Viola--the first Western scholar to gain access to the Soviet state archives on collectivization--brilliantly examines a lost chapter in the history of the Stalin revolution. Looking in detail at the backgrounds, motivations, and mentalities of the 25,000ers, Viola embarks on the first Western investigation of the everyday activities of Stalin's rank-and-file shock troops, the "leading cadres" of

socialist construction. In the process, Viola sheds new light on how the state mobilized working-class support for collectivization and reveals that, contrary to popular belief, the 25,000ers went into the countryside as willing recruits. This unique social history uses an "on the scene" line of vision to offer a new understanding of the workings, times, and cadres of Stalin's revolution.

The explosive growth of China's economy since the late 1970s has impacted the whole world including the minority peoples in the west of China - people like the Qiang, Tibetans and Yi. Based on fieldwork in the high valleys of the eastern margins of the Qinghai-Tibetan plateau, David Burnett has

produced a unique study of a people known as the Rgyalrong (officially classed as Tibetans). The Rgyalrong have been impacted by secular education, tourism, and migration to the cities that have resulted from economic reform. Amidst these changes, they endeavour to retain something of their traditional customs, songs, festivals, arts and crafts. They are a

people who realize that if they lose their unique culture they will lose their very identity. The issues raised in this book relate not only to the Rgyalrong but to minority peoples everywhere as they experience the forces of globalization. **A New Universal and Pronouncing Dictionary of the French and English Languages** Cambridge University Press This carefully crafted ebook

--	--	---

These reforms were carried out amid economic crisis, structural adjustment and political upheaval. At the time, popular sentiment was that change on the economic and political fronts was imperative. However, the ruling elite, some of whom had been shuttling around the state apparatus since independence, feared that succumbing to popular demands for change was tantamount to political suicide, as was the case elsewhere on the continent. These elites thwarted opposition demands for a 'sovereign' national conference to discuss constitutional reform. The Francophone-dominated elite fiercely objected to Anglophone demands for the restoration of the Federal state that was dissolved in 1972. Instead, decentralisation was presented as an authentic forum for grassroots autonomy and municipal councils as credible arenas for community participation in local development. This study adopts an interdisciplinary approach to unearth the permutations of decentralisation and community participation in Cameroon. It explores how local actors have responded to the implementation of state policy of

decentralisation. Further, it documents how local issues observed in Bali in the North West Region and Mbankomo in the Central Region of Cameroon impact and are impacted by national policies and processes.

Modern Japanese share a myth to the effect that they harbor in their midst an inferior race less "human" than the stock that fathered their nation as a whole. These pariahs, numbering more than two million, are segregated by caste just as firmly as the Negro is in the United States.

The present volume, to which several Japanese and American social scientists have contributed, offers an interdisciplinary description and analysis of this strangely persistent phenomenon, inherited from feudal times. Its main thesis is that caste and racism are derivatives of identical psychological processes in human personality, however differently structure they

may be in social institutions. It finds that what it terms status anxiety, related to defensively held social values, leads to a need to segregate disparaged parts of the population on grounds of innate inferiority. Until the time of their official emancipation in 1871, the so-called eta were distinguished visibly by their special garb. Today few clues to their identity are visible; yet, they remain a

distinguishable, segregated segment of the population and bear inwardly, in a psychological sense, the stigma resulting from generations of oppression. This volume traces the story of the outcasts in complete detail--their origin, their stormy post-emancipation history, and their present leftist political significance. Large populations of outcasts live in urban ghettos within the major cities of

south-central Japan. In some of these metropolitan centers they comprise up to 5 percent of the population but contribute 60 to 65 percent of unemployment and relief roles. They have periodic trouble with the police; they manifest a delinquency rate more than three times that of the ordinary population; their children do poorly in school; they are subject to various forms of job discrimination; and few

marriages are successfully consummated across the caste barrier. Some try to escape their past identity by becoming prostitutes or by entering the underworld. Those who survive discrimination to achieve status in society either live in fear of exposure [if they are "passing"] or overtly maintain their identity in proud isolation. Some who live in rural communities have achieved

equal economic status with their neighbors but not full social acceptance. In their theoretical closing discussion the authors offer a challenging critique of Marxian class theory in introducing the concept of "expressive" exploitation-- that is, the psychological use of a subordinate group as a repository of what is disavowed by the values of a caste society-- as distinct in

form and function from the "instrumental" economic or political exploitation of subjected minorities in class societies. Contributors: Gerald Berreman, John B. Presents Burke's early literary writings up to 1765, and before he became a key political figure. It is the first fully annotated and critical edition, with

