Now available in paper,
The Ivory Tower and
Harry Potter is the first
book-length analysis of

J. K. Rowling's work
from a broad range of
perspectives within
literature, folklore,
psychology, sociology,
and popular culture. A
significant portion of
the book explores the
Harry Potter series'
literary ancestors,
including magic and
fantasy works by
Ursula K. LeGuin,

Monica Furlong, Jill Murphy, and others, as well as previous works about the British boarding school experience. Other chapters explore the moral and ethical dimensions of Harry's world, including objections to the series raised within some religious circles. In her new epilogue, Lana A. Whited brings this volume up to date by covering Rowling's latest book, *Harry Potter and the Order of the Phoenix*.

An old woman is awoken in the dead of night by knocks at her front door. The woman opens it to find her daughter, Doruntine, standing there alone in the darkness. She has been brought home from a distant land by

a mysterious rider she claims is her brother Konstandin. But unbeknownst to her, Konstandin has been dead for years. What follows is chain of events which plunges a medieval village into fear and mistrust. Who is the ghost rider?

The Melodic Tradition of Ireland Routledge

The aim of this work is to produce a technique that can be used to resolve real-life, real-time conflict situations and to investigate political and social interactions between decision makers.

Last Night's Fun

Emerald Group Publishing

It's the late 1940s in Skopje, Yugoslavia, in the critical year leading to Tito's break with Stalin. Pushed to leave mountain villages to become the new proletariat in urban factories, a flood of peasants crowds into Skopje—and with them, all of their goats. Suffering from hunger, Skopje's citizens welcome the newcomers. But municipal leaders are faced with a dilemma when the central government issues an order calling for the slaughter of the country's goat population. With food so scarce, will they hide the outlawed animals? Or will they comply with the edict and endure the bite of hunger? *The Time of the Goats* is the second novel in Luan Starova's

acclaimed multivolume Balkan saga. It follows the main characters from *My Father's Books* and the tragicomic events of their lives in Skopje as the narrator's intellectual father and the head goatherd become friends. As local officials clumsily carry out absurd policies, Starova conveys the bonds of understanding and mutual support that form in Skopje's poorest neighborhoods. At once historical and allegorical, folkloric and fantastic, *The Time of the Goats* draws lyrically on Starova's own childhood. *English Folk-song*

Folk Music: The Basics gives a brief introduction to British and American folk music. Drawing upon the most recent and relevant scholarship, it will focus on comparing and contrasting the historical nature of the three aspects of

understanding folk music: traditional, local performers; professional collectors; and the advent of professional performers in the twentieth century during the so-called "folk revival." The two sides of the folk tradition will be examined--both as popular and commercial expressions. Folk Music: The Basics serves as an excellent introduction to the players, the music, and the styles that make folk music an enduring and well-loved musical style. Throughout, sidebars offer studies of key folk performers, record labels, and related issues to place the general discussion in context.

EU Conditionality in the Western Balkans

London : Simpkin

The purpose of this book is to honor the fundamental contributions to many different areas of statistics made by Barry Arnold.

Distinguished and active researchers highlight some of the recent developments in statistical distribution theory, order statistics and their properties, as well as inferential methods associated with them. Applications to survival analysis, reliability, quality control, and environmental problems are emphasized.

In this collection of anecdotes, lessons, quotes, and prompts, author and writing teacher Barbara

Abercrombie provides a delightfully varied cornucopia of inspiration —nuts-and-bolts solutions, hand-holding commiseration, and epiphany-fueling insights from fellow writers, including Nobel and Pulitzer Prize winners and Abercrombie’s students who have gone from paralyzed to published.

Making Music in the Polish Tatras Princeton University Press

What is national identity? What are the main challenges posed to national identity by the strengthening of regional identities and the growth of cultural diversity? How is right-wing nationalism connected to the desire to preserve a traditional image of national identity? Can we forge a new kind of

national identity that responds to the challenges of globalization and other deep-seated changes? In this important new book, Montserrat Guibernau answers these and other compelling questions about the future of national identity. For Guibernau, the nation-states traditional project to unify its otherwise diverse population by generating a shared sense of national identity among them was always contested, and was accomplished with various degrees of success in Europe and North America. Such processes involved the cultural and linguistic homogenization of an otherwise diverse citizenry and were pursued by different means according to the

specific contexts within which they were applied. At present, the impact of strong structural socio-political and economic transformations has resulted in greater challenges being posed to the idea that all citizens of a state should share a homogeneous national identity. Diversity is increasing, and plans for further European integration contain the potential to generate significant tensions, casting greater doubt on the classical concept of national identity. As a result, we are faced with a set of new dilemmas concerning the way in which national identity is constructed and defined. The book offers a theoretical as well as a comparative approach, with case

studies involving Austria, Britain, Canada and Spain, as well as the European Union and the United States of America. The Identity of Nations will be essential reading for advanced students and professional scholars in sociology, politics and international relations. *Princes Amongst Men* Indiana University Press

Forty-year-old university professor Stuart Treece is rather set in his ways, and in the midst of the changing attitudes of the '50s, his encounters with the younger generation are making him feel decidedly alien. When he falls disastrously in love with one of his students all his efforts to acclimatize are hilariously undermined. Timeless and brilliant,

Eating People is Wrong is Malcolm Bradbury's first novel, and established him as a master of satire.

