The roots of "Ootame, vaatame" "Let's  
wait and see," are embedded in the  
deepest chasm of the Estonian psyche  
because, for a very long time, the people  
had little choice to do anything else. This  
philosophy is a close relation to the  
Spanish mañana ("tomorrow"). The  
difference is that the languid Spanish are  
just deferring something. The pragmatic

Estonians are not. They are waiting and seeing. A guide to understanding the Estonians which dispels or confirms preconceived prejudices with humor and insight.

Xenophobe's Guides

A guide to understanding the Greeks which takes an insightful, irreverent look at their character and attitudes "Xenophobia: an irrational fear of foreigners, probably justified, always understandable." "Xenophobe's Guides: an irreverent look at the beliefs and foibles of nations, almost guaranteed to cure Xenophobia." Individuality is the chief feature that characterizes the Greeks, which precludes any attempt to box and label them as a people. After that comes their temperament which flourishes uninhibited throughout their waking hours. This is probably why the ancient sages saw fit to carve their maxims "Nothing in excess" and "Know thyself" on the portals

of the Delphic Oracle in an attempt to persuade their fellow Greeks to curb their emotions they were not heeded then any more than they are now."

The Xenophobe's Guide to the Danes  
The Norwegian man-hug is more a show of strength than a greeting and is usually a painful experience for the smaller of the two. There is nothing more important to Norwegians than enjoying the great outdoors. Happily, they have a lot of outdoors to enjoy. Foreigners brought up with the belief that relaxing involves lounging on the sofa may find leisure time in Norway challenging. What makes the Norwegians Norwegian? A witty guide to the views and values that shows why their way is the Norway. The Hungarians are a fascinating people. They have little common ancestry with most other Europeans (their closest

relatives are the Finns) and their sense of being different has no doubt been strengthened both by their country's distinguished history and by its more recent experience of being fought over by others. The book gives an humorous, insightful and interesting account of what makes them tick.

"The quintessence of unspoken mutual understanding is to be found in the word yoroshiku: 'You have understood what I want you to do. I have understood that you have understood what I want you to do. Therefore I leave it up to you to finish the task and I expect it to be done in the way I want it to be done. And I thank you for understanding me and agreeing to take the trouble to do the task.' All this in four syllables." "For all the apparent worship of the way of the warrior, being yasashii, which means being gentle, tender, caring, yielding and considerate, is very important in Japan. Asked what a Japanese values most in a potential spouse, both sexes tend to put being being yasashii at the top of their list of desirable virtues. The concept is even applied to the inanimate.

For instance, a car or shampoo can be yasashii to you, to the eye, and to the environment."

Xenophobe's Guide

This is one of a series of guides designed

to tell the truth about other nations, using sweeping generalizations and observations as a base, detailing what to expect and how to cope with it. The guides try to explain why things are done the way they are and they try to allay the feelings of trepidation with which the xenophobe approaches new territory. This particular book looks at Australians.

Belgians like above all to be practical, solid. They stand square and conduct conversation from the base of the neck. Courteous behaviour is expected: it is the natural product of right-mindedness. It is also practical: that is how you get on in the world. Belgians would be very happy indeed if all the world knew them to be good-natured, tolerant, individualistic, self-assertive, modest, moderate, and the embodiment of European ideals. This is a long-term project. Meanwhile being placed somewhere on the map of Europe will do.

All roads lead to Czechia The Czechs seem to believe that the Earth is the center of the Universe, Europe is the centre of the Earth, and Czechia is at the centre of Europe. Reality Czechs The ability to put up with a situation adjusting as needs must has been elevated to an art form. Chuckling Czechs Czech humor is distinguished by mad screams, breast and thigh slapping, and uncontrollable braying. Top of the Czech list The Czechs would like to be seen as the cauldron in which all that's good from West and East melts; and if not the best, then at least one of the top nations in the world.
