Covering work through the nineteenth century, this lavishly illustrated book offers readers a look at 250 rare or unpublished images by some of the world's most important botanical artists. Truly global in its scope, *The Golden Age of Botanical Art* features work by artists from Europe, China, and India, recording plants from places as disparate as Africa and South America. Martyn Rix has compiled the stories and art not only of well-known figures—such as Leonardo da Vinci and the artists of Empress Josephine Bonaparte—but also of those adventurous botanists and painters whose names and work have been forgotten. A celebration of both extraordinarily beautiful plant life and the globe-trotting men and women who found and recorded it, *The Golden Age of Botanical Art* will enchant gardeners and art lovers alike.
