 Media Psychology examines the impact that 21st century media use has on human behavior, from teenage crushes on pop stars to soap fandom in adulthood. It brings together North American communication research with European media research in a variety of disciplines--psychology, sociology, communication and media studies--and in doing so, maps out the territory for media psychology. David Giles argues that psychologists have been guilty of ignoring the influence of the media over the last century, seeing it at best as a minor nuisance that will eventually go away. However, with the increasing prevalence of new electronic forms of mass communication, the media seem to have a greater influence than ever over our daily lives. In this book, Dr. Giles tackles the traditional topics of media psychology--sex, violence, advertising--along with sections on developmental aspects of

media influence and the psychology of the audience. He also examines a number of specific media genres--news, sports, soaps, and the increasingly popular audience participation media, such as "reality" and "lifestyle" television. In addition, he asks what light psychology can shed on the popularity of these genres and the response of their audiences. Finally, there are chapters on the increasing influence of the Internet and on the representation of psychology and psychologists themselves in the media.

One sultry night, a young bride overhears an extraordinary conversation. The voices speak of a plot to murder a wife who has failed to produce a child and whose family has failed to produce the promised dowry. . . Megha is sick with horror when she realizes she is the intended victim. Her husband--the very man who tied the sacred necklace of marriage around her neck--and his mother are plotting to kill her! In the moment of panic, she runs for her life. Frantically racing through Palgaum's deserted streets, her way lit only by the lights strung up for the Diwali festival, her single goal is to escape death by fire. But fleeing from her would-be killers seems impossible--unless she can find someone to help her. . . To approach her best friend would bring scandal to an innocent woman's doorstep, and turning to her own strict, conservative family is out of the question. Instead, with nothing but the sari she wears and a memory of kindness, Megha finds her way to Kiran, the one man who has shown her friendship and respect. Hiding her in his apartment, Kiran becomes her protector. But the forbidden attraction that grows between them can only bring more danger. . . Caught between tradition and the truths buried in her heart, a dowry bride will discover the real cost of the only things worth having in life. . . "Packed with detail. . . splendidly depicts passion, brutality, and cultures in conflict." --Dorothy Garlock

Jeanne de Jussie (1503-61) experienced the Protestant Reformation from within the walls of the Convent of Saint Clare in Geneva. In her impassioned and engaging Short Chronicle, she offers a singular account of the Reformation, reporting not only on the larger clashes between Protestants and Catholics but also on events in her convent—devious city councilmen who lied to trusting nuns, lecherous soldiers who tried to kiss them, and iconoclastic intruders who smashed statues and burned paintings. Throughout her tale, Jussie highlights women's roles on both sides of the conflict, from the Reformed women who came to her convent in an attempt to convert the nuns to the Catholic women who ransacked the shop of a Reformed apothecary. Above all, she stresses the Poor Clares' faithfulness and the good men and women who came to them in their time of need, ending her story with the nuns' arduous journey by foot from Reformed Geneva to Catholic Annecy. First published in French in 1611,

Jussie's Short Chronicle is translated here for an English-speaking audience for the first time, providing a fresh perspective on struggles for religious and political power in sixteenth-century Geneva and a rare glimpse at early modern monastic life.

This is the first volume to focus specifically on Rabindranath Tagore's dramatic literature, visiting translations and adaptations of Tagore's drama, and cross-cultural encounters in his works. As Asia's first Nobel Laureate, Tagore's highly original plays occupy a central position in the Indian theatrescape. Tagore experimented with dance, music, dance drama, and plays, exploring concepts of environment, education, gender and women, postcolonial encounters, romantic idealism, and universality. Tagore's drama plays a generous host to experimentations with new performance modes, like the writing and staging of an all-women play on stage for the first time, or the use of cross-cultural styles such as Manipuri dance, Thai craft in stage design, or the Baul singing styles. This book is an exciting re-exploration of Tagore's plays, visiting issues such as his contribution to Indian drama, drama and environment, feminist readings, postcolonial engagements, cross-cultural encounters, drama as performance, translational and adaptation modes, the non-translated or the non-translatable Tagore drama, Tagore drama in the 21st century, and Indian film. The volume serves as a wide-ranging and up-to-date resource on the criticism of Tagore drama, and will appeal to a range of Theatre and Performance scholars as well as those interested in Indian theatre, literature, and film.