This volume examines how European institutions, the European Union in particular through its policy of conditionality, have shaped the post-conflict reconstruction of the Western Balkans. From state-building to democratization and environmental policies, this book explores whether and in what ways the EU has been successful in consolidating states and democracy in the Balkans. In addition to requiring countries to be ready to join the

European Union, the EU has also set new conditions in an effort to become the prime international organization involved in stabilizing the Western Balkans after the wars of the 1990s. Its record has been mixed: the conditions of the EU have often been haphazard and were frequently not followed through. In addition, enlargement towards the Western Balkans has been slow and marred by open questions over the stability of some countries in the region. This volume assesses the EU's struggle to transform the societies through conditionality and whether the offer of EU membership is enough to build stable democracies. This book was published as a special issue of Europe-

Asia Studies.

Traditionally, legal problems arising in connection with international business transactions had to be solved by a national law. This view was challenged in post war scholarly writing and transnational practice. It was argued that transnational rules (such as transnational contracts, general conditions, trade usages, general principles, uniform rules, arbitral cases) should be applied instead. Often, these transnational rules are referred to as *lex*

mercatoria. This volume analyzes the different legal approaches to international business problems (including the theory of lex mercatoria) as well as their implications for international practice. As such, the relevance and importance of substantive law and conflict of laws and of national, international and transnational rules are discussed both with regard to their application by national courts and by international commercial arbitrators. The Time of the Goats Cambridge : MIT Press The bestselling classic that redefined our view of the relationship between beauty and female identity. In today's world, women have more power, legal recognition, and

professional success than ever before. Alongside the evident progress of the women's movement, however, writer and journalist Naomi Wolf is troubled by a different kind of social control, which, she argues, may prove just as restrictive as the traditional image of homemaker and wife. It's the beauty myth, an obsession with physical perfection that traps the modern woman in an endless spiral of hope, self-consciousness, and self-hatred as she tries to fulfill society's impossible definition of "the flawless beauty."

White Spirituals in the Southern Uplands

Univ of California Press
Francis James Child's English and Scottish Popular Ballads,

published in ten parts from 1882 to 1898, contained the texts and variants of 305 extant themes written down between the thirteenth and nineteenth centuries. Unsurpassed in its presentation of texts, this exhaustive collection devoted little attention to the ballad music, a want that was filled by Bertrand Harris Bronson in his four volume Traditional Tunes of the Child Ballads. The present book is an abridged, one-volume edition of that work, setting forth music and text for proven examples of oral tradition, with a new comprehensive introduction. Its convenient format makes readily available to students and scholars the materials for a study of the Child

ballads as they have been preserved in the British-American singing tradition. Originally published in 1977. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905. In this classic work of intellectual history, Ernst Cassirer provides both a cogent synthesis and a penetrating analysis of one of history's greatest intellectual epochs: the Enlightenment. Arguing that there was a common foundation beneath the diverse strands of thought of this period, he shows how Enlightenment philosophers drew upon the ideas of the preceding centuries even while radically transforming them to fit the modern world. In Cassirer's view, the Enlightenment liberated philosophy from the realm of pure thought and restored it to its true place as an active and creative force through which knowledge of the world is achieved. In a new

foreword, Peter Gay considers The Philosophy of the Enlightenment in the context in which it was written--Germany in 1932, on the precipice of the Nazi seizure of power and one of the greatest assaults on the ideals of the Enlightenment. He also argues that Cassirer's work remains a trenchant defense against enemies of the Enlightenment in the twenty-first century. *The Cambridge History of Eighteenth-Century Political Thought* Springer Science & Business Media
 “Roxane Gay is so great at weaving the intimate and personal with what is most bewildering and upsetting at this moment in culture. She is always looking, always thinking, always

passionate, always careful, always right there.” — Sheila Heti, author of *How Should a Person Be?* A New York Times Bestseller Best Book of the Year: NPR • Boston Globe • Newsweek • Time Out New York • Oprah.com • Miami Herald • Book Riot • Buzz Feed • Globe and Mail (Toronto) • The Root • Shelf Awareness A collection of essays spanning politics, criticism, and feminism from one of the most-watched cultural observers of her generation In these funny and insightful essays, Gay takes us through the journey of her evolution as a woman (Sweet Valley High) of color (The Help) while also taking readers on a ride through culture of the last few years (Girls,

Django in Chains) and commenting on the state of feminism today (abortion, Chris Brown). The portrait that emerges is not only one of an incredibly insightful woman continually growing to understand herself and our society, but also one of our culture. *Bad Feminist* is a sharp, funny, and spot-on look at the ways in which the culture we consume becomes who we are, and an inspiring call-to-arms of all the ways we still need to do better, coming from one of our most interesting and important cultural critics.

Last Night's Fun's is a sparking celebration of music and life that is itself a literary

performance of the highest order. Carson's inspired jumble of recording history, poetry, tall tales, and polemic captures the sound and vigor of a ruthlessly unsentimental music. Last Night's Fun is remarkable for its

liveliness, honesty, scholarship, and spontaneous joy; certainly there has never been a book about Irish music like this one, and few books ever written anywhere about the experience of music can compare with it.
