Stranded at the Drive-In

St. Martin's Griffin

She bullied, bluffed, and bribed her students into caring about school. And if that didn't work, the pretty, petite ex-marine told them she'd been trained to kill with her bare hands. They were called the class from Hell—thirty-four inner city sophomores she inherited from a teacher who'd been "pushed over the edge." She was told "those kids have tasted blood. They're dangerous." But LouAnne Johnson had a different idea. Where the school system saw thirty-four unreachable kids, she saw young men and women with intelligence and dreams. When others gave up on them, she broke the rules to give them the best things a teacher can give—hope and belief in themselves. When statistics showed the chances were they'd never graduate, she fought to beat the odds. This is her remarkable story—and theirs. If you loved *Stand and Deliver*, you'll stand up and cheer for LouAnne Johnson and *Dangerous Minds*.

Charlie Kaufman Columbia University Press

The #1 New York Times bestselling (mostly true) memoir from the hilarious author of *Furiously Happy*. "Gaspingly funny and wonderfully inappropriate."—O, The Oprah Magazine When Jenny Lawson was little, all she ever wanted was to fit in. That dream was cut short by her fantastically unbalanced father and a morbidly eccentric childhood. It did, however, open up an opportunity for Lawson to

find the humor in the strange shame-spiral that is her life, and we are all the better for it. In the irreverent *Let's Pretend This Never Happened*, Lawson's long-suffering husband and sweet daughter help her uncover the surprising discovery that the most terribly human moments—the ones we want to pretend never happened—are the very same moments that make us the people we are today. For every intellectual misfit who thought they were the only ones to think the things that Lawson dares to say out loud, this is a poignant and hysterical look at the dark, disturbing, yet wonderful moments of our lives. Readers Guide Inside *Freak the Mighty* Orion This revealing study looks at the influences and creative impulses that shape one of today's most progressive, thoughtful filmmakers. Charlie Kaufman got his start in television, but it was his first film, the eccentric *Being John Malkovich*, that won notice for his unique storytelling style. With the aid of a plethora of contributions from those with whom the writer has worked, Charlie Kaufman: *Confessions of an Original*

Mind presents the intriguing story of that movie and others as it examines one of the most innovative voices in modern film. This exhaustive study of Kaufman's life and work is organized chronologically to cover his early influences as well as his most-recent ventures. Highlights include explorations of Kaufman's collaboration with Being John Malkovich director Spike Jonze—who stood him up for their first meeting—and the writer's conflict with George Clooney (about whom Kaufman says, "I can tell you that George Clooney is my least favorite person"). There are analyses of *Human Nature*, *Adaptation*, and the hauntingly beautiful *Eternal Sunshine of the Spotless Mind*, which led to an Academy Award. The book also studies Kaufman's sound plays for Theatre of the New Ear and his directorial debut, *Synecdoche, New York*.

Nicholas Mag
 "This short book makes you smarter than 99% of the population. . . . The concepts within it will increase your company's 'organizational intelligence.' . . . It's more than just a must-read, it's a 'have-to-read-or-you're-

fired' book."—Geoffrey James, INC.com From the author of *An Illustrated Book of Loaded Language*, here's the antidote to fuzzy thinking, with furry animals! Have you read (or stumbled into) one too many irrational online debates? Ali Almosawi certainly had, so he wrote *An Illustrated Book of Bad Arguments!* This handy guide is here to bring the internet age a much-needed dose of old-school logic (really old-school, a la Aristotle). Here are cogent explanations of the straw man fallacy, the slippery slope argument, the ad hominem attack, and other common attempts at reasoning that actually fall short—plus a beautifully drawn menagerie of animals who (adorably) commit every logical faux pas. Rabbit thinks a strange light in the sky must be a UFO because no one can prove otherwise (the appeal to ignorance). And Lion doesn't believe that gas emissions harm the planet because, if that were true, he wouldn't like the result (the argument from consequences). Once you learn to recognize these abuses of reason, they start to crop up everywhere from congressional debate to

YouTube comments—which makes this geek-chic book a must for anyone in the habit of holding opinions.