Kashur-The Kashmiri Speaking People is the out come of a dedicated research where in the author on the basis of geological, archeological, chronological and linguistic evidences has presented a truthful and unbiased account of the group she herself belongs to. She projects, and rightly so, that the Kashur from the ancient eras possessed highly developed spiritual and intellectual caliber that helped these people per se to evolve into one of the richest social, religious and literary cultural linguistic group. In this effort she has analyzed and given clarification to certain commonly held misconceptions. She explains that legends created by primitive ancestors are not myths made up as entertaining stories but are based on reality and are representations of the living truth that has been perceived by the compilers. Those interested in the rich cultural heritage of the Kashur, their architectural acumen, their proficiency in historicity, their mastery in languages, their zeal as torch bearers of various religions, and their ever-changing social order inclusive of their faults and foibles will find this book a great help and a guide. This book even records the excesses, hardships and tyrannies that the Kashur has had to face under the rule of various invaders and usurpers in their long political chronology of almost 5,000 years and the struggles they have had put in, to survive these onslaughts bravely and at times even slyly.

An innovative cultural history of the evolution of modern marriage practices in Bengal, *Marriage and Modernity* challenges the assumption that arranged marriage is an antiquated practice. Rochona Majumdar demonstrates that in the late colonial period Bengali marriage practices underwent changes that led to a valorization of the larger, intergenerational family as a revered, "ancient" social institution, with arranged marriage as the apotheosis of an "Indian" tradition. She meticulously documents the ways that these newly embraced "traditions"—the extended family and arranged marriage—entered into competition and conversation with other emerging forms of kinship such as the modern unit of the couple, with both models participating promiscuously in the new "marketplace" for marriages, where matrimonial advertisements in the print media and the payment of dowry played central roles. Majumdar argues that together the kinship structures newly asserted as distinctively Indian and the emergence of the marriage market constituted what was and still is modern about marriages in India. Majumdar examines three broad developments related to the modernity of arranged marriage: the growth of a marriage market, concomitant debates about consumption and vulgarity in the conduct of weddings, and the legal regulation of family property and marriages. Drawing on matrimonial advertisements, wedding invitations, poems, photographs, legal debates, and a vast periodical literature, she shows that the modernization of families does not necessarily imply a transition from extended kinship to nuclear family structures, or from matrimonial agreements negotiated between families to marriage contracts between individuals. Colonial Bengal tells a very different story.

The Poverty of Clio challenges the hold that cliometrics—an approach to economic history that employs the analytical tools of economists—has exerted on the study of our economic past. In this provocative book, Francesco Boldizzoni calls for the reconstruction of economic history, one in which history and the social sciences are brought to bear on economics, and not the other way around. Boldizzoni questions the appeal of economics over history—which he identifies as a distinctly American attitude—

-exposing its errors and hidden ideologies, and revealing how it fails to explain economic behavior itself. He shows how the misguided reliance on economic reasoning to interpret history has come at the expense of insights from the humanities and has led to a rejection of valuable past historical research. Developing a better alternative to new institutional economics and the rational choice approach, Boldizzoni builds on the extraordinary accomplishments of twentieth-century European historians and social thinkers to offer fresh ideas for the renewal of the field. Economic history needs to rediscover the true relationship between economy and culture, and promote an authentic alliance with the social sciences, starting with sociology and anthropology. It must resume its dialogue with the humanities, but without shrinking away from theory when constructing its models. The Poverty of Clio demonstrates why history must exert its own creative power on economics.

The extraordinary creative energy of Renaissance Italy lies at the root of modern Western culture. In her elegant new introduction, Virginia Cox offers a fresh vision of this iconic moment in European cultural history, when - between the fourteenth and sixteenth centuries - Italy led the world in painting, building, science and literature. Her book explores key artistic, literary and intellectual developments, but also histories of food and fashion, map-making, exploration and anatomy. Alongside towering figures such as Leonardo da Vinci, Michelangelo, Raphael, Petrarch, Machiavelli and Isabella d'Este, Cox reveals a cast of lesser-known protagonists including printers, travel writers, actresses, courtesans, explorers, inventors and even celebrity chefs. At the same time, Italy's rich regional diversity is emphasised; in addition to the great artistic capitals of Florence, Rome and Venice, smaller but cutting-edge centres such as Ferrara, Mantua, Bologna, Urbino and Siena are given their due. As the author demonstrates, women played a far more prominent role in this exhilarating resurgence than was recognized until very recently - both as patrons of art and literature and as creative artists themselves. 'Renaissance woman', she boldly argues, is as important a legacy as 'Renaissance man'.