comprehensive notes and an authoritative introduction. The writings published here introduce readers to Burke's early attempts at a public voice. v. 3. Continues the story of Burke, the Rockingham party of Whigs to which he adhered, and the American crisis. Burke had already established himself as a master of debate and an accomplished writer in the early 1770s; by the end of the decade he

was recognized as one of the greatest parliamentarians of the age. v. 4. The fourth volume in the Writings and Speeches of Edmund Burke series is also the last of the three Party and Parliament volumes, which follow through from the opening of a newly elected Parliament which assembled on 31 October 1780 to his retirement from the Commons in 1794. This

volume addresses Burke's views on the authority of Parliament over the British provinces in India, and his concerns about the implications of the French Revolution for British politics. He also expresses his views on issues that had always greatly interested him, such as the reform of criminal law, the confinement of debtors, and the abolition of what he

regarded as outmoded economic regulations. The texts for the items, which have appeared in previous editions of Burke's Works, have been reconstructed, largely by the use of manuscripts, and many of the shorter speeches appear here in print for the first time. v. 5. A scholarly edition of the writings and speeches of Edmund Burke. The edition presents an authoritative

text, together with an introduction, commentary notes, and scholarly apparatus. v. 6. Contains Burke's writings and speeches during two years in the House of Commons and the first session of the trial in the House of Lords. The volume covers the beginnings of the famous impeachment of Warren Hastings, which was to be one of Burke's major preoccupation s for the rest

of his life. The speeches convey Burke's vision of India and of imperial justice, as well as his moral and political thought as a whole on the eve of the French Revolution. v. 7. This key volume specifically completes the collection of Edmund Burke's Indian Writings and Speeches which is set within the series, and is both an exposition of Burke's views on India from his coverage of the

Hastings trial, and his views on maintaining the rule of a universal justice. The texts for the items, which have appeared in previous editions of Burke's Works, have been reconstructed, largely by the use of manuscripts. Indeed many of the shorter speeches appear here in print for the first time. The volume includes a key speech which introduced one of the main charges

in the trial of Warren Hastings on an impeachment from 1789-1794, and an important report on the conduct of the trial. It closes with Burke's important and detailed summation of the prosecution's. However, this volume is not only a full exposition of Burke's views on India but contains much of great interest about other aspects of his thought. In particular, Burke saw himself in

these years as being engaged in a battle against the lawless disruption of society, both in Europe and in Asia, in order to maintain the rule of a universal justice, a main theme of this volume. v. 8. This is the first edition of Burke's famous Reflections on the Revolution in France to appear for twenty years. No edition of his other writings on the Revolution has appeared for almost a century. In

these years, the background against which Burke wrote has been much studied, throwing new light on his motives for commentating on France, and the reasons why his writings were both widely read and widely rejected. Published two hundred years after the outbreak of the French Revolution, this edition shows that the issues raised by the most influential commentaries on that

<p>Revolution have yet to be resolved. v. 9. This collection of the writings and speeches of Burke include a critique of the French Revolution which expresses much of his matured thinking on political and social life and issued a call for a European crusade to save civilization; and his thoughts on Irish constitutional, economic, and religious problems and Anglo-Irish relations. --</p>	<p>Publisher. <u>The Writings and Speeches of Edmund Burke: Party, Parliament, and the American crisis, 1766-1774</u> Taylor & Francis No socialist organization has ever had a more profound effect on black life than the Communist Party did in Harlem during the Depression.  In the 1820s, young congressman Willie Mangum imbibed the political philosophy of North Carolina's senior senator Nathaniel Macon, the "prophet of pure republicanism." From his election in 1824, Mangum was at the epicenter of national and

state government. In the 1830s, he emerged as leader of an opposition party--the Whigs--and became an opponent of Andrew Jackson and his Democratic Party. Mangum's career offers insight into the ideology and politics of North Carolina's Whigs. Opposition to executive power was fundamental to the Whig platform but in North Carolina the party was a

coalition that melded the Old Republicans' creed with the National Republican economic agenda touted by Henry Clay, a combination that enabled them to dominate. Mangum and the Carolina Whigs have received little attention from scholars. This book traces their rapid rise to power and their even more rapid fall in the years prior to the Civil War. In Making Uzbekistan, Adeeb Khalid chronicles the tumultuous history of Central Asia in the age of the Russian revolution. He explores the complex interaction between Uzbek intellectuals, local Bolsheviks, and Moscow to sketch out the flux of the situation in early-Soviet Central Asia. His focus on the Uzbek intelligentsia allows him to recast our understanding of Soviet

nationalities policies. Uzbekistan, he argues, was not a creation of Soviet policies, but a project of the Muslim intelligentsia that emerged in the Soviet context through the interstices of the complex politics of the period. Making Uzbekistan introduces key texts from this period and argues that what the decade witnessed was nothing short of a cultural revolution. **Mobile Japanese Migrants to**

