the success of Akamai Technologies, the Internet content delivery network he cofounded with his mentor. Danny Lewin's brilliant but brief life is largely unknown because, until now, those closest to him have guarded their memories and quietly mourned their loss. For Lewin