Acclaimed writer of *This is Uncool* and *Popcorn* turns his attention to the (first ever) look at the teen movie Everyone undergoes some kind of teenage trauma, and a fundamental way of coping, or rite of passage, is the teen movie. Yet until now there has been no book that explores this successful movie sub-genre with any depth. Step forward Garry

Mulholland, who, taking his cue from his previous, hugely acclaimed pop culture list books (*This is Uncool* and *Fear of Music*), seeks to create a pantheon of the very finest teen movies, or in Garry Mulholland's words: 'I'll be doing what film critics have been loathe to do since the 1950s, and taking the entire subculture of teen movies seriously, making a constant and compelling argument that *Grease* and *A Nightmare on Elm Street* tell us a great deal more about modern life and human nature than *Citizen Kane* and *The Godfather*.' From *Kes* to *Fame*, *Badlands* to the *Breakfast Club*, and *National Lampoon's Animal House* to *Twilight*, Garry Mulholland re-evaluates a much maligned genre, and brings it all back again: the good, the bad and the traumatic.

My Posse Don't Do Homework St. Martin's Griffin

In this funny and insightful book, Gary Rubinstein relives his own truly disastrous first year of teaching. He begins his teaching career armed only with idealism and romantic visions of teaching—and absolutely no classroom

management skills. By his fourth year, he is named "Teacher of the Year." As Rubinstein details his transformation from incompetent to successful teacher, he shows what works and what doesn't work when managing a classroom such as:

Develop a teacher look. The teacher look says, "There's nothing you can do that I haven't already seen, so don't even bother trying." Show students that you are a "real" teacher by doing things they expect of real teachers, at least for a while. Be prepared to utter a decisive answer to anything within 2 seconds. Decisive answers inspire confidence. Any teacher—experienced or not—will enjoy this honest and humorous look at the real world of teaching!

Buried FriesenPress

In *Furiously Happy*, #1 New York Times bestselling author Jenny Lawson explores her lifelong battle with mental illness. A hysterical, ridiculous book about crippling depression and anxiety? That sounds like a terrible idea. But terrible ideas are what Jenny does best. As Jenny says: "Some people might think that being 'furiously happy' is just an excuse to be stupid and irresponsible and invite a herd of kangaroos over to your house without telling your husband first because you suspect he would say no since he's never particularly liked kangaroos. And that would be ridiculous because no one would invite a herd of kangaroos into their house. Two is the limit. I speak from personal experience. My husband says that none is the new limit. I say he should have been clearer about that before I rented all those kangaroos. "Most

of my favorite people are dangerously fucked-up but you'd never guess because we've learned to bare it so honestly that it becomes the new normal. Like John Hughes wrote in *The Breakfast Club*, 'We're all pretty bizarre. Some of us are just better at hiding it.' Except go back and cross out the word 'hiding.'" *Furiously Happy* is about "taking those moments when things are fine and making them amazing, because those moments are what make us who we are, and they're the same moments we take into battle with us when our brains declare war on our very existence. It's the difference between "surviving life" and "living life". It's the difference between "taking a shower" and "teaching your monkey butler how to shampoo your hair." It's the difference between being "sane" and being "furiously happy." Lawson is beloved around the world for her inimitable humor and honesty, and in *Furiously Happy*, she is at her snort-inducing funniest. This is a book about embracing everything that makes us who we are - the beautiful and the flawed - and then using it to find joy in fantastic and outrageous

ways. Because as Jenny's mom says, "Maybe 'crazy' isn't so bad after all." Sometimes crazy is just right.

[Let's Pretend This Never Happened](#) Experiment, LLC From Slacker (1991), a foundational work of independent American cinema, to the Before trilogy, Richard Linklater's critically acclaimed films and aesthetic ambition have earned him a place as one of the most important contemporary directors. In this second edition of *The Cinema of*

Richard Linklater, Rob Stone shows how Linklater's latest films have redefined our understanding of his work. He offers critical discussions and analysis of all of Linklater's films, including *Before Midnight* (2013) and *Everybody Wants Some!!* (2016), as well as new interviews with Linklater and a chapter on *Boyhood* (2014), hailed as one of the best films of the twenty-first century. Stone explores the theoretical, practical, contextual, and metaphysical elements in Linklater's filmography, especially his experimentation with

cinematic representations of time and growth. He demonstrates that fanciful lives and lucid dreams are as central as alternative notions of America and time to Linklater's films. Stone also considers Linklater's collaborative working practices, his deployment of such techniques as rotoscoping, and his innovative distribution strategies. Thoroughly revised, updated, and extended, the book includes analysis of all of Linklater's films, including *Dazed and Confused* (1993), *Waking Life* (2011), and *A Scanner Darkly* (2006) as well as his documentaries, short films, and side projects.