<p>Confronting Apartheid and Foreign Policy Joseph Nanven Garba came to international attention in July 1975, as a member of Supreme Military Council in Nigerias new military government. Then a Colonel, the commander of the Brigade of Guards and a distinguished career officer, fate, which some call luck, thrust upon him the role of Commissioner (Minister) for External Affairs, after initially being</p>	<p>slotted for the Transport portfolio. A diplomatic neophyte, Garba, who characterized himself as the most undiplomatic soldier there was, would learn the finer points and also the caprices of international diplomacy on the job. He did well, serving as Nigerias foreign minister, from 1975-1978 and consequently holding key diplomatic, academic and political positions - all which offered</p>	<p>him the unfettered pulpit to speak assertively on national and international issues within his remit. When Garba spoke, people listened; for he was eloquent, had the personality and did not dodge heady issues. Voices from Croke Park charts the journeys of 12 true greats of the Gaelic games, each of whom has helped shape the rich history of football and hurling. These are men who pursued glory in Ireland's greatest sporting arena, players whose passion and vision were embodied in

<p>their performances in their county's jersey. The footballers featured are Bernard Flynn (Meath), Mikey Sheehy (Kerry), Ciarán Whelan (Dublin), Anthony Molloy (Donegal), Peter Canavan (Tyrone), Liam McHale (Mayo) and Cork footballer and hurler Jimmy Barry-Murphy. From hurling, Eamonn O'Donoghue (Cork), Tony Keady (Galway), DJ Carey (Kilkenny), Gerard</p>	<p>McGrattan (Down) and Michael Duignan (Offaly) are interviewed. This collection is a celebration of their achievements in the GAA, with their stories brought vividly to life by Ireland's leading sportswriters. <i>Decentralisation and Community Participation</i> Princeton University Press Rarely did ancient authors write about the lives of women; even more</p>	<p>rarely did they write about the lives of ordinary women: not queens or heroines who influenced war or politics, not sensational examples of virtue or vice, not Christian martyrs or ascetics, but women of moderate status, who experienced everyday joys and sorrows and had everyday merits and failings. Such a woman was Monica--now Saint Monica because of her relationship with her son Augustine,</p>
--	---	---

who wrote about her in the Confessions and elsewhere. Despite her rather unremarkable life, Saint Monica has inspired a robust controversy in academia, the Church, and the Augustine-reading public alike: some agree with Ambrose, bishop of Milan, who knew Monica, that Augustine was exceptionally blessed in having such a mother, while others think that Monica is

a classic example of the manipulative mother who lives through her son, using religion to repress his sexual life and to control him even when he seems to escape. In *Monica: An Ordinary Saint*, Gillian Clark reconciles these competing images of Monica's life and legacy, arriving at a woman who was shrewd and enterprising, but also meek and gentle. Weighing

Augustine's discussion of his mother against other evidence of women's lives in late antiquity, Clark achieves portraits both of Monica individually, and of the many women like her. Augustine did not claim that his mother was a saint, but he did think that the challenges of everyday life required courage and commitment to Christian principle. Monica's ordinary life, as both he and Clark tell

it, showed both. Monica: An Ordinary Saint illuminates Monica, wife and mother, in the context of the societal expectations and burdens that shaped her and all ordinary women.

This book explores the varying ways in which political parties in Europe make arguably their most important decisions: the selection of

their leaders. The choice shapes the representation of a party externally. It also influences the management of internal conflict, because there will always be some disagreement about the party's direction. The rules of selection will naturally affect the outcome. Yet there is more to it than rules. Sometimes the process is open and fiercely contested. Sometimes

the field of potential leaders is filtered even before the decision reaches the selectorate – the organ that, according to party statutes, formally makes the appointment. The selectorate might have only a single candidate to ratify, a so-called 'coronation'. The book presents a framework for analysing both the formal and informal sides of leader selection, and hones the

framework through its application in a series of case studies from nine European countries.
